Maintain registration and statutory or legal
compliance in work or functional area**

Release: 1

Assessment Requirements for MSL916009 Maintain registration and statutory or legal compliance in work or functional area

Modification History

Release	Comments
Release 1	<p>This version was released in <i>MSL Laboratory Operations Training Package Release 2.0</i>.</p> <p>Supersedes and equivalent to MSL916004 Maintain registration and statutory or legal compliance in work or functional area. Range of conditions removed. Assessment requirements amended.</p>

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- effectively monitored day-to-day operations of the work/functional area over a period of 3 days/shifts, to ensure work complies with all workplace requirements, legal requirements and relevant policies and procedures.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- workplace procedures governing document control, record management, communication and reporting, and internal and external audits
- scientific technical terminology used to describe legislative, licensing or registration requirements (e.g. traceability)
- legal, ethical and welfare issues associated with laboratory and technical work
- role, structure and responsibilities of ethics committees
- statutory and legal compliance requirements
- registration/licensing and/or National Association of Testing Authorities (NATA) accreditation requirements
- Australian and international standards and codes covering the competence of testing and calibration laboratories
- industry specific codes and guidelines
- state/territory and Commonwealth requirements for:
 - work health and safety (WHS):
 - managing hazards and risks
 - safety requirements for the use of equipment, materials and products

- intellectual property (IP) and copyright
- freedom of information
- human rights and equal opportunity
- privacy
- environmental protection.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - laboratory equipped with appropriate equipment, instruments, services and consumables
 - relevant workplace policies, procedures, operational reports, financial reports and stock records
 - technical manuals, standard operating procedures (SOPs), quality manuals and quality system documentation
- modelling of industry operating conditions, including:
 - interactions with laboratory operations staff.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
