# **Assessment Requirements for MARG006 Manage a vessel and its crew**

**Release: 1**

# Assessment Requirements for MARG006 Manage a vessel and its crew

## Modification History

Release 1. This is the first release of this unit of competency in the MAR Maritime Training Package Release 3.0.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying decision-making techniques including situation and risk assessment, identifying and generating options, selecting a course of action and evaluating outcome effectiveness
- applying relevant work health and safety (WHS)/occupational health and safety (OHS) requirements and work practices
- applying effective resource management including allocation, assignment and prioritisation of resources; effective communication on board and ashore; decisions reflecting consideration of team experiences; assertiveness and leadership; obtaining and maintaining situational awareness
- applying task and workload management including planning and coordination, personnel assignment, time and resource constraints, and prioritisation
- assessing current competence, capabilities and operational requirements to determine training objectives and activities
- developing, implementing and overseeing standard operating procedures
- giving and receiving communication clearly and unambiguously
- informing crew of expected standards of work and behaviour in a manner appropriate to the individual concerned.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- decision-making techniques
- key performance indicators (KPIs) as measures for monitoring or evaluating the efficiency or effectiveness of a system, which may be used to demonstrate accountability and to identify areas for improvements
- organisational safety management system requirements
- relevant international maritime conventions and recommendations, and national

legislation

- shipboard personnel management and training
- WHS/OHS requirements and work practices.

## Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations or where this is not available, in simulated workplace operational situations or an industry-approved marine operations site that replicate workplace conditions.

Resources for assessment include access to:

- relevant documentation including newsletters, operational plans, workplace procedures, regulations and codes of practice
- equipment, materials and personal protective equipment currently used in industry.

Performance should be demonstrated consistently over time and in a suitable range of contexts.
