**Assessment Requirements for MEMPE005
Develop a career plan for the engineering
and manufacturing industries**

Release: 1

Assessment Requirements for MEMPE005 Develop a career plan for the engineering and manufacturing industries

Modification History

Release 1. Supersedes and is equivalent to MEMPE005A Develop a career plan for the engineering and manufacturing industry.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria and include:

- researching employment opportunities in industry
- developing a career plan
- reviewing the career plan on at least two occasions.

Note: Where a volume and/or frequency is not specified, demonstration must be provided at least once.

Knowledge Evidence

Evidence required to demonstrate the required knowledge for this unit must be relevant to and satisfy the requirements of the elements and performance criteria and include knowledge of:

- techniques and process for developing a career plan
- types of manufacturing industries
- types of engineering industries
- industries that employ engineering people
- jobs/work roles in manufacturing and engineering
- types of learning institutions that support skills development in manufacturing and engineering.
-

Assessment Conditions

- Assessors must:
 - have vocational competency in developing a career plan for the engineering and manufacturing industries at least to the level being assessed with relevant industry knowledge and experience
 - satisfy the assessor requirements in the *Standards for Registered Training Organisations 2015 or its replacement* and comply with the *National Vocational Education and Training Regulator Act 2011*, its replacement or equivalent legislation covering VET regulation in a non-referring State as the case requires.
-

-
- This unit must be assessed in a learning institution and must cover the successful development of a career plan and the skills developed would usually be developed by an individual working alone under direct supervision.
 - Conditions for assessment must include access to all research documentation.
 - Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
