Assessment Requirements for MARF003 Follow vessel security procedures

Release: 1

Assessment Requirements for MARF003 Follow vessel security procedures

Modification History

Release 1. New unit of competency.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying basic security legislative requirements applicable to a vessel
- applying procedures for monitoring security in a marine environment
- being aware of one's surroundings and changes to these surroundings
- identifying a range of security threats and risks relevant to a vessel
- observing chain of command and communication channels
- operating security equipment
- recognising potential security threats
- reporting identified security threats and risks in a marine environment and providing appropriate level of detail in these reports.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- applicable legislation relevant to the marine environment and own work role
- applicable WHS/OHS requirements
- communication chain of command
- communication modes and security equipment and systems relevant to the marine environment
- duty of care requirements of self and others
- enabling recognition of potential security threats including elements related to piracy and armed robbery
- enabling recognition of weapons, dangerous substances and devices and awareness of the damage they can cause
- general procedures for emergency, evacuation and first aid response
- handling security related information and security related communications
- international marine security policy and responsibilities of governments, organisations and individuals
- maritime security levels and their impact on security measures and procedures aboard ship and in port facilities

- maritime security terms and definitions including elements relating to piracy and armed robbery
- need for and methods of maintaining security awareness and vigilance
- reporting procedures
- security related contingency plans
- techniques used to circumvent security measures
- training, drill and exercise requirements under relevant conventions, codes and International Maritime Organization (IMO) circulars including those relevant for anti-piracy and anti-armed robbery
- WHS/OHS requirements and work practices.

Assessment Conditions

Assessors must satisfy National Vocational Education and Training Regulator (NVR)/Australian Quality Training Framework (AQTF) assessor requirements.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- tools, equipment, machinery, materials and personal protective equipment currently used in industry
- applicable documentation such as legislation, regulations, codes of practice, workplace procedures and operational manuals
- range of relevant exercises, case studies and/or simulations.
