MTMP2057B Remove spinal cord

Release 2

MTMP2057B Remove spinal cord

Modification History

Release	TP Version	Comments
2	MTM11v3.1	Minor changes to performance criteria and required knowledge to make compliance with SRM requirements explicit
1	MTM11v1	Initial release. Supersedes and is equivalent to MTMPR201B

Unit Descriptor

Unit descriptor	This unit covers the skills and knowledge required to remove the spinal cord from carcasses after splitting.
------------------------	--

Application of the Unit

Application of the unit	This unit is applicable to workers on the slaughter floor responsible for removing spinal cords and dura mater to meet specifications trim.
--------------------------------	---

Licensing/Regulatory Information

Not Applicable

Pre-Requisites

Prerequisite units		
	MTMPSR203A	Sharpen knives

Employability Skills Information

Employability skills	This unit contains employability skills.
-----------------------------	--

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.
---	--

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Remove spinal cord	1.1. Spinal cord and dura mater is removed from split carcase in accordance with the work instructions, and, where relevant, in compliance with the Specified Risk Materials (SRM) requirements of customers 1.2. Removal is monitored to meet Quality Assurance (QA) specifications 1.3. Rise and fall platform is operated according to <i>workplace requirements</i> (where part of trimmer's duties)

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Ability to:

- identify spinal cord and dura mater to be removed
- remove spinal cord cleanly and safely according to workplace requirements
- work effectively as an individual and as part of a team
- apply relevant *regulatory requirements*
- take action to improve own work performance as a result of self-evaluation, feedback from others, or in response to changed work practices or technology

Required knowledge

Knowledge of:

- QA specifications for spinal cord removal
- reasons for the removal of the spinal cord
- where relevant, SRM and Bovine spongiform encephalopathy (BSE)
- relevant work instructions and *Occupational Health and Safety (OH&S) requirements*
- relevant regulatory requirements
- customer specifications

Evidence Guide

EVIDENCE GUIDE	
<p>The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.</p>	
<p>Overview of assessment</p>	<p>The meat industry has specific and clear requirements for evidence. A minimum of three forms of evidence is required to demonstrate competency in the meat industry. This is specifically designed to provide evidence that covers the demonstration in the workplace of all aspects of competency over time.</p> <p>These requirements are in addition to the requirements for valid, current, authentic and sufficient evidence.</p> <p>Three forms of evidence means three different kinds of evidence - not three pieces of the same kind. In practice it will mean that most of the unit is covered twice. This increases the legitimacy of the evidence.</p> <p>All assessment must be conducted against Australian meat industry standards and regulations.</p>
<p>Critical aspects for assessment and evidence required to demonstrate competency in this unit</p>	<p>Competency must be demonstrated at the normal chain speed.</p>
<p>Context of, and specific resources for assessment</p>	<p>Assessment has to be demonstrated in a meat processing plant.</p>
<p>Method of assessment</p>	<p>Recommended methods of assessment include:</p> <ul style="list-style-type: none"> • quiz of underpinning knowledge • workplace demonstration • workplace referee or third-party report of performance over time <p>Assessment practices should take into account any relevant language or cultural issues related to Aboriginality or Torres Strait Islander, gender, or language backgrounds other than English. Language and literacy demands of the assessment task should not be higher than those of the work role.</p>
<p>Guidance information for assessment</p>	<p>A current list of resources for this unit of competency is available from MINTRAC www.mintrac.com.au or telephone 1800 817 462.</p>

Range Statement

RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Workplace requirements may include:

- enterprise-specific requirements
- OH&S requirements
- QA requirements
- Standard Operating Procedures (SOPs)
- the ability to perform the task to production requirements
- work instructions

Regulatory requirements may include:

- Export Control Act
- hygiene and sanitation requirements
- relevant regulations
- requirements set out in AS 4696:2007 Australian Standard for Hygienic Production and Transportation of Meat and Meat Products for Human Consumption
- state and territory regulations regarding meat processing

OH&S requirements may include:

- enterprise OH&S policies, procedures and programs
- OH&S legal requirements
- Personal Protective Equipment (PPE) which may include:
 - coats and aprons
 - ear plugs or muffs
 - eye and facial protection
 - head-wear
 - lifting assistance
 - mesh aprons
 - protective boot covers
 - protective hand and arm covering
 - protective head and hair covering

RANGE STATEMENT	
	<ul style="list-style-type: none"> • uniforms • waterproof clothing • work, safety or waterproof footwear • requirements set out in standards and codes of practice
