Assessment Requirements for MEM05051
Select welding processes

Release: 1
Assessment Requirements for MEM05051 Select welding processes

Modification History

Release 1. Supersedes and is equivalent to MEM05051A Select welding processes

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria on at least two (2) occasions and include:

- following work instructions, standard operating procedures (SOPs) and safe work practices
- identifying properties of common used metals
- identifying potential contingencies and considering solutions
- identifying and selecting appropriate welding process and the effects of the welding process on materials
- identifying processes for cleaning and preparing metals and the role of contaminants in welding flaws.

Knowledge Evidence

Evidence required to demonstrate the required knowledge for this unit must be relevant to and satisfy the requirements of the elements and performance criteria and include knowledge of:

- safe welding practices and procedures and use of personal protective equipment (PPE)
- properties and characteristics of commonly used metals and materials
- basic metallurgy principles associated with alloys and grades of metals
- uses and purposes of various metals
- distortion prevention measures for various metals
- different types of electrodes
- hazards associated with the use of chemicals and the fumes emitted by welding processes.

Assessment Conditions

- Assessors must:
  - have vocational competency in selecting welding processes at least to the level being assessed with relevant industry knowledge and experience
  - satisfy the assessor requirements in the Standards for Registered Training Organisations 2015 or its replacement and comply with the National Vocational Education and Training Regulator Act 2011, its replacement or equivalent legislation covering VET regulation in a non-referring state/territory as the case requires.
• Assessment must include evidence of 80 hours of workplace practice associated with the skills of this unit in a functioning workplace.

• All aspects of competent application of the unit must be addressed including prerequisite competency units and associated workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.

• Knowledge assessment may be either verbal or written but must adequately reflect the knowledge requirements of the unit and its prerequisites in a functioning workplace.

• Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications.

• Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
