Assessment Requirements for MSTFP1001 Embellish footwear

Release: 1

Assessment Requirements for MSTFP1001 Embellish footwear

Modification History

Release 1. Supersedes and is equivalent to LMTFP1001B Embellish footwear

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy the requirements of the elements and performance criteria, and include:

- reading and following work instructions, standard operating procedures (SOPs), safe work practices
- applying relevant standards
- identifying materials and specifications to embellish footwear
- sequencing embellishment operations
- embellishing footwear using at least three (3) types of embellishment according to specifications
- using materials, tools and equipment safely and according to workplace procedures
- checking and rectifying faults
- finishing footwear and checking embellishment meets quality standards.

Knowledge Evidence

Evidence must be provided that demonstrates knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- relevant Australian Standards
- materials used, including fabrics adhesives, solvents, abrasives and safety requirements for their use
- embellishment tools and equipment:
 - cutting board
 - scissors
 - knives
 - sewing machines
 - paintbrushes
 - hole punches
 - leather tool making equipment
- types of embellishment
- finishing procedures
- quality standards and practices
- component handling procedures
- workplace procedures.

Assessment Conditions

- Assessors must:
 - satisfy the assessor competency requirements that are in place at the time of the assessment, as set by the VET regulator
 - have vocational competency in embellishing footwear, at least to the level being assessed, with relevant industry knowledge and experience.
- Assessment should occur in operational workplace situations. Where this is not possible, or where personal safety or environmental damage are limiting factors, assessment must occur in a sufficiently rigorous simulated environment reflecting realistic operational workplace conditions. This must cover all aspects of workplace performance, including environment, task skills, task management skills, contingency management skills and job role environment skills.
- Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.
- Conditions for assessment must include access to all tools, equipment, materials and documentation required, including relevant workplace procedures, product and manufacturing specifications associated with this unit.
