Assessment Requirements for ICTSAD402 Develop and present ICT feasibility reports

Release: 1

Assessment Requirements for ICTSAD402 Develop and present ICT feasibility reports

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- Develop a feasibility report for a systems solution.

In the course of the above, the candidate must:

- Identify and confirm the services required
- Identify and propose feasible solutions for the client.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- client business domain, problem and opportunity potential within that environment
- functions and features of a system's functionality
- stakeholders' roles and levels of responsibility in the development of feasibility reports
- industry standard system development methodologies
- feasibility report structure and purpose
- organisational policies and procedures applicable to developing feasibility reports.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- client requirements
- report writing template
- text-editing software

- client expectations brief
- information on required Information and Communications Technology (ICT) business solutions
- organisational business processes
- budgets for business scenarios
- outcomes of business analysis process.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
