ICTSAS304 Provide basic system administration

Release: 1

ICTSAS304 Provide basic system administration

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to implement components of systems backup, restore, security and licensing in a stand-alone or client server environment.

It applies to individuals who, while working under limited supervision, have responsibility in a frontline technical support capacity to exercise discretion and judgement, using appropriate knowledge to provide assistance.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Systems administration and support

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Record security access	1.1 Obtain client access requirements and clearance levels according to organisational requirements 1.2 Issue computer or network user account and password details to client 1.3 Provide security documentation and access to client 1.4 Record user account and security access details to maintain system integrity and assist later auditing
2. Record software licences	2.1 Determine what licensed software is used within the organisation

ELEMENT	PERFORMANCE CRITERIA
	2.2 Maintain records of licence number and location 2.3 Check personal computers and network for illegal software 2.4 Report illegal software to appropriate person
3. Carry out system backup	3.1 Create or review organisational backup schedule 3.2 Complete file backups according to schedule 3.3 Label and store backups according to organisational requirements 3.4 Maintain record of backups
4. Restore system backup	4.1 Determine and test restore procedures according to organisational guidelines 4.2 Complete a restore under supervision of an appropriate person 4.3 Record completed restore according to organisational guidelines
5. Apply security access controls	5.1 Document security access as per clearance guidelines set by management 5.2 Maintain a security access register in line with organisational guidelines to record which client or groups have access to which resources 5.3 Identify the security controls on the file system provided by the operating system 5.4 Apply effective access control on files and directories

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1, 2.1, 4.1, 5.1, 5.3	<ul style="list-style-type: none"> Interprets and evaluates a range of textual information to maintain effective methods while adhering to appropriate standards
Writing	1.2, 1.4, 2.2, 2.4, 3.4, 4.3, 5.1, 5.2	<ul style="list-style-type: none"> Records detailed information incorporating both factual and professional language that adheres to organisational standards

Oral Communication	1.2, 2.4, 4.2	<ul style="list-style-type: none"> Provides information using language appropriate to environment and audience Uses listening and questioning techniques to confirm understanding
Numeracy	1.4, 2.2, 3.3, 3.4, 4.1-4.3, 5.1-5.4	<ul style="list-style-type: none"> Extracts and evaluates the mathematical information embedded in a range of tasks and texts to maintain records for internal reference
Navigate the world of work	1.1-1.4, 2.1-2.4	<ul style="list-style-type: none"> Appreciates the implications of legal and regulatory responsibilities related to own work, and is beginning to recognise some general legal principles applicable in relation to security access and software
Interact with others	2.4, 4.2	<ul style="list-style-type: none"> Selects the appropriate form, channel and mode of communication when reporting illegal software use Contributes to specific activities requiring joint responsibility and accountability when completing a restore under supervision
Get the work done	All	<ul style="list-style-type: none"> Takes responsibility for planning and organising own work, identifying ways of sequencing and combining elements for greater efficiency, and considering how to link with the work of others Implements actions as per plan, making slight adjustments if necessary Selects from a range of pre-determined options in routine situations, identifying and taking some situational factors into account Monitors and controls access to digitally stored and transmitted information
