**Assessment Requirements for MSTLA3006
Control conditioning and safe drying
processes**

Release: 1

Assessment Requirements for MSTLA3006 Control conditioning and safe drying processes

Modification History

Release 1. Supersedes MSTLA2006 Perform conditioning and drying processes.

Performance Evidence

There must be evidence the candidate has completed the tasks outlined in the elements and performance criteria of this unit, and:

- controlled conditioning and drying processes for 2 different loads with different conditioning and finishing requirements, including:
 - following safe work practices
 - classifying and sorting items for drying
 - loading dryer safely and selecting appropriate drying program
 - monitoring process operation
 - identifying and rectifying common machine faults
 - maintaining accurate records.

Knowledge Evidence

There must be evidence the candidate has knowledge of:

- safe work practices and procedures and use of personal protective equipment (PPE)
- hazards and risks involved with conditioning and drying processes and how to manage them, including heat, steam and risk of spontaneous combustion
- key requirements of *Australian/New Zealand Standard™ AS/NZS 4146:2000 Laundry practice*
- machine operation, program selection, and monitoring procedures for:
 - drying cycles
 - required conditioning
 - temperature
 - time
- laundry operating procedures for:
 - auto lint filters
 - identification of faults
 - loading and unloading
 - machine safety checks
 - manual handling techniques
 - product cool down and minimisation of spontaneous combustion
 - quality control

- safe use of machines
- level of operator responsibility for equipment maintenance
- work health and safety and environmental requirements for workplace, including disposal of waste and hazardous materials
- workplace practices for recording and reporting.

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions and contingencies. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - a commercial laundry environment set up with drying machines and related standard operating procedures (SOPs)
 - laundry items for conditioning and drying.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
