MSMPMC301 Store materials for production

Release: 1

MSMPMC301 Store materials for production

Modification History

Release 1. New unit. Supersedes and is equivalent to PMC561072 Store materials for production

Application

This unit describes the skills and knowledge required to store and maintain quantities of production materials.

This unit applies to operators who are required to take responsibility for own outputs and follow established procedures to transfer and store materials, check quantities and quality of materials and check equipment. Operators are also required to work autonomously and apply their own judgement to interpret information; monitor processes; identify and address routine and non-routine problems and control hazards.

This unit applies to an individual working alone or as part of a team or group and in liaison with other shift team members, team leader and supervisor.

No licensing or certification requirements exist at the time of publication. Relevant legislation, industry standards and codes of practice within Australia must be applied.

Pre-requisite Unit
