MSFFL3064 Install carpet to custom design stairs

Release: 1

MSFFL3064 Install carpet to custom design stairs

Modification History

Release 1. Supersedes and is equivalent to MSFFL3011 Install carpet floor coverings to custom design stairs.

Application

This unit describes the skills and knowledge required to prepare, set out, cut, join and fix plain and patterned carpet to angular, curved, rounded and wrap-rounded stairs, including patterns, metal moulding and decorative finishes using adhesive-bonded and carpet gripper systems.

This unit applies to flooring technicians installing carpet in accordance with pre-determined work orders.

Licensing, legislative or certification requirements may apply to this unit and relevant state/territory and local government agencies should be consulted to determine any necessary certification or licensing for undertaking flooring work. Industry standards and codes of practice within Australia must also be applied. Access to construction sites requires certification of general induction training specified by the National Code of Practice for Induction for Construction Work (ASCC 2007).

Pre-requisite Unit

N/A

Unit Sector

Flooring technology

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for installation	1.1 Identify and follow work health and safety, legislative and organisational requirements 1.2 Read documentation and identify work requirements and process 1.3 Confirm subfloor suitability for installation consistent with Australian Standards and manufacturer recommendations 1.4 Select and check tools, equipment and materials for suitability, serviceability and safety prior to use 1.5 Plan sequence of work, including the starting point, to ensure
