# Assessment Requirements for ICTSAD510 Manage risks when implementing new technologies

## Modification History

Release	Comments
Release 1	<p>This version first released with the Information and Communications Technology Training Package Version 8.0.</p> <p>Supersedes and is equivalent to ICTSAD503 Minimise risk of new technologies to business solutions.</p> <p>Supersedes and is not equivalent to:</p> <ul style="list-style-type: none"><li>• ICTGAM419 Build a database to support a computer game</li><li>• ICTNWK515 Develop configuration management protocols.</li></ul> <p>Updated title to better reflect unit scope.</p>

## Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage risks during the implementation of at least two different technologies
- develop at least one contingency plan
- conduct at least one risk analysis.

In the course of the above, the candidate must:

- present risk contingency plans and key insights
- apply required organisational policies and procedures.

## Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- functions and features of common technological solutions, including:
  - accessibility technologies
  - security technologies
  - remote collaboration technologies
- key functions and features of risk analyses, including:
  - likelihood of occurrence

- risk strength
- impact
- solutions
- key functions, features and limitations of implementing technological solutions, including:
  - scalability
  - complexity
  - security
  - risk factors
- key features of a technological implementation contingency plan, including:
  - testing schedules
  - detailed steps
  - review timeline
- types and functions of feedback channels
- organisational presentation methods and tools
- risk management processes
- organisational formats for documentation
- organisational policies and procedures and legislative requirements relating to work tasks.

## Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- required risk analysis tools
- organisational policies and procedures required to demonstrate the performance evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
