LMF31808 Certificate III in Blinds and Awnings

Revision Number: 2

LMF31808 Certificate III in Blinds and Awnings

Modification History

Unit code corrected CPCCCM3001A to Version B

Description

This qualification describes the skills and knowledge required to construct and install interior and exterior blinds and awnings using a range of materials, fixtures and fittings.

Job roles/employment outcomes

The LMF31808 Certificate III in Blinds and Awnings reflects vocational outcomes for those constructing and installing blinds and awnings in a defined range of skilled operations, usually within a range of broader related activities involving known routines, methods and procedures, where some discretion and judgement is required in the selection of equipment, services or contingency measures and within known time constraints.

Application

This qualification is typically used to develop skills and a breadth, depth and complexity of knowledge in construction and installation of blind and awning techniques and would cover selecting, adapting and transferring this skill and knowledge to new environments and providing technical advice and some leadership in resolution of specific problems.

Application would be across a range of roles in a variety of contexts with some complexity in the extent and choice of options available and may involve some responsibility for others.

Participation in teams including group or team coordination may be required.

Pathways into the qualification

This qualification may be accessed by direct entry. Credit can be granted towards this qualification by those who have completed LMF21008 Certificate II in Blinds and Awnings or achieved equivalent industry experience.

Pathways from the qualification

Further training pathways from this qualification may include other Furnishing qualifications such as LMF40202 Certificate IV in Furnishing Technology, LMF40408 certificate IV in interior Decoration and relevant supervisory, management or competitive manufacturing qualifications.

Licensing considerations

There are no specific licences that relate to this qualification. However, depending on the jurisdiction, licensing or regulatory requirements may apply to the use of some units in this qualification such as electives in forklift operation and handling of dangerous goods. Local regulations should be checked for details.
