Assessment Requirements for MSS405026 Manage a value stream

Assessment Requirements for MSS405026 Manage a value stream

Modification History

Release1. Unit code changed. Application changed. Elements changed. Performance criteria changed. Foundation skills populated. Assessment requirements changed. Supersedes and is equivalent to MSS405009 Manage a value stream.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- manage at least one value stream (or supply chain or demand chain) for an organisation.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- customer perception of value added and muda (waste)
- the process(es) covered by the value stream
- performance indicators for each value stream step
- value stream analysis and mapping
- methods of reducing muda and increasing perceived value added
- upstream and downstream components of the value stream that are beyond the individual's scope of authority to manage
- techniques to facilitate communications and agreement with a range of stakeholders.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
  - existing value stream map
- modelling of industry operating conditions.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
