MSFFM3008 Select timbers for furniture production

Release: 1

MSFFM3008 Select timbers for furniture production

Modification History

Release 1 - New unit of competency

Application

This unit of competency covers selecting suitable timbers for use in production by applying knowledge of timber technology.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Competency Field

Unit Sector

Furniture Making

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1	Determine timber requirement	1.1	Work health and safety (WHS) requirements, including personal protection needs, are observed throughout the work
		1.2	Structural requirements for timbers are determined from workplace documentation
		1.3	Timber is assessed for suitability in accordance with selection criteria
		1.4	Written report is prepared substantiating selection of timber
2	Evaluate timber selected	2.1	Other materials which may be incorporated into furnishing item are identified and compatibility factors to be considered are recorded for inclusion in production plans
		2.2	Moisture content of timber selected is determined to ensure compliance with production requirements

- 2.3 Density and working properties of timber are determined to ensure compliance with production requirements
- 2.4 Any faults or features in the timber are identified and strategies are suggested to overcome/minimise their effects
- 2.5 Recommendations on any changes to appropriate finishes and adhesives are recorded for inclusion in production plans

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency. Detail on appropriate performance levels for each furnishing unit of competency in reading, writing, oral communication and numeracy utilising the Australian Core Skills Framework (ACSF) are provided in the Furnishing Training Package Implementation Guide.

Range of Conditions

Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Range is restricted to essential operating conditions and any other variables essential to the work environment.

- Furnishing items include:**
- solid timber furniture
 - upholstered furniture and occasional items
- Unit context includes:**
- WHS requirements, including legislation, building codes, material safety management systems, hazardous substances and dangerous goods codes, and local safe operating procedures or equivalent
 - work is carried out in accordance with legislative obligations, environmental legislation, relevant health regulations, manual handling procedures and organisation insurance requirements
- Timbers include:**
- indigenous and overseas timbers
 - softwood
 - hardwood
- Selection criteria includes:**
- aesthetic appeal
 - shape
 - volumes required and characteristics
- Working properties**
- hardness

- include:**
- strength and brittleness
- Personal protective equipment includes:**
- that prescribed under legislation, regulations and enterprise policies and practices
- Information and procedures include:**
- workplace procedures relating to the use of tools and equipment
 - work instructions, including job sheets, cutting lists, plans, drawings and designs
 - workplace procedures relating to reporting and communication
 - manufacturer specifications and operational procedures

Unit Mapping Information

Supersedes and is equivalent to LMFFM3010B Select timbers for furniture production.
