Assessment Requirements for MSTAT5017 Perform contour draping

Release: 1

Assessment Requirements for MSTAT5017 Perform contour draping

Modification History

Release 1. Unit Code and Application changed. Elements and Performance Criteria simplified with Element 1 removed. Foundation Skills field populated. Range of Conditions removed with relevant information moved to Knowledge Evidence. Assessment Requirements clarified with generic foundation skills statements moved to appropriate section and duplication with Performance Criteria removed. Supersedes and is equivalent to MSTFD5012 Perform contour draping.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and demonstrated the ability to:

- perform contour draping for styled garments on at least two occasions.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- principles and concepts of contour draping, including:
 - cost efficiency
 - types of pattern markings
 - required details for pattern pieces
- types of garment fabrics suitable for draping, including weight and handling characteristics
- draping processes, including:
 - preparing fabric:
 - estimating dimensions of fabric pieces required for each section/piece to be draped
 - identifying warp, weft and bias of fabric
 - drape planning, including adding fullness, cowls, twists and knots
 - completing the drape, including:
 - relating body reference points
 - moulding and manipulating fabric to fit model form according to working drawing, fit and design lines
 - adding ease to allow for movement
 - incorporating fullness or volume
 - smoothing or manipulating fabric over contours of model form
 - forming and pinning darts and seams to create pattern or construct garment
 - preparing drape for truing and performing truing

- basic aspects of body science as they relate to draping.
-

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - design specifications
 - model on which fabric is draped
 - fabric for draping
 - draping tools and equipment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
