LGAEHRH405A Conduct routine inspections of food premises
LGAEHRH405A Conduct routine inspections of food premises

Modification History
LGAEHRH405A Release 2: Layout adjusted.
LGAEHRH405A Release 1: Primary release.

Unit Descriptor
This unit covers the routine inspection of food premises to assess compliance with food safety and other relevant legislation.
Licensing, legislative, regulatory or certification requirements may apply to this unit. Requirements vary in different States and Territories.

Application of the Unit
This unit supports the attainment of skills and knowledge required for competent workplace performance within councils of varying size and locations. Knowledge of the legislation and regulations within which councils must operate is essential. The role of council staff, elected members and management in protecting and managing the natural and built environment must be appropriately reflected.

Licensing/Regulatory Information
Not applicable.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.
Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a Unit of Competency

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the Range Statement. Assessment of performance is to be consistent with the Evidence Guide.

Elements and Performance Criteria

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Interprets compliance requirements for food premises | 1.1 *Food safety requirements* for different types of food premises are sourced from relevant *legislation, codes, standards and council policies*.  
1.2 Features of food safety plans for specific types of food premises are interpreted.  
1.3 *Resources* to support food-safety compliance checks of specific types of food premises are prepared or checked for currency. |
| 2. Conduct inspections | 2.1 Written or verbal communication between relevant parties is undertaken in a clear, concise manner to ensure compliance with relevant legislation.  
2.2 Inspection of premises is undertaken to ensure compliance with relevant legislation, codes of practice and council policies and procedures.  
2.3 Premises identified as non-compliant are reported according to council procedures.  
2.4 Records are completed in accordance with council procedures. |
| 3. Support safe food-handling practices | 3.1 Council and other relevant publications on food safety are distributed to food businesses.  
3.2 Queries are noted and referred to professional practitioners for follow-up and advice.  
3.3 Information is provided on recognised external training courses that train and assess in food hygiene and food safety competencies. |
Required Skills and Knowledge

This describes the essential skills and knowledge and their level, required for this unit

Required Skills

- reading and interpreting a range of information, including legislation, codes, standards and policies relevant to the job role
- communicating and liaising with professional practitioners
- demonstrating clear, open communication and consultation with the community and stakeholders and managing stakeholder relationships using a range of communication techniques to assess their needs and expectations
- achieving effective working relationships that demonstrate an ability to work collaboratively with people from diverse backgrounds
- problem solving and conflict management
- monitoring own work and adjusting to meet agreed standards and expectations
- engaging in activities that promote own ongoing learning requirements, which may include maintaining current knowledge of legislation and common law
- using technology relevant to the job/role, which may include the use of computers and other relevant office technology
- promoting services to the public
- record keeping

Required Knowledge

- food-related legislation, codes of practice and procedures
- hazard analysis and hazard control systems
- environmental and sustainability procedures and practices
- food hygiene competencies
- food surveillance:
  - premises and equipment maintenance
  - personal hygiene
  - pest control
- council policies and procedures
- written reports and administration
- hazard analysis:
  - storage
  - preparation
  - display
  - packaging
  - transport
### Evidence Guide

#### Overview of assessment requirements

A person who demonstrates competency in this unit will be able to perform the outcomes described in the elements to the required performance level detailed in the performance criteria. The unit’s skill and knowledge requirements must also be demonstrated. For example, knowledge of the legislative framework and safe work practices that underpin the performance of the unit are also required to be demonstrated.

#### Critical aspects of evidence to be considered

The demonstrated ability to:

- interpret food safety requirements for different types of food businesses and prepare relevant resources for assisting inspections
- conduct communication with proprietors and staff of food premises cordially, conveying relevant information
- conduct and record inspections in accordance with council requirements
- report non-compliance to professional practitioners for follow up
- promote approved food safety support information to staff and proprietors of food businesses

#### Context of assessment

On the job or in a simulated work environment.

#### Method of assessment

The following assessment methods are suggested:

- observation of the learner performing a range of workplace tasks over sufficient time to demonstrate handling of a range of contingencies
- written and oral questioning to assess knowledge and understanding
- completion of workplace documentation
- third-party reports from experienced practitioners
- completion of self-paced learning materials, including personal reflection and feedback from trainer, coach or supervisor

#### Evidence required for demonstration of consistent performance

Competency must be demonstrated in relevant elements across a range of variables relevant to council's size, location and strategic plan.

#### Resource implications

Access to a workplace or simulated case study that provides access to the following resources:

- relevant legislation and codes of practice
- council policies
- government guides for local government
- real or simulated food premises
- relevant data
- real or simulated food handlers
Range Statement

The Range Statement relates to the Unit of Competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the Performance Criteria is detailed below.

**Food safety requirements** may relate to:
- temperature control measures
- critical limits
- monitoring systems
- storage
- operator hygiene
- food protection
- sanitation
- frequency of internal audits
- documentation and recording systems
- building structure
- building layout and design
- materials
- finishes
- appliances
- equipment

**Legislation, codes, standards and council policies** may include:
- federal, state or territory and local government legislation
- Food Standards Australia New Zealand codes
- Australian Quarantine and Inspection Service standards
- industry standards
- competency standards
- Australian Safety Association
- World Health Organisation
- International Organisation for Standardisation (ISO) standards
- council policies, procedures and guidelines
- council internal review mechanisms
- strategic, business and management plans
- local ordinances, laws and by-laws

**Resources** may include:
- samples of accepted food safety plans for similar businesses
- checklists based on council policies and other relevant requirements
- guidelines for businesses and other relevant publications
