MEM12023 Perform engineering measurements
MEM12023 Perform engineering measurements

Modification History
Release 1. Supersedes and is equivalent to MEM12023A Perform engineering measurements

Application
This unit of competency defines the skills and knowledge required to perform measurements requiring straightforward use of mechanical measuring devices which incorporate visual inspections representing units of measurement and associated calculations in a range of manufacturing, engineering and related environments. Measurements may be expressed in metric or imperial units.

Electrical/electronic devices used are those not requiring the connection or disconnection of circuitry.

Where the interpretation of technical drawings is required unit MEM09002 Interpret technical drawing should also be selected.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Band: A
Unit Weight: 5

Pre-requisite Unit
MEM13015 Work safely and effectively in manufacturing and engineering
MEM16006 Organise and communicate information

Competency Field
Measurement

Elements and Performance Criteria
Elements describe the essential outcomes. Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Determine job requirements
   1.1 Follow standard operating procedures (SOPs)
   1.2 Comply with work health and safety (WHS) requirements at all times
Elements describe the essential outcomes. Performance criteria describe the performance needed to demonstrate achievement of the element.

1.3 Identify job requirements from specifications, sketches, job sheets or work instructions

2 Select appropriate device or equipment

2.1 Determine measurement requirements from specifications

2.2 Select appropriate device or equipment to achieve required outcome according to SOPs

3 Obtain measurements using a range of measuring devices

3.1 Use correct and appropriate measuring technique

3.2 Obtain measurements accurately in a safe and effective manner

3.3 Determine or verify dimensions using calculations, as required

4 Maintain measuring devices

4.1 Undertake routine care and storage of devices to manufacturers’ specifications or SOPs

4.2 Make routine adjustments to devices to maintain device accuracy

5 Communicate measurements as required

5.1 Record measurements accurately, as required

5.2 Prepare freehand sketch which depicts required information, as required

Foundation Skills

This section describes those required skills (reading, writing, oral communication and numeracy) that are essential to workplace performance in this unit of competency.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.
Range of Conditions

This field allows for different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Specifications include one (1) or more of the following:
- drawings
- sketches
- job instructions
- schematics
- diagrams
- reference manuals

Measuring devices include one (1) or more of the following:
- protractors
- combination squares
- set squares
- dial indicators
- thermometers
- tapes
- rules
- micrometres
- vernier-scaled measuring equipment

Calculations include one (1) or more of the following:
- addition
- subtraction
- multiplication
- division
- fractions
- decimals

Note: Calculations may be made using a calculator

Routine adjustments include the following:
- validating the device using simple zeroing or scale adjustment

Measurements include one (1) or more of the following:
- length
- squareness
- flatness
- angle
- roundness
- clearances
- any other measurements that can be read off analogue, digital
This field allows for different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

or other measuring device

Information includes one (1) or more of the following:
- dimensions
- instructions
- base line
- datum points

Unit Mapping Information
Release 1. Supersedes and is equivalent to MEM12023A Perform engineering measurements
