Qualification Description

This qualification provides the skills and knowledge required to work in applied design and production roles within the clothing and fashion industry.

This qualification is suitable for workers producing fashion products where a basic understanding of design and marketing as well as sewing skills for specialist machinists, support roles in patternmaking, production of digitally printed or embroidered fabrics or garments is needed.

Items to be produced would include a single or small range of products. This qualification is particularly suitable for those who are self-employed undertaking low volume production of items for local distribution outlets, for example, markets.

Elective units of competency can be chosen to meet the specialist skills needs of the area of application.

No occupational licensing or certification requirements exist at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

Total number of units = 19

- **4 core** units of competency
- **15 elective** units of competency, consisting of:
 - at least 6 units from the specialist electives list (Group A, B, C, D and/or E)
 - at least 4 units from Group E general electives
 - the remaining 5 units may be selected from:
 - units not previously selected from Group A, B, C, D or E

- units from any endorsed Training Package or accredited course where those units are available at Certificate II level, Certificate III level or Certificate IV level. These units must be relevant to the work outcome and not duplicate units available within this qualification.

Any combination of electives that meets the rules above can be selected for the award of the *MST30819 Certificate III in Applied Fashion Design and Technology*

Where appropriate, electives may be packaged to provide a qualification with a specialisation.
