Application

This unit describes the skills and knowledge required to apply basic improvement concepts and practices.

This unit applies to an individual who is required to recognise their own role in the value chain, apply improvement methods within the organisation's competitive systems and practices framework and contribute ideas to the improvement process.

For the purpose of this unit, customer features are functions or aspects of a product, process or service, and 'customer benefits' refers to expected value for the customer.

This unit applies to any organisation that is implementing competitive systems and practices.

No licensing or certification requirements exist at the time of publication. Relevant legislation, industry standards and codes of practice within Australia must be applied.
