Assessment Requirements for MARM001 Apply knowledge of safety management system legal framework in the workplace

Assessment Requirements for MARM001 Apply knowledge of safety management system legal framework in the workplace

Modification History

Release 1. New unit of competency.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- applying relevant work health and safety/occupational health and safety (WHS/OHS) requirements and work practices
- communicating effectively when contributing to formal and informal enquiries about safety management systems (SMSs)
- ensuring currency of relevant legislative and regulatory knowledge
- preparing simple documents such as summary reports, audit reports and memos for a range of personnel including surveyors, managers, supervisors and seafarers.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- obligations, rights and requirements of seafarers to understand and comply with relevant safety management legislation and common law as it applies to those involved in any safety training or setting up of and applying appropriate SMS
- relevant state/territory and commonwealth WHS/OHS legislation, regulations, codes of practice and standards
- research and data collection methods to obtain evidence of compliance with both SMS and WHS/OHS legislation
- WHS/OHS requirements and safe work practices

Assessment Conditions

Assessors must satisfy National Vocational Education and Training Regulator (NVR)/Australian Quality Training Framework (AQTF) assessor requirements.

Assessment must satisfy the National Vocational Education and Training Regulator (NVR)/Australian Quality Training Framework (AQTF) standards.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations or where these are not available, in simulated workplace operational situations or an industry-approved marine operations site that replicates workplace conditions where knowledge of SMS legal framework in the workplace can be applied.

Resources for assessment include access to:

- relevant regulatory and equipment documentation, including workplace procedures, regulations, codes of practice and operation manuals that impact on work activities
- tools, equipment and personal protective equipment currently used in industry.

Performance should be demonstrated consistently over time and in a suitable range of contexts.
