MSMSUP309 Maintain and organise workplace records

Release: 1

MSMSUP309 Maintain and organise workplace records

Modification History

Release 1. Supersedes and is equivalent to MSAPMSUP309A Maintain and organise workplace records

Application

This unit of competency covers the skills and knowledge required to maintain workplace records in paper, electronic or other form. Sample products or materials for testing or quality purposes may also form part of the records system.

This unit of competency applies to personnel who are required to process records, track location of records, apply security controls and respond to requests for information.

Work is governed by established workplace procedures and extent of authority for adjustments and other work activities are defined.

This unit of competency applies to an individual working alone or as part of a team or group and working in liaison with other shift team members and the control room operator, as appropriate.

This unit of competency applies to all work environments and sectors within the industry.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

This field allows for different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Regulatory framework

The latest version of all legislation, regulations, industry codes of practice and Australian/international standards, or the version specified by the local regulatory authority, must be used, and include one or more of the following:

- legislative requirements, including work health and safety (WHS)
- industry codes of practice and guidelines
- environmental regulations and guidelines
- Australian and other standards
- licence and certification requirements

Procedures

All operations must be performed in accordance with relevant procedures.

Procedures are written, verbal, visual, computer-based or in some other form, and include one or more of the following:

- emergency procedures
- work instructions
- standard operating procedures (SOPs)
- safe work method statements (SWMS)
- formulas/recipes
- batch sheets
- temporary instructions
- any similar instructions provided for the smooth running of the plant

Records

Records will be specified in the organisation's record keeping processes and procedures and include one or more of the following:

- hard copy, such as documents, images, reports and forms
- electronic, such as documents, images, reports, forms, databases and spreadsheets
- physical, such as samples of products or materials

Non-routine problems

Non-routine problems must be resolved by applying operational knowledge to develop new solutions, either individually or in collaboration with relevant experts to:

- determine problems needing action
- determine possible fault causes
- develop solutions to problems which do not have a known solution
- follow through items initiated until final resolution has occurred
- report problems outside area of responsibility to designated person

Non-routine problems are unexpected problems, or variations of previous problems and include one or more of the following:

- lost files
- misfiling
- poor controls
- insufficient space/storage facilities
- incorrect destruction of records

Operational knowledge includes one or more of the following:

- procedures
- training
- technical information, such as journals and engineering specifications
- remembered experience
- relevant knowledge obtained from appropriate people
