# ICTSAS433 Update ICT client support procedures and assist with policy development

## Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

## Application

This unit describes skills and knowledge required to formulate and update Information and Communications Technology (ICT) client support procedures to be included within organisational policy.

It applies to experienced individuals who work under supervision and have a level of responsibility to ensure client policy development is completed to quality standards and requirements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

## Unit Sector

Systems administration and support

## Elements and Performance Criteria
