

**Australian Government**

# **MSMSS00004 Operate a high pressure water jetting system**

**Release 1**

## **MSMSS00004 Operate a high pressure water jetting system**

### **Modification History**

Release 1. Supersedes and is equivalent to MSASS00003 High pressure water jetting operator

### **Description**

Not applicable.

### **Pathways Information**

These competencies can provide credit towards relevant qualifications in the MSM Manufacturing Training Package

### **Licensing/Regulatory Information**

Not applicable.

## **Skill Set Requirements**

MEM09002B	Interpret technical drawing
MSMPER200	Work in accordance with an issued permit
MSMWHS110	Follow emergency response procedures
MSMWHS200	Work safely
MSMWJ301	Operate a high pressure water jetting system

## **Target Group**

At least one member of the water jetting team needs to be competent to operate independently. This not only involves technical competence in high pressure water jetting but also requires safe operation within the worksite which may not be familiar to the operator.

## **Suggested words for Statement of Attainment**

These competencies from the MSM Manufacturing and other Training Packages meet the minimum industry requirements for an independent high pressure water jetting operator.
