

**Australian Government**

# **MARO009 Maintain a safe navigational watch**

**Release: 1**

# MARO009 Maintain a safe navigational watch

## Modification History

Release 1. This is the first release of this unit of competency in the MAR Maritime Training Package.

## Application

This unit involves the skills and knowledge required to apply the accepted principles and procedures to be observed in maintaining a watch according to bridge resource management principles, to ensure a safe navigational watch on a vessel, deal with maritime emergencies, incidents and to a distress signal at sea.

This unit applies to people working in the maritime industry in the capacity of:

- Master of a commercial ship less than 80 metres in length within the exclusive economic zone (EEZ)
- Master of a commercial vessel less than 500 gross tonnage (GT)
- Master of a commercial vessel Unlimited
- Watchkeeper Deck.

## Licensing/Regulatory Information

Legislative and regulatory requirements are applicable to this unit.

- Regulatory requirements include STCW International Maritime Organization (IMO) model course competencies and areas of knowledge, understanding and proficiency, together with the estimated total hours required for lectures and practical exercises. Teaching staff should note that timings are suggestions only and should be adapted to suit individual groups of trainees depending on their experience, ability, equipment and staff available for training.

### Near Coastal Qualifications:

- This unit is one of the requirements to obtain Australian Maritime Safety Authority (AMSA) certification as a Master less than 80 metres Near Coastal as defined in the Marine Order 505 (Certificates of competency - National Law) 2013.

### Blue Waters Qualifications:

- This unit is one of the requirements to obtain Australian Maritime Safety Authority (AMSA) certification as a Master of a commercial vessel less than 500 gross tonnage (GT), Master Unlimited or Watchkeeper Deck. To meet regulatory requirements this unit must be delivered consistent with Marine Orders and with the relevant sections of the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers (STCW).

## Pre-requisite Unit

Not applicable.

## Competency Field

O – Watchkeeping

## Unit Sector

Not applicable.

## Elements and Performance Criteria

### ELEMENTS

Elements describe the essential outcomes.

#### 1 Maintain watch on the bridge

### PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1.1 Own responsibility for the safety of navigation is clearly defined at all times, including periods when the Master is on the bridge and while under pilotage
- 1.2 Proper lookout is maintained at all times according to organisational procedures and regulatory requirements
- 1.3 Lights, shapes and sound signals are correctly recognised and acted upon
- 1.4 Frequency and extent of monitoring traffic, vessel and environment are scheduled to conform with organisational procedures and regulatory requirements
- 1.5 Bridge communication is maintained with other team members on matters relevant to the safety and integrity of the vessel
- 1.6 Clear and unambiguous bridge communications are maintained, and clarification is sought from or given to other team members when watch information or instructions are not clearly understood
- 1.7 Internal and external communications systems are used according to organisational procedures and regulatory requirements.

- 1.8** Conduct, handover and relief of the watch is completed according to organisational procedures and regulatory requirements
- 2 Maintain watch when anchored**
- 2.1** Organisational procedures and regulatory requirements are complied with through frequency, timing and coverage of scheduled checks and inspections
- 2.2** Appropriate action is taken in the event of irregularities or abnormal conditions to maximise the safety and integrity of the vessel
- 2.3** Restrictions on access to the vessel by non-authorised persons are followed according to organisational procedures and regulatory requirements
- 2.4** Internal and external communications systems are used according to organisational procedures and regulatory requirements
- 3 Respond to potential collision and emergency situations**
- 3.1** Potential collision situations are analysed and appropriate actions are taken in ample time according to regulatory requirements
- 3.2** Correct responses are made to emergencies and situations that pose a danger to the vessel and personnel onboard
- 3.3** Distress signals are recognised and appropriate actions are taken to initiate search and rescue (SAR) operations
- 3.4** Master is called in the event of a navigational incident which falls outside own responsibility
- 4 Respond to onboard emergency situations**
- 4.1** Initial actions in the event of an emergency are undertaken according to contingency plans and are appropriate to urgency of situation and nature of emergency
- 4.2** Urgency of situation and nature of emergency is identified promptly
- 4.3** Relevant alarms are activated
- 4.4** Distress signals are used to indicate need for assistance, as required
- 4.5** Crew, personnel and passengers are given information and instructions clearly and accurately

- |          |            |   |
|----------|------------|---|
|          | <b>4.6</b> | Procedures are implemented to combat emergency and to protect crew, personnel and passengers  |
|          | <b>4.7</b> | Communications are established with others to facilitate emergency response process   |
| <b>5</b> |            | <b>Resource the bridge according to bridge resource management principles</b>   |
|          | <b>5.1</b> | Bridge resource management principles are interpreted to establish the functions and responsibilities of the watchkeeping team onboard a vessel     |
|          | <b>5.2</b> | Resources are allocated and assigned as needed in correct priority to perform necessary tasks to obtain and maintain situational awareness          |
|          | <b>5.3</b> | Watchkeeping schedule is developed with due consideration to team experience  |
|          | <b>5.4</b> | Instructions on watchkeeping and lookout requirements are clearly and unambiguously given in relation to monitoring traffic, vessel and environment |
|          | <b>5.5</b> | Clear and unambiguous roles and responsibilities of watchkeeping team are determined and allocated  |
|          | <b>5.6</b> | Effective communication is maintained with team on matters relevant to safety and integrity of vessel   |
|          | <b>5.7</b> | Questionable decisions and/or actions are dealt with using an appropriate challenge and response  |
| <b>6</b> |            | <b>Maintain navigation records</b>  |
|          | <b>6.1</b> | Proper records of the movements and activities related to the navigation of the vessel are maintained   |
|          | <b>6.2</b> | Records are filed and stored according to organisational procedures   |

## Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

## Unit Mapping Information

This unit replaces and is equivalent to MARO002 Maintain a safe navigational watch.
