MARF038 Manage provision of medical care on board a vessel

Release: 1

MARF038 Manage provision of medical care on board a vessel

Modification History

Release 1. This is the first release of this unit of competency in the MAR Maritime Training Package.

Application

This unit involves the skills and knowledge required to provide medical care to people who are sick and/or injured while they remain onboard a vessel.

This unit applies to people working in the maritime industry in the capacity of:

- Engineer Class 1 (STCW Chief Engineer Unlimited)
- Engineer Class 2 (STCW Second Engineer Unlimited)
- Master of a commercial vessel Unlimited
- Master of a commercial vessel less than 500 gross tonnage (GT)

Licensing/Regulatory Information

Legislative and regulatory requirements are applicable to this unit.

- This unit is one of the requirements to obtain Australian Maritime Safety Authority (AMSA) certification as an Engineer Class 1 (STCW Chief Engineer Unlimited), Engineer Class 2 (STCW Second Engineer Unlimited) or Master of a commercial vessel less than 500 gross tonnage (GT) or Master Unlimited and to meet regulatory requirements this unit must be delivered consistent with Marine Orders and with the relevant sections of the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers (STCW).
- Those regulatory requirements include STCW International Maritime Organization (IMO) model course competencies and areas of knowledge, understanding and proficiency, together with the estimated total hours required for lectures and practical exercises. Teaching staff should note that timings are suggestions only and should be adapted to suit individual groups of trainees depending on their experience, ability, equipment and staff available for training.

Pre-requisite Unit

Not applicable.

Competency Field

F – Operational Quality and Safety

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Manage vessel medical care	<p>1.1 Availability of adequate resources is monitored and maintained to support medical responses</p> <p>1.2 Regular inspections of stock and equipment are conducted to ensure currency and operational readiness according to organisational requirements</p> <p>1.3 Equipment and resources are stored and maintained according to regulatory requirements and manufacturer/supplier instructions</p> <p>1.4 Risks on the vessel are reviewed and organisational policies and procedures related to the provision of medical care are validated</p> <p>1.5 Planning is conducted for responses to major incidents onboard the vessel</p>
