**Assessment Requirements for MSFAH4004
Prepare architectural door hardware
schedules**

Release: 1

Assessment Requirements for MSFAH4004 Prepare architectural door hardware schedules

Modification History

Release 1. Supersedes and is equivalent to MSFAH4002 Prepare architectural door hardware schedules.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- matched architectural hardware products and systems to 2 different client briefs or specifications – must include keying schedules.
-

Knowledge Evidence

- legislation, codes and standards that apply to architectural hardware
- risk assessment methods and procedures in the context of architectural hardware
- features and formats of plans, designs and specifications for architectural hardware
- available architectural hardware and/or keying system options and basic requirements for installation
- types and functions of architectural hardware and/or keying system
- environmental factors that impact product selection
- building construction methods and types that impact on architectural hardware
- types and characteristics of different door and frame types
- organisational and client confidentiality requirements
- type of problems associated with architectural hardware systems and how to avoid and respond
- principles of effective communication
- documentation requirements and processes.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - architectural hardware products
 - job specifications and/or requirements
 - legislation, codes and standards.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
