ICTNWK431 Create network documentation

Release: 1

ICTNWK431 Create network documentation

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to determine network requirements and produce and evaluate network documentation.

It applies to individuals involved in roles requiring task management and competent Information and Communications Technology (ICT) skills, including network administrators, technicians and support personnel.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Networking

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine network documentation requirements	1.1 Determine document purpose and standards according to organisational requirements 1.2 Define required network configuration 1.3 Develop naming standards and labelling schemes according to organisational requirements 1.4 Develop, calculate and verify network addressing scheme according to task requirements
2. Design network diagrams and checklists	2.1 Identify network software mapping tools according to task requirements 2.2 Design network diagrams according to task requirements and organisational procedures 2.3 Develop plans, checklists and manuals according to

ELEMENT	PERFORMANCE CRITERIA
	organisational procedures and task requirements
3. Produce network documentation	3.1 Validate documentation structure according to task requirements and organisational procedures 3.2 Produce network diagrams, plans and checklists according to organisational procedures 3.3 Produce network according to task requirements 3.4 Document procedure and policy manuals according to organisational requirements and industry standards
4. Complete network documentation	4.1 Check network documentation with required organisational personnel 4.2 Publish network documentation according to task requirements and organisational policies and procedures 4.3 Record and store network documentation according to organisational policies and procedures 4.4 Notify required personnel of completed network documentation and initiate final sign off

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Numeracy	<ul style="list-style-type: none"> Recognises, compares and interprets technical data when developing network addressing scheme
Oral Communication	<ul style="list-style-type: none"> Articulates requirements and strategies using technical language appropriate to audience and environment
Reading	<ul style="list-style-type: none"> Gathers, interprets and analyses current industry information from a range of sources and identifies relevant and key information
Writing	<ul style="list-style-type: none"> Prepares required documentation conveying explicit recommendations, requirements and information using specific and relevant language
Teamwork	<ul style="list-style-type: none"> Identifies and takes steps to follow accepted communication practices and protocols

Unit Mapping Information

Supersedes and is equivalent to ICTNWK412 Create network documentation.
