**Release: 1**

## MSFFL3082 Install cork tiles

### Modification History

Release 1. Supersedes and is equivalent to MSFFL3034 Install cork tiles.

### Application

This unit describes the skills and knowledge required to set out, lay, cut and install pre-finished or raw cork tiles, or cork supplied in other forms, over a pre-prepared hard underlay or subfloor.

This unit applies to flooring technicians installing cork in accordance with pre-determined work orders.

Licensing, legislative or certification requirements may apply to this unit and relevant state/territory and local government agencies should be consulted to determine any necessary certification or licensing for undertaking flooring work. Industry standards and codes of practice within Australia must also be applied. Access to construction sites requires certification of general induction training specified by the National Code of Practice for Induction for Construction Work (ASCC 2007).

### Pre-requisite Unit

N/A

### Unit Sector

Flooring technology

### Elements and Performance Criteria

| Elements                                         | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
