Assessment Requirements for ICTWEB434 Transfer content to websites

Release: 1

Assessment Requirements for ICTWEB434 Transfer content to websites

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- transfer at least three files to a remote server using file transfer protocol (FTP) client, according to organisational security and privacy policies and guidelines.

In the course of the above, the candidate must:

- select and configure a file transfer protocol (FTP) client
- test configuration of FTP client
- plan and prepare content to be transferred including file format, receiving directory structure, account logins and security issues
- connect to server using applicable account login
- follow security procedures according to cyber security protocols
- transfer content to remove server
- store and maintain files in required location.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- the FTP server and client software
- cyber security and internet protocols
- content features and functions
- security issues applicable to transferring content
- server access security procedures and connection methods
- website server architecture and operating systems
- data backup and file transfer methodology
- organisational security and privacy policies and guidelines.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- web servers and tools
- a website
- content requiring transfer
- required hardware and digital devices
- client and login details
- FTP client software
- file storage location
- antivirus software
- server security password and access procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
