Assessment Requirements for ICTWEB524 Analyse information and assign meta tags

Release: 1

Assessment Requirements for ICTWEB524 Analyse information and assign meta tags

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- analyse information and assign at least five meta tags, according to technical requirements.

In the course of the above, the candidate must:

- update meta tags in line with client needs and industry developments
- use analysis and description tools, standards, precedents and techniques applicable to nature of the material.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- business conventions and rules for applying meta tags
- client business domain
- data modelling
- database management system (DBMS) fundamentals
- decision support systems
- document indexing and search engines
- functions and features of databases
- different types and structures of meta tags
- metadata standards, including Dublin Core and simple hypertext markup language (HTML) ontology extensions
- reference structure of descriptors and their role in assisting clients
- general conventions and business requirements applicable to meta tags
- meta tag testing and monitoring processes.

PwC's Skills for Australia

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- business and client information and materials
- metadata software
- project-related documentation
- hardware required to analyse information and create meta tags
- information applicable to industry developments in meta tagging.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
