Assessment Requirements for MSFKB2003 Prepare for cabinetry installation

Release: 1

Assessment Requirements for MSFKB2003 Prepare for cabinetry installation

Modification History

Release 1. Changes to code, application, elements, performance criteria, assessment requirements. Foundation skills added. Range of conditions removed. Assessment requirements changed.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- prepare for 2 different cabinetry installation jobs on separate sites, including:
 - identifying and following procedures for site safety and access
 - preparing work area and equipment
 - ensuring cabinetry is ready for installation.
 -

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- work health and safety requirements
- safe manual handling procedures
- types of installation documentation, and their key features:
 - drawings, including symbols and terminology used
 - product specifications
 - component lists
 - cabinetry layout and design information
 - installation instructions
- tools and equipment, including personal protective equipment (PPE), commonly required for cabinetry installation
- cabinets components, including:
 - cabinet sections
 - door and drawer systems
 - drawer runners and slides
 - handles
 - hinges, runners and latches
 - legs, plinths and kickboards
 - locks
- quality checking procedures

- common defects and how to resolve them:
 - chips and markings
 - colour and texture variations
 - incompleteness
 - scratches
- procedures for maintaining workplace records for cabinetry installation.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - installation site
 - installation tools and equipment, including PPE, required for performance evidence
 - cabinetry and components to be installed
 - site and workplace procedures
 - installation documentation.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
