MSSSS00017 Improve energy usage for a process or organisation

Release 1

MSSSS00017 Improve energy usage for a process or organisation

Modification History

New Skill Set. Unit codes updated. Supersedes MSSSS00010 Improve energy usage for a process or organisation.

Description

This Skill Set provides the skills to make improvements to energy usage. It is intended to build on technical or operational qualifications or equivalent vocational experience relevant to business operations.

Pathways Information

These units can provide credit towards the MSS50118 Diploma of Sustainable Operations. These units may also be applied where other aspects of sustainability are identified as the priority issues in which case a Statement of Attainment will be issued instead of the Skill Set.

Licensing/Regulatory Information

Not applicable.

Skill Set Requirements

MSS405088	Plan, implement and monitor energy management
MSS015022	Develop strategies for more sustainable use of resources

Target Group

This Skill Set targets people who need to make energy improvements, based on available data, and to ensure that improvements are embedded in day-to-day work.

Suggested words for Statement of Attainment

These competencies from the MSS Sustainability Training Package meet the minimum industry requirements for improving energy usage for a process or organisation.

Custom Content Section

Not applicable.
