

MARE002 Communicate during mooring and unmooring activities

Release: 1

MARE002 Communicate during mooring and unmooring activities

Modification History

Release 1. New unit of competency.

Application

This unit involves the skills and knowledge required to communicate effectively with others involved in mooring and unmooring activities.

This unit applies to people working in the maritime industry as a Linesperson.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

E – Communication

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1 Prepare to communicate with others
- 1.1 Work health and safety (WHS)/occupational health and safety (OHS) procedures are followed
- 1.2 Prior to mooring or unmooring activities, all radios and other communications equipment is checked to confirm they are functioning correctly
- 1.3 Batteries are checked to confirm they are operational and fully charged

Approved Page 2 of 5

- 1.4 Relevant documentation and records are identified and accessed as required
- 1.5 Radios are set to operate on channels required for mooring and unmooring
- 1.6 Faulty communications equipment is reported, rectified or replaced

2 Communicate with others

- 2.1 Correct communication is maintained with others involved in mooring and unmooring activities, throughout mooring and unmooring activities
- 2.2 Clear and concise verbal and non-verbal communication is used and appropriate action is taken to confirm others have correctly heard and interpreted the communication
- 2.3 VHF radio communication is conducted using required procedures and protocols
- 2.4 Appropriate methods are used to communicate with foreign crews on vessels
- 2.5 Safety concerns are promptly and clearly communicated to pilot prior to and during, mooring and unmooring activities
- 2.6 Due care is taken when using radio communication equipment, so as not to interfere with operational communication between tug crews and pilot of vessel

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Safety procedures include: •

- checking:
 - own personal fitness and medical wellbeing
 - · whereabouts of edge of wharf
 - whereabouts of other members of mooring/unmooring team
- confirming availability of a personal flotation device on arrival

Approved Page 3 of 5

at mooring operation

- keeping clear of snapback zone and demarcated areas
- keeping work area hazard-free
- obtaining and using required personal protective equipment (such as safety footwear, safety helmet, suitable gloves, safety vest and reflective clothing, personal life vest, safety glasses)
- removing rings from fingers to avoid them being caught on steel wire ropes

Relevant documentation and records include one or more of the following:

- maritime authority instructions
- mooring and unmooring plans, procedures, checklists and instructions
- relevant sections of maritime regulations concerning mooring and unmooring operations
- reports and records of mooring operations or safety incidents
- · rope and equipment manufacturer instructions and procedures
- safety instructions and procedures

Communication includes one or more of the following:

- oral communication with mooring supervisor or Master and other members of mooring or unmooring team
- radio between mooring supervisor (shore-side) and:
 - pilot on vessel
 - wharf mooring personnel (bow) forward
 - wharf mooring personnel (stern) aft
- VHF radio between:
 - tug crew and pilot on vessel
 - tug crew and mooring launch crew
 - · mooring launch crew and pilot on vessel
- visual contact and hand signals
- lines launch driver
- mooring launch crew
- mooring master or supervisor
- mooring team
- pilot and crew on vessel being moored or unmoored and tug
- shorelines crew on wharf
- tug crew
- vessel crew

Others involved in mooring and unmooring activities include one or more of the following:

Unit Mapping Information

This unit replaces and is equivalent to MARE1001A Communicate during shore-based mooring and unmooring operations.

Approved Page 4 of 5

MARE1001A replaces and is equivalent to TDMME907A Communicate during shore-based mooring and unmooring operations.
