ICTPMG202 Plan, organise and undertake work activities

Release: 1

ICTPMG202 Plan, organise and undertake work activities

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 2.0.

Application

This unit describes the skills and knowledge required to plan, organise and undertake work activities in a telecommunications environment, including voice, video and data networks in domestic, commercial or industrial installations.

It applies to individuals who plan, organise and undertake work on client premises and who may be part of a project team responsible for cabling equipment deployment in network infrastructure, such as broadband provisioning, wireless mobile and data networks.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Telecommunications – project management

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
