**Release: 1**

# Assessment Requirements for MSS404063 Facilitate the use of SCADA systems in a team or work area

## Modification History

Release 1. Unit code changed. Application changed. Performance Criteria changed. Foundation Skills populated. Range of Conditions removed. Assessment Requirements changed. Supersedes and is equivalent to MSS404061 Facilitate the use of SCADA systems in a team or work area.

## Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- use SCADA type system to obtain and interrogate information and apply to decision-making
- facilitate use of SCADA type system including:
  - identify skills or other support needed for at least 2 people
  - identify at least one system improvement
  - take action on each of the above, according to procedures.

## Knowledge Evidence

There must be evidence the candidate has knowledge of:

- hierarchy of SCADA type system and operation
- information available from and controls exercised by/through the SCADA type system
- query, control and other facilities and information offered by SCADA type system
- training, skill development and/or other mechanisms available to support team members.

## Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources:
  - functioning SCADA type system
- modelling of industry operating conditions.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
