**Assessment Requirements for MSFSF3009
Manufacture bedspreads, bed linen and
table cloths**

Release: 1

Assessment Requirements for MSFSF3009 Manufacture bedspreads, bed linen and table cloths

Modification History

Release 1 - New unit of competency

Performance Evidence

- Interpret work order and locate and apply relevant information
- Apply safe handling requirements for equipment, products and materials, including use of personal protective equipment
- Follow work instructions, operating procedures and inspection processes to:
 - minimise the risk of injury to self or others
 - prevent damage to goods, equipment and products
 - maintain required production output and product quality
- Identify materials used in bedspread, bed linen and table cloths manufacture, and any special sewing or handling requirements, and produce at least three (3) different types of bed linen or table cloths which must include one (1) duvet cover and one (1) bed valance
- Manufacture at least one (1) quilted, one (1) lined, and one (1) unlined bedspread
- Use mathematical ideas and techniques to correctly complete measurements, calculate area and estimate material requirements
- Communicate ideas and information to enable confirmation of work requirements and specifications and the reporting of work outcomes and problems, interpret basic plans and follow safety procedures
- Avoid backtracking, work flow interruptions or wastage
- Work with others and in a team by recognising dependencies and using cooperative approaches to optimise work flow and productivity

Knowledge Evidence

- Interpretation of patterns
- Standard range of bedspread and basic bed linen sizes, styles and variations
- Range of fabrics and decorative finishes used in the making of bedspreads, bed linen and table cloths
- Identification of equipment, processes and procedures
- Work flow in relation to bedspread, bed linen and table cloth production

Assessment Conditions

- Assessors must:
 - hold training and assessment competencies as determined by the National Skills Standards Council (NSSC) or its successors

- have vocational competency in the furnishing industry at least to the level being assessed with broad industry knowledge and experience, usually combined with a relevant industry qualification
- be familiar with the current skills and knowledge used and have relevant, current experience in the furnishing industry.
- Assessment methods must confirm consistency of performance over time rather than a single assessment event and in a range of workplace relevant contexts.
- Assessment must be by observation of relevant tasks with questioning on underpinning knowledge and, where applicable, multimedia evidence, supervisor's reports, projects and work samples.
- Assessment is to be conducted on single units of competency or in conjunction with other related units of competency. Foundation skills are integral to competent performance in the unit and should not be assessed separately.
- Assessment must occur on the job or in a workplace simulated facility with relevant process, equipment, materials, work instructions and deadlines.
- Access is required to patterns, materials and work orders.
