Elements and Performance Criteria

EI	LEMENT	PERFORMANCE CRITERIA
1.	Press extracted tallow from cooked meal	 1.1.Flow of cooked waste is monitored. 1.2.Presses are operated and monitored in accordance with work instructions. 1.3.Occupational Health and Safety (<i>OH&S</i>) requirements are identified and complied with.
2.	Process tallow	 2.1.Start-up and shut-down procedures are carried out in accordance with <i>workplace requirements</i>. 2.2.Screening of solids from tallow is monitored. 2.3.Tallow is separated. 2.4.Tallow samples are taken. 2.5.Tallow quality is visually monitored and feedback is provided to supervisor. 2.6.Work instructions for tallow production are followed. 2.7.OH&S procedures are followed.
3.	Ensure the quality of tallow	3.1.Tallow specifications are identified.3.2.Processing conditions that affect tallow quality are monitored.
4.	Contain spillage	4.1. Any spillage of tallow is contained in accordance with workplace requirements.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

Ability to:

- apply relevant communication skills
- operate the tallow processing plant to workplace requirements
- apply relevant regulatory requirements
- comply with OH&S requirements
- monitor quality of tallow
- monitor tallow processing
- identify production problems and out-of-specification product and take corrective action
- work effectively as an individual and as part of a team

Approved Page 4 of 8

REQUIRED SKILLS AND KNOWLEDGE

• take action to improve own work performance as a result of self-evaluation, feedback from others, or in response to changed work practices or technology

Required knowledge

Knowledge of:

- basic principles of tallow processing
- OH&S requirements associated with tallow processing plant
- Quality Assurance (QA) requirements associated with tallow processing plant
- relevant regulatory requirements

Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Guidelines for the Training Package.		
Overview of assessment	The meat industry has specific and clear requirements for evidence. A minimum of three forms of evidence is required to demonstrate competency in the meat industry. This is specifically designed to provide evidence that covers the demonstration in the workplace of all aspects of competency over time. These requirements are in addition to the requirements for valid, current, authentic and sufficient evidence. Three forms of evidence means three different kinds of evidence - not three pieces of the same kind. In practice it will mean that most of the unit is covered twice. This increases the legitimacy of the evidence. All assessment must be conducted against Australian meat industry standards and regulations.	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Competency must be demonstrated at the normal rate of production for that rendering plant.	
Context of, and specific resources for assessment	Assessment must be conducted in a registered, operating meat rendering plant.	
Method of assessment	Recommended methods of assessment include: utility of underpinning knowledge workplace demonstration workplace referee or third-party report of performance over time. Assessment practices should take into account any relevant language or cultural issues related to Aboriginality or Torres Strait Islander, gender, or language backgrounds other than English. Language and literacy demands of the assessment task should not be higher than those of the work role.	
Guidance information for assessment	A current list of resources for this Unit of Competency is available from MINTRAC www.mintrac.com.au or
