Assessment Requirements for MARD003 Manage legal requirements of a vessel

Release: 1

Assessment Requirements for MARD003 Manage legal requirements of a vessel

Modification History

Release 1. This is the first release of this unit of competency in the MAR Maritime Training Package Release 3.0.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying relevant work health and safety (WHS)/occupational health and safety (OHS) requirements and work practices
- attending to appropriate level of detail in recordkeeping
- developing effective planning documents
- ensuring procedures for monitoring operations and maintenance comply with legislative requirements
- ensuring currency of relevant legislative and regulatory knowledge
- ensuring currency of relevant reference material
- identifying potential noncompliance promptly and fully
- interpreting information relevant to legislative requirements to ensure the security and safety of life of crew, passengers and others at sea
- planning renewal and extension of certificates to ensure continued validity of surveyed items and equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- international maritime law embodied in international agreements and conventions in relation to:
 - certificates and other documents to be carried on board ships by international conventions, how they may be obtained and their period of validity
 - responsibilities under the relevant requirements of the International Convention on Load Lines, 1966, as amended
 - responsibilities under the relevant requirements of the International Convention for the Safety of Life at Sea (SOLAS), 1974, as amended
 - responsibilities under the International Convention for Prevention of Pollution from

Ships, as amended

- maritime declarations of health and the requirements of International Health Regulations
- responsibilities under international instruments affecting the safety of the ship, passengers, cargo and crew
- methods and aids to prevent pollution of the maritime environment by ships
- national legislation for implementing international agreements and conventions
- procedures for maintaining security and confidentiality of information
- relevant regulations, codes and conventions related to business and legal requirements, security and safety of life of crew, passengers and others on a vessel
- sources of reference and information on detailed survey and certification requirements
- systems and methods for recording, retrieving and storing information
- WHS/OHS requirements and work practices.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations or where this is not available, in simulated workplace operational situations or an industry-approved marine operations site that replicate workplace conditions.

Resources for assessment include access to:

- relevant equipment, materials and documentation including
 - cargo record book
 - daily logbook
 - official logbook
 - operation manuals
 - radio logbook
 - statutory certificates
 - survey reports
 - waste disposal logs.

Performance should be demonstrated consistently over time and in a suitable range of contexts.
