MSA30107 Certificate III in Process Manufacturing

Release 4

MSA30107 Certificate III in Process Manufacturing

Modification History

Version 4 - Imported unit updated. MEM09003B replaced by MEM09204A. Prerequisites replaced by an asterisk. Equivalent.

Version 3 - MSACM units replaced by MSS units from MSS11v2 Sustainability Training Package.

Version 2 - Imported unit codes updated. TAADEL301C replaced by TAEDEL301A.

Description

The Certificate III in Process Manufacturing is intended for advanced production workers who use a range of equipment and provide support functions directly related to producing products. They would undertake more advanced roles, working in accordance with the operating procedures and would apply their knowledge to anticipate problems and solve a range of foreseen and unforeseen problems.

This qualification is for:

- production support workers - people working in manufacturing and filling the vital production support roles but who may not have the opportunity to develop competency in sufficient technical units related directly to producing products
- those employees who operate across more than one category within process manufacturing or 'specialised processes' and elsewhere when required.

It is designed for use across the three process manufacturing sectors:

- chemical, hydrocarbons and oil refining
- plastics, rubber and cabling
- manufactured mineral products.

Licensing considerations

There are no specific licenses that relate to this qualification. However, some units in this qualification may have licensing or regulatory requirements depending on the work context. Local regulations should be checked for details.

Pathways Information

Not applicable.

Licensing/Regulatory Information

Not applicable.

Entry Requirements

Not applicable.

Employability Skills Summary

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY

MSA30107 Certificate III in Process Manufacturing

The following table contains a summary of the Employability Skills required by the process manufacturing industries for this qualification. The Employability Skills facets described here are broad industry requirements that may vary depending on qualification packaging options.

Due to the high proportion of electives required by this qualification, the industry/enterprise requirements described above for each Employability Skill are representative of the industry in general and may not reflect specific job roles. Learning and assessment strategies for this qualification should be based on the requirements of the units of competency for this qualification.

Employability Skill	Industry/enterprise requirements for this qualification include:
Communication	• complete logs and reports • use technical information and manufacturer's information • collect, analyse and organise information • communicate ideas and information • effective use of workplace documentation • maintain workplace records
Teamwork	• identify and describe own role and role of others • work within a team • resolve conflicts between team members • use teamwork strategies
Problem solving	• recognise a problem or a potential problem • determine problems needing priority action • refer problems outside area of responsibility to appropriate person, with possible causes • seek information and assistance as required to solve problems • solve problems within area of responsibility • follow through items initiated until final resolution has occurred • identify and isolate faults in equipment • use a range of formal problem solving techniques
Initiative and enterprise	• identify the most appropriate equipment • make adjustments to improve equipment performance • anticipate the impact of the process on the product • determine problems needing action • recommend required action • report problems outside area of responsibility

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	distinguish between causes of faults
Planning and organising	- plan own work requirements - plan scope of equipment checks - plan and organise activities - identify tasks to achieve team goals - organise allocation of tasks - monitor completion of allocated tasks - develop and adjust a production schedule
Self-management	- plan own work requirements from production requests - operate within appropriate time constraints and work standards - select and use appropriate equipment, materials, processes and procedures - plan to ensure effective production - apply workplace procedures - identify resource requirements, document and monitor - recognise limitations and seek timely advice
Learning	- ask questions to gain information - identify sources of information to expand knowledge and understanding - participate in improvement procedures - participate in development of continuous improvement strategies
Technology	- operation and adjustment of processes - start up and shut down equipment - set up equipment - monitor product/process quality - function and operating principles of equipment, machine components - maintain computer based workplace records

Packaging Rules

Packaging Rules

To be awarded the Certificate III in Process Manufacturing, competency must be achieved in **twenty one (21)** units of competency.

- four (4)** core units of competency

- **seventeen (17)** elective units of competency, six (6) of which can be selected from this Training Package, other endorsed Training Packages and accredited courses, as specified below.

Note: Where prerequisite units are identified they must be counted in the total number of units required for completion of the qualification.

Core units of competency

- Select all **four (4)** units from the following list.

Unit code	Unit title
MSAENV272B	Participate in environmentally sustainable work practices
MSS402051A	Apply quality standards
MSAPMOHS200A	Work safely
MSAPMSUP210A	Process and record information

Group A - Elective units

- Select a minimum of **five (5)** units from the following list.

Unit code	Unit title	Prerequisites
Support units		
MEM03001B	Perform manual production assembly	
MEM03006B	Set assembly stations	
MEM11005B	Pick and process order	
MEM11006B	Perform production packaging	
MEM11007B	Administer inventory procedures	
MEM12023A	Perform engineering measurements	
MEM15001B	Perform basic statistical quality control	
MEM15003B	Use improvement processes in team activities	
MEM15004B	Perform inspection	

Unit code	Unit title	Prerequisites
MSS402002A	Sustain process improvements	
MSS402020A	Apply quick changeover procedures	
MSS402050A	Monitor process capability	
MSS402060A	Use planning software systems in operations	
MSS402080A	Undertake root cause analysis	
MSAPMOHS300A	Facilitate the implementation of OHS for a work group	*
MSAPMPER300C	Issue work permits	*
MSAPMPER400A	Coordinate permit process	*
MSAPMSUP300A	Identify and implement opportunities to maximise production efficiencies	
MSAPMSUP301A	Apply HACCP to the workplace	
MSAPMSUP303A	Identify equipment faults	
MSAPMSUP309A	Maintain and organise workplace records	
MSAPMSUP310A	Contribute to the development of plant documentation	
MSAPMSUP330A	Develop and adjust a production schedule	
MSAPMSUP382A	Provide coaching/mentoring in the workplace	
MSAPMSUP383A	Facilitate a team	
MSAPMSUP390A	Use structured problem solving tools	
MSL973001A	Perform basic tests	
TAEDEL301C	Provide work skill instruction	
Technical units		
MEM09002B	Interpret technical drawing	
MEM09204A	Produce basic engineering detail drawings	*

Unit code	Unit title	Prerequisites
MSAPMOPS363A	Organise on site work	
A maximum of two (2) relevant units may be selected from this Training Package, other endorsed Training Packages and accredited courses, where those units are available for inclusion at Certificates III or IV.		

Group B - Other electives

- Select a maximum of **twelve (12)** units from the following list.

Unit code	Unit title
Support units	
LMTGN2008B	Coordinate work of team/section
MEM13003B	Work safely with industrial chemicals and materials
MEM16006A	Organise and communicate information
MEM16007A	Work with others in a manufacturing, engineering or related environment
MEM16008A	Interact with computing technology
MEM18001C	Use hand tools
MEM18002B	Use power tools/hand held operations
MSS402021A	Apply Just in Time procedures
MSS402030A	Apply cost factors to work practices
MSS402040A	Apply 5S procedures
MSAPMOHS100A	Follow OHS procedures
MSAPMOHS110A	Follow emergency response procedures
MSAPMOHS205A	Control minor incidents
MSAPMOHS210A	Undertake first response to non-fire incidents
MSAPMOHS212A	Undertake first response to fire incidents

Unit code	Unit title
MSAPMOHS216A	Operate breathing apparatus
MSAPMOHS217A	Gas test atmospheres
MSAPMOHS220A	Provide initial First Aid response
MSAPMOPS100A	Use equipment
MSAPMOPS101A	Make measurements
MSAPMOPS102A	Perform tasks to support production
MSAPMPER200C	Work in accordance with an issued permit
MSAPMPER201A	Monitor and control work permits
MSAPMPER202A	Observe permit work
MSAPMPER205C	Enter confined space
MSAPMSUP100A	Apply workplace procedures
MSAPMSUP101A	Clean workplace or equipment
MSAPMSUP102A	Communicate in the workplace
MSAPMSUP106A	Work in a team
MSAPMSUP172A	Identify and minimise environmental hazards
MSAPMSUP200A	Achieve work outcomes
MSAPMSUP201A	Receive or despatch goods
MSAPMSUP204A	Pack products or materials
MSAPMSUP205A	Transfer loads
MSAPMSUP230A	Monitor process operations
MSAPMSUP240A	Undertake minor maintenance
MSAPMSUP273A	Handle goods
MSAPMSUP280A	Manage conflict at work
MSAPMSUP291A	Participate in continuous improvement

Unit code	Unit title
MSAPMSUP292A	Sample and test materials and product
PMBHAN103C	Shift materials safely by hand
TLID2010A	Operate a forklift
RIIRIS201B	Conduct local risk control
Technical units	
FPICOT2206B	Cross cut materials with a hand-held chainsaw
MSAPMOPS200A	Operate equipment
MSAPMOPS212A	Use enterprise computers or data systems
A maximum of four (4) relevant units may be chosen from this Training Package, other endorsed Training Packages and accredited courses, where they are available for inclusion at Certificate II.
