# Assessment Requirements for ICTSAS406 Implement and hand over system components

## Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 1.0.

## Performance Evidence

Evidence of the ability to:

- confirm system integrity prior to hand over
- provide operational and maintenance guidance
- hand over system to client.

Note: Evidence must be provided on at least TWO occasions.

## Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss current business practices related to preparing reports, including confirming system integrity and handing over the system
- evaluate current industry accepted hardware and software products to enable candidate to optimise value of a supply contract
- outline key aspects of change management systems
- discuss issues relating to the client-business domain
- describe a range of information gathering techniques
- explain key operational procedures for ICT systems
- analyse key features and processes involved in project planning, including:
  - constraints
  - guidelines
  - deadlines
- outline key features of quality assurance practices
- analyse role of stakeholders in service level agreements (SLA) and discuss degree of stakeholder involvement in determining levels of responsibility in a project
- describe vendor product trend directions.

## Assessment Conditions

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the systems administration and support field of work and include access to:

- special purpose tools, equipment and materials
- industry software packages
- customer computer site and system or suitable simulated system and environment
- implementation plan
- people involved in hand over
- project plan
- service level agreements.

Assessors must satisfy NVR/AQTF assessor requirements.
