**Release: 1**

# Assessment Requirements for MSS024023 Navigate in urban, regional and remote areas

## Modification History

Release 1. Updated unit code. Changes to performance criteria. Range of conditions removed. Assessment requirements amended. Equivalent outcome.

## Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- read and interpreted maps, plans and photos to locate own position and navigated safe and efficient routes to at least 2 different locations (urban and non-urban).

## Knowledge Evidence

There must be evidence the candidate has knowledge of:

- types of maps, charts, aerial photos and advantages and disadvantages of their use
- use and manipulation of scales used on maps and plans
- symbols and representation of topographical features on maps and plans
- navigational equipment and aids
- functional components of a compass and global positioning system (GPS) and factors affecting compass and GPS accuracy
- techniques for estimating distance and taking bearings
- hazards, health, safety and environment requirements for work role, including:
  - basic survival
  - dehydration
  - biohazards (including animals, insects and plants)
  - unsealed roads.

## Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of facilities, equipment and resources, including:
  - navigational equipment and aids
  - maps

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
