Assessment Requirements for MSFFL3113 Install carpet on complex stairs

Release: 1

Assessment Requirements for MSFFL3113 Install carpet on complex stairs

Modification History

Release 1. Supersedes and is not equivalent to MSFFL3064 Install carpet to custom design stairs. Changes to title, application, elements and performance criteria to improve clarity and consistency across MSFFL units. Changes to assessment requirements. Workplace outcome has changed.

Performance Evidence

There must be evidence the candidate has completed the tasks in the elements and performance criteria of this unit of competency and has demonstrated the ability to complete according to job instructions at least three patterned tufted or woven carpet installations, including the installation of carpet for all the following, in any combination:

- a timber staircase
- a concrete staircase
- at least three bullnose steps
- at least three enclosed steps
- at least three open newell steps
- at least three open tread steps
- a curved step
- a wrap-around step.
-

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- manufacturer installation instructions and the relevant Australian standards for carpet
- the safe and correct use of, and maintenance requirements for tools and equipment for, installing carpet on stairs
- the most common issues that can arise when installing carpet on stairs and how to avoid and respond to them
- workplace policies and procedures relevant to their job role and responsibilities including for:
 - installing carpet on stairs
 - communication and reporting
 - environmental protection and sustainability, including maximising resource utilisation and minimising waste
 - quality indicators for completed work and process improvements
 - work health and safety, including the use of personal protective equipment and safety data sheets

- work planning
- how to identify if stairs are suitable for installing carpet
- how to identify if carpet is installed correctly.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - stairs on which to install the carpet
 - carpet
 - equipment and tools required for the activities set out in the elements and performance criteria, including those to control hazards
 - job instructions and workplace procedures.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
