MSTFD5006 Evaluate fashion designs against set criteria

Release: 1

MSTFD5006 Evaluate fashion designs against set criteria

Modification History

Release 1. Supersedes and is equivalent to LMTFD5006B Evaluate fashion designs against set criteria

Application

This unit of competency covers the skills and knowledge required to evaluate fashion designs against set criteria.

The unit of competency applies to evaluation techniques applied to ensure a design meets specifications and client needs.

Work may be conducted in small to large scale enterprises and may involve individual and team activities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Competency Field

Fashion design and technology

Unit Sector

Not applicable

Elements and Performance Criteria

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

| | |
|--|---|
| <p>1 Determine job requirements</p> | <p>1.1 Follow standard operating procedures (SOPs)</p> <p>1.2 Comply with work health and safety (WHS) requirements at all times</p> <p>1.3 Use appropriate personal protective equipment (PPE) in</p> |
|--|---|

- accordance with SOPs
- 1.4 Identify job requirements from specifications, drawings, job sheets or work instructions
- 2 **Prepare to evaluate fashion designs**
- 2.1 Source and interpret specifications and design brief
- 2.2 Identify purpose of design and characteristics of target market
- 2.3 Research current industry design trends
- 2.4 Research workplace and industry standards for communicating and presenting fashion design concepts
- 2.5 Identify quality criteria and evaluation criteria that apply to design processes
- 3 **Apply evaluation criteria**
- 3.1 Critically evaluate design and individual features against original design concept, design brief and specifications
- 3.2 Evaluate how well design principles and have been applied
- 3.3 Assess design against relevant evaluation criteria
- 3.4 Identify possible adjustments to increase ability to meet design brief
- 4 **Suggest design improvements**
- 4.1 Apply technical design skills to reflect evaluation and identify improvements
- 4.2 Identify potential design improvements and test for viability
- 4.3 Use industry appropriate communication and presentation skills to communicate improvements
- 4.4 Comply with intellectual property (IP) and copyright requirements when incorporating ideas sourced elsewhere

Foundation Skills

This section describes those required skills (language, literacy and numeracy) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

This field allows for different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Workplace procedures include one or more of the following:

- requirements prescribed by legislation, awards, agreements and conditions of employment
- SOPs
- work instructions
- oral, written and visual communication
- quality practices, including responsibility for maintenance of own work quality and contribution to quality improvement of team or section output
- housekeeping
- tasks related to environmental protection, waste disposal, pollution control and recycling
- WHS practices

Australian Standards include:

- the relevant industry or Australian Standards that are current at the time this unit is being undertaken

Evaluation criteria include the following:

- how well the design achieves design brief
- current industry trends
- meets client needs
- workplace and industry standards
- consistent with current fashion design trends and expectations
- commercial appeal and viability
- quality and innovative elements

Design improvements include one or more of the following:

- selection of materials and tools
- style features and finish
- adaptation and introduction of new materials and tools
- innovation in technology and production processes

Unit Mapping Information

Release 1. Supersedes and is equivalent to LMTFD5006B Evaluate fashion designs against set criteria
