# **Assessment Requirements for MSFFF2005 Maintain spray equipment and booth**

**Release: 1**

# Assessment Requirements for MSFFF2005 Maintain spray equipment and booth

## Modification History

Release 1 - New unit of competency

## Performance Evidence

## Knowledge Evidence

- Identification of spray system equipment, processes and procedures
- Types, characteristics and maintenance requirements for spray booth services, including at a minimum, ventilation, lighting, water and electrical reticulation
- Characteristics of spray coatings and base materials in terms of toxicity, reactivity and flammability
- Types, characteristics, uses and limitations of cleaning solvents and agents
- Effects of fumes, heat and other radiations on surface coatings
- Material safety management systems

## Assessment Conditions

- Assessors must:
- hold training and assessment competencies as determined by the National Skills Standards Council (NSSC) or its successors
- have vocational competency in the furnishing industry at least to the level being assessed with broad industry knowledge and experience, usually combined with a relevant industry qualification
- be familiar with the current skills and knowledge used and have relevant, current experience in the furnishing industry.
- Assessment methods must confirm consistency of performance over time rather than a single assessment event and in a range of workplace relevant contexts.
- Assessment must be by observation of relevant tasks with questioning on underpinning knowledge and, where applicable, multimedia evidence, supervisor's reports, projects and work samples.
- Assessment is to be conducted on single units of competency or in conjunction with other related units of competency. Foundation skills are integral to competent performance in the unit and should not be assessed separately.
- Assessment must occur on the job or in a workplace simulated facility with relevant process, equipment, materials, work instructions and deadlines.
- Access is required to spray systems and equipment, spray booth, cleaning and maintenance materials.
