Assessment Requirements for MSFFL3104 Install unpatterned tufted carpet

Release: 1

Assessment Requirements for MSFFL3104 Install unpatterned tufted carpet

Modification History

Release 1. Supersedes and is equivalent to MSFFL2037 Install unpatterned tufted carpet. Changes to application, elements and performance criteria to improve clarity and consistency across MSFFL units. Changes to assessment requirements.

Performance Evidence

There must be evidence the candidate has completed the tasks in the elements and performance criteria of this unit of competency and has demonstrated the ability to install according to job instructions:

- two types of unpatterned tufted carpet — where the subfloor has been adequately prepared — in two connecting rooms, including at least one seam join and one cross join
- unpatterned tufted carpet — where the stairs have been adequately prepared — on:
 - a box step stairway with at least three steps
 - a kite winder treads stairway with at least three steps
 - a bullnose step.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- manufacturer installation instructions and the relevant Australian standards for unpatterned tufted carpet
- the safe and correct use of, and maintenance requirements for tools and equipment for, installing unpatterned tufted carpet
- the most common issues that can arise when installing unpatterned tufted carpet and how to avoid and respond to them
- workplace policies and procedures relevant to their job role and responsibilities including for:
 - installing unpatterned tufted carpet
 - communication and reporting
 - environmental protection and sustainability, including maximising resource utilisation and minimising waste
 - quality indicators for completed work and process improvements
 - work health and safety, including the use of personal protective equipment and safety data sheets
 - work planning
- how to identify if a subfloor is suitable for installing unpatterned tufted carpet

- how to identify if carpet underlay, grippers and unpatterned tufted carpet are installed correctly.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - locations in which to install the carpet and which already have underlay and grippers installed
 - unpatterned tufted carpet and finishing, joining, fastening and other materials required by job instructions
 - equipment and tools required for the activities set out in the elements and performance criteria, including those to control hazards
 - job instructions and workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Access to construction sites requires certification of general induction training specified by the National Code of Practice for Induction for Construction Work (ASCC 2007).
