### IMPORTANT

Training Packages are not static documents. Changes are made periodically to reflect the latest industry practices.

Before commencing any form of training or assessment, you must ensure delivery is from the *current version* of the Training Package.

To ensure you are complying with this requirement :

- Check the Print Version Number just below the copyright statement on the imprint pages of your current Training Package.
- Access the ATP website ([www.atpl.net.au](http://www.atpl.net.au)) and check the latest Print Number.
- In cases where the Print Version Number is later than yours, the Print Version Modification History in the Training Package sample on the ATP website will indicate the changes that have been made.

The Modification History is also available on the website of the developer of the Training Package: Sport & Recreation Training Australia Ltd ([www.srt.org.au](http://www.srt.org.au)).

The National Training Information Service ([www.ntis.gov.au](http://www.ntis.gov.au)) also displays any changes in Units of Competency and the packaging of qualifications.

**Forms control:** All endorsed training packages will have a version number displayed on the imprint page of every volume constituting that training package. Every training package will display an up-to-date copy of this modification history form, to be placed immediately after the contents page of the first volume of the training package. Comments on changes will only show sufficient detail to enable a user to identify the nature and location of the change. Changes to training packages will generally be batched at quarterly intervals. This modification history form will be included within any displayed sample of that training package and will constitute all detail available to identify changes.

**DESCRIPTION:** This unit covers the competency to transmit and receive communications in routine and operational situations using the organisation's communication systems and equipment.

| ELEMENT                                           | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Use communications systems and equipment</b> | <p>1.1 <b>Equipment</b> is used and operated safely to support communications consistent with organisations policies and procedures</p> <p>1.2 <b>Communication equipment</b> and techniques are selected to best meet the task, context and needs of the situation</p> <p>1.3 The <b>communication system</b> is correctly utilised to facilitate transmission and reception</p> <p>1.4 <b>Communication systems</b> are operationally maintained according to organisation's policies and procedures</p>                                                                                                                                                |
| <b>2 Transmit and receive communications</b>      | <p>2.1 Information is transmitted concisely and clearly to facilitate accurate reception of the message in accordance with organisational policy and procedures</p> <p>2.2 Contact is acknowledged, communication is confirmed and actioned initiated</p> <p>2.3 Communication faults and deficiencies are reported according to organisation's policy and procedures</p> <p>2.4 Alternative communication strategies are employed according to organisational procedures to address identified faults and deficiencies in communication</p> <p>2.5 Communication is processed and recorded in accordance with organisation's policies and procedures</p> |
| <b>3 Maintain communications equipment</b>        | <p>3.1 Fault finding techniques are applied and basic maintenance conducted according to organisational policies and procedures</p> <p>3.2 Faulty equipment is identified and noted for repair</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| <b>RANGE STATEMENT</b>                   | <b>CATEGORIES</b>                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Communication equipment</b>           | may include <ul style="list-style-type: none"> <li>• personal computers and modems</li> <li>• radio</li> <li>• facsimiles</li> <li>• signalling devices</li> <li>• mobile</li> <li>• landline and satellite telephones</li> <li>• pagers</li> </ul>                                                                               |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| OPS        | Field operations                                 |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to ensure that practices are implemented to achieve minimal environmental impact whilst participating in outdoor activities under supervision.

| ELEMENT                                                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Determine the environmental impacts of outdoor recreation activities</b> | 1.1 Identify the impacts caused by participation in outdoor recreation activities<br>1.2 Determine the possible causes of these impacts<br>1.3 Identify the consequences of the <b>impact</b> on the environment<br>1.4 Source information on <b>key practices and procedures</b> used to reduce the <b>impact</b>                                                                                                                                                                      |
| <b>2 Adopt minimal impact practices</b>                                       | 2.1 Apply <b>minimal impact practices</b> and procedures, as recommended by resource managers and peak activity groups, to reduce impact on the natural environment<br>2.2 Use equipment in a manner to reduce <b>impact</b> on the natural environment<br>2.3 Demonstrate etiquette and appropriate behaviour when interacting with others in the immediate vicinity<br>2.4 Use heritage or cultural sites in accordance with protocols, guidelines and/or directions from supervisors |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT              | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| SROOPS002B | PLAN FOR MINIMAL ENVIRONMENTAL IMPACT |
| OPS        | Field operations                      |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to plan outdoor activities to ensure that minimal environmental impact occurs. The planning requires consideration of the appropriate combination of an activity with a setting. This involves the learner making informed decisions about the selection of settings and the conduct of the activity during the planning phase.

**Note:** For Indigenous contexts, the delivery and assessment against this competency standard must comply with community protocols and guidelines and be supported by elders and custodians of country.

This unit incorporates the unit SROOPS001B Implement minimal environmental impact practices, and this should be taken into consideration when planning to meet pre-and co-requisite requirements.

| ELEMENT                                                                         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Identify the interrelationships occurring within a natural environment</b> | 1.1 Identify <b>key ecological concepts</b> and their relationships within natural ecosystems<br>1.2 Determine natural <b>processes and interrelationships</b> occurring within natural environments<br>1.3 Identify the manner in which interrelationships between natural processes can be affected                                                                                                                                                                                                                                   |
| <b>2 Identify sources of environmental impact</b>                               | 2.1 Determine human <b>impact</b> through recreational activities on natural processes and interrelationships<br>2.2 Determine aspects unique to a specific environment<br>2.3 Identify sensitive areas after consultation with appropriate <b>authorities</b><br>2.4 Source information on the <b>types of environmental impact</b> likely to occur during specific outdoor activities in specific locations<br>2.5 Determine <b>uses for land and water resources</b>                                                                 |
| <b>3 Identify sources of social impact</b>                                      | 3.1 Identify other <b>uses</b> of a particular site/location and discuss possible implications for outdoor recreation and the <b>resources</b><br>3.2 Assess whether particular settings offer appropriate recreation opportunities by examining the nature of the activities and matching this with the <b>characteristics of the settings</b><br>3.3 Source information on the <b>types of social impacts</b> likely to occur during specific outdoor activities in specific locations                                                |
| <b>4 Plan for minimal impact</b>                                                | 4.1 Identify current <b>management strategies</b> implemented by resource managers for environmental asset management<br>4.2 Source appropriate information from <b>authorities</b> , landowners and/or custodians in order to identify the parameters of use<br>4.3 Demonstrate compliance with resource management principles and policies when planning the activity location/site<br>4.4 Demonstrate consideration of suitability and appropriate use of a specific recreation setting for the proposed outdoor recreation activity |
| <b>5 Implement methods to minimise impact</b>                                   | 5.1 Plan and conduct activities in a manner which minimises environmental <b>impact</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                       | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to access and interpret meteorological data in order to plan outdoor activities.

| ELEMENT                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Apply weather information</b>     | 1.1 Identify <b><i>sources of relevant weather information</i></b><br>1.2 Obtain general <b><i>meteorological data</i></b><br>1.3 Access area specific information                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>2 Interpret weather information</b> | 2.1 Interpret <b><i>meteorological data</i></b> in terms of likely weather conditions in areas which are to be used for an activity<br>2.2 Interpret Bureau of Meteorology forecasts and warnings in terms of future weather conditions in areas which are to be used for an activity<br>2.3 Assess <b><i>additional relevant information</i></b> that is relevant to the predicted weather<br>2.4 Evaluate current and predicted weather conditions in terms of their effect on a planned outdoor activity<br>2.5 Modify activity plans, if necessary, following consideration of weather information |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                                | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to interpret weather signs in the field in order to predict future weather conditions and their impact on outdoor recreation activities.

This unit incorporates the unit SROOPS003B Apply weather information, and this should be taken into consideration when planning to meet pre-and co-requisite requirements.

| <b>1 Apply weather information</b>                                      | 1.1 Identify <b><i>sources of relevant weather information</i></b><br>1.2 Obtain general <b><i>meteorological data</i></b><br>1.3 Access area specific information                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>2 Interpret weather information</b>                                  | 2.1 Interpret <b><i>meteorological data</i></b> in terms of likely weather conditions in areas which are to be used for an activity<br>2.2 Interpret Bureau of Meteorology forecasts and warnings in terms of future weather conditions in areas which are to be used for an activity<br>2.3 Assess <b><i>additional relevant information</i></b> that is relevant to the predicted weather<br>2.4 Evaluate current and predicted weather conditions in terms of their effect on a planned outdoor activity<br>2.5 Modify activity plans, if necessary, following consideration of weather information |
| <b>3 Assess the influence of topography on local weather conditions</b> | 3.1 Identify <b><i>local topographic influences</i></b> most likely to affect weather conditions<br>3.2 Forecast the most likely affect that local influences will have on weather conditions                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>4 Interpret local weather signs to identify likely changes</b>       | 4.1 Identify <b><i>weather signs</i></b> that may be used to interpret and predict local conditions<br>4.2 Evaluate <b><i>weather signs</i></b> to monitor and interpret current and future conditions<br>4.3 Assess short and long term implications of <b><i>weather signs</i></b> on an outdoor recreation activity<br>4.4 Take appropriate action to minimise the consequences of adverse changes in weather                                                                                                                                                                                       |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                        | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to conduct preliminary search and rescue procedures and determine the necessity for assistance.

| ELEMENT                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Initiate a search/rescue</b>    | 1.1 Assess <b>situation</b> and options<br>1.2 Consider <b>factors of an appreciation</b><br>1.3 Obtain and document appropriate information<br>1.4 Consider safety of search/rescue party and implement operational policies and procedures<br>1.5 Develop a workable response plan and communicate to relevant persons<br>1.6 Initiate an initial search and rescue<br>1.7 Make the decision to locate and evacuate or call for assistance without delay                                                                                                                                                         |
| <b>2 Carry out a search</b>          | 2.1 Define the possible and probable search areas, based on all available information including the missing party/person's <b>personal factors</b><br>2.2 Establish communication processes and promulgate contingency plans to all involved<br>2.3 Conduct search methodically, using appropriate <b>search techniques</b>                                                                                                                                                                                                                                                                                        |
| <b>3 Carry out a rescue</b>          | 3.1 Apply, where necessary, appropriate <b>rescue techniques</b><br>3.2 Determine patient ambulatory status and, if required, build an <b>emergency evacuation structure</b> using available resources<br>3.3 Establish a process for constant monitoring of an injured person's condition and comfort and record all actions taken<br>3.4 Assess <b>situation</b> to determine whether to self evacuate or call for external assistance<br>3.5 Transport injured party members in a manner that minimises risk of further injury<br>3.6 Advise party members to refer media enquiries to a nominated spokesperson |
| <b>4 Assist in search and rescue</b> | 4.1 Identify situations requiring outside assistance<br>4.2 Identify appropriate <b>search groups/agencies</b> and initiate the steps to alert them<br>4.3 Implement procedures for handing over a search and rescue to relevant authorities/agencies                                                                                                                                                                                                                                                                                                                                                              |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                       | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to establish, use and maintain a temporary site. Temporary sites include sites used for rest stops, overnight camping and emergency shelters.

| ELEMENT                             | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Select a temporary site</b>    | 1.1 Access local area knowledge and use to identify suitable sites<br>1.2 Determine additional <b><i>sources of information</i></b> to assist in site location<br>1.3 Identify factors affecting suitable <b><i>site selection</i></b><br>1.4 Consider the suitability of the site for the group size and objectives                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>2 Establish a <i>shelter</i></b> | 2.1 Identify <b><i>hazards</i></b> and remove/avoid in order to reduce risks<br>2.2 Arrange <b><i>shelter</i></b> appropriately for the prevailing weather and conditions<br>2.3 Establish <b><i>general context shelter</i></b> to ensure comfort and safety<br>2.4 Erect <b><i>shelter</i></b> in a manner to cause minimal environmental impact                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>3 Maintain a temporary site</b>  | 3.1 Take measures, within the area of responsibility of the participant, to remove/avoid <b><i>hazards</i></b> and minimise risk at the temporary site<br>3.2 Comply with, where relevant to the activity, <b><i>statutory and organisational procedures</i></b> with respect to the use of campfires<br>3.3 Implement minimal impact practices with respect to camping and washing of self and utensils<br>3.4 Identify the consequences of unhygienic practices<br>3.5 Follow recommended procedures to decrease potential health problems<br>3.6 Clean individual and shared utensils adequately<br>3.7 Follow sanitation practices appropriate to the site and permit requirements to minimise health problems and environmental impact |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT        | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to collect and interpret information from a weather map, make forecasts and record and interpret weather information in a specific maritime location in order to apply this to the conduct of an aquatic activity at that location.

| ELEMENT                                                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|---------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Interpret weather information from a weather map and make forecasts</b>                | 1.1 Identify characteristics of <b>map types</b> and their different uses<br>1.2 Identify and explain differences between general <b>forecasts</b> and <b>forecasts</b> for marine environments<br>1.3 Identify weather map <b>symbols</b> and weather <b>conditions</b> commonly associated with them<br>1.4 Specify and justify a weather <b>prediction</b> for a following 48-hour period for a specific marine region using <b>information</b> gained from weather maps and <b>forecasts</b>                                                                                                                                                                                                                                |
| <b>2 Collect, record and interpret weather information in a specific marine region</b>      | 2.1 Identify major <b>cloud types</b> and altitude levels<br>2.2 Collect accurate weather <b>information</b> at regular intervals for a specific area over five days<br>2.3 Record weather data to aid identification of <b>patterns</b><br>2.4 Identify differences between <b>comparisons</b> of current weather conditions and a current weather forecast<br>2.5 Identify the effect(s) of <b>landforms</b> on marine weather <b>conditions</b><br>2.6 Identify and explain season variations in weather <b>patterns</b> for a specific marine area<br>2.7 Apply knowledge of weather <b>conditions</b> in a specific marine area to identify <b>differences</b> between large scale and localised weather <b>conditions</b> |
| <b>3 Interpret weather information for aquatic activities at a specific marine location</b> | 3.1 Recognise and justify the suitability and <b>limitations of the activity</b> in relation to the current local weather <b>conditions</b> and forecast<br>3.2 Clarify <b>strategies</b> to ensure the safety and well-being of individuals and/or group in weather <b>conditions</b> and justify in relation to current local weather <b>conditions</b> and forecast<br>3.3 Identify and explain the weather <b>conditions</b> commonly associated with the onset of <b>life threatening weather hazards in a marine environment</b><br>3.4 Identify the characteristics of <b>life threatening weather hazards in a marine environment</b> and their possible impact on recreational activities                              |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT    | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                       |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| SROOPS008A | APPLY THE PRINCIPLES OF NATURAL RESOURCE MANAGEMENT |
| OPS        | Field operations                                    |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to choose appropriate natural resource areas\* for the conduct of outdoor recreation activities or, alternatively, choose and plan appropriate outdoor recreation activities for a particular area in order to meet the needs of clients and program outcomes. This unit involves the application of a thorough knowledge of the management context for natural resource areas and in particular, areas available for use for outdoor recreation.

**Note:** For Indigenous\*\* cultural places and contexts, the delivery and assessment against this unit of competency must comply with community protocols and guidelines and be supported by elders and custodians of country.

\* Natural resource areas in this unit include land and aquatic areas which are managed by public sector agencies, indigenous communities and private landholders

\*\* Indigenous people in this unit of competency refers to Aboriginal and Torres Strait Islander peoples of Australia.

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                                  | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to manage and plan outdoor recreation activities and/or programs appropriate to the current legislative context as it applies to use of the natural environment (both land and aquatic).

| <b>1 Provide an overview of the Australian legal system</b>                                                              | 1.1 Identify the major <b>organs of government</b> in Australia and describe their components and functions<br>1.2 Outline the <b>legislative powers of the Federal and state/territory parliaments</b> and explain how they interrelate<br>1.3 Describe the jurisdiction of the major Courts within the Federal and State/Territory <b>judicial</b> hierarchies<br>1.4 Provide examples in recent times of the increasing power of the Commonwealth over the States and discuss the implications with respect to the use of natural resources                                                                                                                                                                                                                       |
| <b>2 Outline the sources of the law and describe the principles and impact of precedent and statutory interpretation</b> | 2.1 Outline the <b>classifications of law</b> and identify the distinctions between Common law and Statute law and examine their relationship<br>2.2 Describe the differences between private and public law and determine whether the distinction is of particular importance<br>2.3 Provide recent examples of the use of <b>legal precedent</b> in cases related to the use of the outdoor environment<br>2.4 Analyse the potential impact of these decisions on persons such as land managers and company directors<br>2.5 Discuss current issues within the outdoor recreation sector that have emerged as a result of the use of precedent                                                                                                                     |
| <b>3 Examine the framework for natural resource management and its associated legislation</b>                            | 3.1 Determine aspects that may be part of a natural resource management <b>portfolio or framework</b><br>3.2 Outline the interrelationship between the resource, the managers, the <b>stakeholders</b> and the public within the legislative context of a particular state/territory resource tenure<br>3.3 Identify the reasons for variation between the degree of emphasis placed on any one aspect of resource management depending on the managing agency/authority<br>3.4 Determine relevant state /territory and/or Commonwealth legislation that impacts upon or directs the management of specific <b>natural resource areas</b><br>3.5 Identify areas of conflict between Commonwealth and state or territory agencies with respect to resource management |
| <b>4 Determine the implications of enforcement of resource management legislation for outdoor leaders</b>                | 4.1 Analyse the relevant sections of legislation relevant to local <b>resource management authorities</b> and determine the scope of <b>powers of enforcement</b> by officers acting under that legislation<br>4.2 Determine the implications of this for an outdoor leader working with client groups                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                                                      | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to interpret information from a weather map and forecast; collect, record and interpret weather conditions in a specific mountain region; and interpret weather information for mountain activities.

| ELEMENT                                                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Interpret information from a weather map and forecast</b>                          | 1.1 Identify characteristics of <b>map types</b> and their different uses<br>1.2 Identify at least two differences between general and mountain forecasts<br>1.3 Identify weather map <b>symbols</b> and weather conditions commonly <b>associated conditions</b> with them<br>1.4 Outline and justify a weather <b>prediction</b> for the next 48-hour period for a specific mountain region using information gained from weather map and forecast                                                                                                                                                                                                                      |
| <b>2 Collect, record and interpret weather conditions in a specific mountain region</b> | 2.1 Identify major <b>cloud types</b> and altitude level<br>2.2 Collect accurate <b>weather information</b> at regular intervals for a specific area over five days<br>2.3 Record weather <b>data</b> so patterns can be easily identified<br>2.4 Compare current weather conditions and a current weather forecast and identify differences<br>2.5 Identify the effects of <b>landforms</b> on mountain weather conditions<br>2.6 Identify seasonal variations in <b>weather patterns</b> for a specific mountain area<br>2.7 Use weather conditions in a specific mountain area to identify the <b>differences</b> between large scale and localised weather conditions |
| <b>3 Interpret weather information for mountain activities at a mountain venue</b>      | 3.1 Justify the suitability and <b>limitations of the activity</b> in relation to current local weather conditions and weather forecast<br>3.2 Outline and justify <b>strategies</b> to ensure the safety and well being of individuals and/ or group are in relation to current local weather conditions and weather forecast<br>3.3 Identify the weather conditions commonly associated with the onset of <b>life threatening weather hazards</b><br>3.4 Identify characteristics of life threatening mountain weather hazards and their possible impact on recreational activities in the mountains                                                                    |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                         | CATEGORIES                                                                                                                                                                                                                                                                                                             |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| <b>1 Select a campsite</b>  | 1.1 Access the site in accordance with tour itinerary, relevant permits, agreement of land owners and other statutory requirements<br>1.2 Where no designated area exists, select a <b>site</b> to ensure comfort, safety and minimal environmental impact<br>1.3 Identify and eliminate or minimise any hazards                                                                                                                                                                                                                                                                    |
| <b>2 Set up a campsite</b>  | 2.1 Set up the <b>campsite facilities</b> in the most appropriate position to ensure comfort, safety and minimal environmental impact<br>2.2 Arrange appropriate shelter for the prevailing weather and conditions<br>2.3 Identify and access any required water sources<br>2.4 Construct any required campfires in a safe location and ensure there is no danger to the crew, customers and environment during the construction                                                                                                                                                    |
| <b>3 Operate a campsite</b> | 3.1 Operate all <b>camping equipment</b> correctly and in accordance with manufacturer's instructions and safety guidelines<br>3.2 Establish and follow environmentally-friendly rubbish and human waste disposal procedures<br>3.3 Brief the group on waste disposal requirements, agree to procedures and monitor adherence at all times<br>3.4 Discuss and agree to acceptable campsite behaviour with the group<br>3.5 Operate any camp fires within land management guidelines and ensure there is no danger to the crew, customers and environment during the use of the fire |
| <b>4 Break camp</b>         | 4.1 Dismantle, pack and store all equipment using safe lifting and handling techniques to avoid injury<br>4.2 Remove all rubbish from the <b>site</b> where disposal facilities are not available<br>4.3 Extinguish camp fires fully to ensure there is no danger to the environment<br>4.4 Check the site prior to departure to ensure all equipment and belongings have been removed<br>4.5 Leave the camp site in the original or improved condition                                                                                                                             |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                          | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|           |                           |
| OPS       | Field operations          |

**DESCRIPTION:** This unit deals with the skills and knowledge required to provide catering for tour customers in a campsite environment. Campsite catering might be required for a day tour or for an extended touring program.

| ELEMENT                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan campsite menus</b>                            | 1.1 Plan menus to take account of the following factors: budget, duration of trip, number of passengers, climate, special dietary requirements, facilities and equipment, available for cooking, availability of supplies.<br>1.2 Select the type of food from the full range of options available<br>1.3 Plan menus so that they are nutritionally balanced<br>1.4 Identify any special requests and ensure that special meals can be prepared for those customers with special dietary requirements                                                   |
| <b>2 Store and maintain campsite food and beverages</b> | 2.1 Select and correctly use appropriate storage equipment<br>2.2 Store all <b>food and beverage</b> items safely and hygienically in accordance with requirements for particular types of food<br>2.3 Monitor the quality of food and beverages throughout the tour and make any required adjustments to storage                                                                                                                                                                                                                                       |
| <b>3 Prepare and serve meals</b>                        | 3.1 Check and clean, as required, food preparation equipment<br>3.2 Treat water, if required, to ensure suitability for human consumption<br>3.3 Use a range of <b>food preparation techniques</b> and ensure that food is prepared in a safe and hygienic manner<br>3.4 Use a range of <b>cooking methods</b> to correctly prepare meals<br>3.5 Prepare meals for customers at the appropriate times and within accepted timeframes<br>3.6 Serve food to customers in accordance with individual preferences and with regard to safe hygiene practices |
| <b>4 Clear and clean catering equipment</b>             | 4.1 Clear and clean utensils and equipment in a safe, hygienic and environmentally-sound manner<br>4.2 Dispose of or store remaining food stuffs safely and hygienically                                                                                                                                                                                                                                                                                                                                                                                |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                    | CATEGORIES                                                                                                                                                                                                    |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

| SROPWC001A | SELECT AND MAINTAIN A PERSONAL WATER CRAFT |
| PWC        | Personal Water Craft                       |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit deals with the specific knowledge and skills required to select and maintain a personal water craft. Other related competencies such as riding a personal water craft and trip planning are defined elsewhere.

| ELEMENT                                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|----------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Select a personal water craft</b>                         | 1.1 Identify <b>sources</b> where information about personal water craft selection can be gained<br>1.2 Identify <b>personal water craft options</b> and justify <b>reasons for selecting</b> one personal water craft over another<br>1.3 Select a personal water craft, ensuring that it meets the <b>needs, size and proportions</b> of the <b>rider comfort</b><br>1.4 Select an appropriate personal water craft dealer                                                                                                                                                                             |
| <b>2 Set up a personal water craft</b>                         | 2.1 Select and use relevant manual/manufacture's specifications<br>2.2 Adjust handlebar angle where required to improve rider efficiency and comfort<br>2.3 Identify the <b>controls</b> and main features of the craft<br>2.4 Check other personal water craft parts to ensure correct functioning and safety, based on manufacturer's recommendations<br>2.5 Ensure personal water craft condition meets safety and registration requirements                                                                                                                                                          |
| <b>3 Conduct routine maintenance on a personal water craft</b> | 3.1 Identify scheduled <b>servicing</b> and <b>regular maintenance tasks</b><br>3.2 Correctly identify repair <b>tools and spare parts</b> and carry correct <b>tools and spare parts</b> for in-field repair kit<br>3.3 Identify <b>personal water craft parts requiring lubrication</b> , and lubricate as required<br>3.4 Conduct <b>regular maintenance</b> tasks as specified by the manufacturer and with reference to the manufacturer's manual<br>3.5 Correct detected faults or refer to specialist repairers, as required<br>3.6 <b>Clean</b> personal water craft to prevent corrosion damage |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                               | CATEGORIES                                                                                                                                                                                                                                                                                    |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| SROPWC002A | DEMONSTRATE BASIC SKILLS TO RIDE A PERSONAL WATER CRAFT IN CONTROLLED CONDITIONS |
| PWC        | Personal Water Craft                                                             |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit deals with the specific knowledge and skills required to ride a personal water craft in controlled conditions in accordance with statutory requirements. Controlled conditions include areas of flat undemanding water (coastal or inland) with winds no more than 10 knots, seas less than 1.0 metre and surf no higher than 0.5 metres.

| ELEMENT                                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan to ride a personal water craft</b>                   | 1.1 Identify food and fluid requirements based on duration of the ride and the principles of nutrition and energy and address packing and storage of food and fluids<br>1.2 Select an appropriate activity site/area of operation demonstrating consideration of <b>statutory requirements</b> , where applicable, and <b>contextual issues</b> relating to the activity<br>1.3 Access and interpret meteorological data and determine activity plans following consideration of <b>weather information and conditions</b><br>1.4 Determine and carry adequate fuel provisions<br>1.5 Check to ensure that the number of passengers does not exceed craft design limits and/or legislative requirements<br>1.6 Communicate trip plans to an appropriate person, including an emergency contact |
| <b>2 Select and use equipment and apparel</b>                  | 2.1 Select <b>suitable apparel</b> after consideration of <b>contextual issues</b> and check to ensure that it is in good working condition and fitting is correct<br>2.2 Wear <b>suitable apparel</b> which is adequate for all possible weather conditions<br>2.3 Identify the factors affecting <b>equipment selection</b> and determine equipment needs<br>2.4 Use and maintain <b>equipment</b> in accordance with manufacturer's specifications                                                                                                                                                                                                                                                                                                                                          |
| <b>3 Perform pre start checks</b>                              | 3.1 Select suitable transport (where relevant) and load/unload <b>personal water craft</b> safely<br>3.2 Secure and transport <b>personal water craft</b> (where relevant) according to manufacturer's instructions<br>3.3 Ensure <b>equipment</b> , stores and personal items are securely stowed and do not adversely affect the craft's stability<br>3.4 Carry out <b>pre start checks</b> of <b>personal water craft</b> to manufacturer's specifications and in line with established safety practices to ensure suitability for planned activity<br>3.5 Take action to correct any deficiencies                                                                                                                                                                                          |
| <b>4 Demonstrate basic skills to ride personal water craft</b> | 4.1 Start <b>personal water craft</b> using recommended technique to maintain safety and stability<br>4.2 Adopt appropriate posture when riding on varying conditions to achieve efficiency and comfort<br>4.3 Demonstrate a degree of balance and confidence and an understanding of weight distribution<br>4.4 Modify <b>technique</b> to account for changes in <b>water conditions</b> and apply recommended weight transfer <b>techniques</b> during cornering<br>4.5 Display efficient throttle control across different <b>water conditions</b><br>4.6 Use throttle control to maintain maximum turning and acceleration in any given situation                                                                                                                                         |

|                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                       | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| SROPWC003A | DEMONSTRATE ADVANCED SKILLS TO RIDE A PERSONAL WATER CRAFT IN MODERATE TO DIFFICULT CONDITIONS |
| PWC        | Personal Water Craft                                                                           |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit deals with the specific knowledge and skills required to ride a personal water craft in moderate to difficult conditions in accordance with statutory requirements. Moderate to difficult conditions include with winds of up to 21 knots, breaking waves of at least 1.0 metre and surf to 2.0 metres.

| ELEMENT                                                           | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan to ride a personal water craft</b>                      | 1.1 Identify food and fluid requirements based on duration of the ride and the principles of nutrition and energy and address packing and storage of food and fluids<br>1.2 Select an appropriate activity site/area of operation demonstrating consideration of <b>statutory requirements</b> , where applicable, and <b>contextual issues</b> relating to the activity<br>1.3 Access and interpret meteorological data and determine activity plans following consideration of <b>weather information and conditions</b><br>1.4 Determine and carry adequate fuel provisions<br>1.5 Check to ensure that the number of passengers does not exceed craft design limits and/or legislative requirements<br>1.6 Communicate trip plans to an appropriate person, including an emergency contact |
| <b>2 Select and use equipment and apparel</b>                     | 2.1 Select <b>suitable apparel</b> after consideration of <b>contextual issues</b> and check to ensure that it is in good working condition and fitting is correct<br>2.2 Wear <b>suitable apparel</b> which is adequate for all possible weather conditions<br>2.3 Identify the factors affecting <b>equipment selection</b> and determine <b>equipment</b> needs<br>2.4 Use and maintain <b>equipment</b> in accordance with manufacturer's specifications                                                                                                                                                                                                                                                                                                                                   |
| <b>3 Perform pre start checks</b>                                 | 3.1 Select suitable transport (where relevant) and load/unload <b>personal water craft</b> safely<br>3.2 Secure and transport <b>personal water craft</b> (where relevant) according to manufacturer's instructions<br>3.3 Ensure <b>equipment</b> , stores and personal items are securely stowed and do not adversely affect the craft's stability<br>3.4 Carry out <b>pre start checks</b> of personal water craft to manufacturer's specifications and in line with established safety practices to ensure suitability for planned activity<br>3.5 Take action to correct any deficiencies                                                                                                                                                                                                 |
| <b>4 Demonstrate advanced skills to ride personal water craft</b> | 4.1 Start <b>personal water craft</b> using recommended technique to maintain safety and stability<br>4.2 Adopt appropriate posture when riding on varying conditions to achieve efficiency and comfort<br>4.3 Demonstrate a degree of balance and confidence and an understanding of weight distribution<br>4.4 Modify technique to account for changes in <b>water conditions</b> and apply recommended weight transfer <b>techniques</b> during cornering<br>4.5 Display efficient throttle control across different <b>water conditions</b><br>4.6 Use throttle control to maintain maximum turning and acceleration in any given situation                                                                                                                                                |

|                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|                                                           | <p>4.7 Sit/stand, as required, to enable suitable weight distribution</p> <p>4.8 Demonstrate recommended emergency stop procedures</p> <p>4.9 Use appropriate speed, riding and stopping <b>techniques</b> to negotiate a range of <b>water conditions</b> whilst maintaining control of <b>personal water craft</b> at all times</p> <p>4.10 Complete <b>launching and retrieval</b> in line with safe practice in moderate to difficult conditions</p> <p>4.11 Modify technique to account for obstacles encountered, and apply weight transfer, throttle and stopping techniques during negotiation</p> <p>4.12 Conduct a tow in <b>controlled water conditions</b></p>                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>5 Manoeuvre and handle <i>personal water craft</i></b> | <p>5.1 <b>Manoeuvre craft safely</b> and according to conditions and in accordance with water traffic regulations</p> <p>5.2 <b>Monitor</b> performance of the craft and personnel at all times</p> <p>5.3 Consider <b>impact of the craft use on others and the environment</b></p> <p>5.4 Choose routes/lines to minimise damage to the environment</p> <p>5.5 Identify <b>aids to small craft navigation</b> and use navigational aids and landmarks to determine and monitor craft position</p> <p>5.6 Survey area of operation to identify <b>hazards</b>, assess <b>risk</b> and select the best route</p> <p>5.7 Apply collision avoidance <b>techniques</b> when required in accordance with relevant <b>legislation, recognised regulations and rules</b></p>                                                                                                                                                                                                                                                                                                                                                              |
| <b>6 Ride personal water craft in a safe manner</b>       | <p>6.1 Ensure <b>safety equipment</b> is serviceable and wear/use statutory <b>safety equipment</b> in accordance with state/territory legislation, weather and light conditions</p> <p>6.2 Identify <b>hazards</b> and minimise <b>risk</b> through use of appropriate strategies</p> <p>6.3 Negotiate obstacles in a safe manner</p> <p>6.4 Consider the <b>safety of others</b> whilst riding <b>personal water craft</b> and take appropriate <b>measures</b> to guard personal safety and the safety of others</p> <p>6.5 Demonstrate adequate and efficient methods to communicate with other <b>personal water craft</b> users and other waterways users</p> <p>6.6 Apply, where relevant, correct group/bunch riding <b>techniques</b></p> <p>6.7 Comply with statutory requirements when towing, including use of a appropriate observer and compliance with craft carrying capacity</p> <p>6.8 Demonstrate compliance with other relevant state/territory maritime legislation applying to safe operating distances and speed</p> <p>6.9 Assemble and carry an adequate in-field repair kit for the activity location</p> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                       | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| SROPWC004A | GUIDE TOURS USING PERSONAL WATER CRAFT |
| PWC        | Personal Water Craft                   |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to guide or lead clients on trips in controlled conditions using personal water craft.

| ELEMENT                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Select appropriate equipment for the group</b>         | 1.1 Select <b>equipment</b> after consideration of <b>contextual issues</b> and check to ensure that it is in good working condition<br>1.2 Fit and adjust <b>equipment</b> correctly and ensure suitability to the participant and personal water craft<br>1.3 Assess personal water crafts for safety and suitability for the activity<br>1.4 Waterproof and pack <b>equipment</b> that is not required on hand and load or fasten in a suitable manner<br>1.5 Check <b>safety and repair equipment</b> to ensure suitability to group and planned trip                                                                                                                                                     |
| <b>2 Plan a trip for clients using personal water craft</b> | 2.1 Assess skill level, experience and physical capabilities of each member of the group<br>2.2 Establish attainable group objectives<br>2.3 Select suitable location for trip to suit abilities and objectives of the group<br>2.4 Obtain and interpret weather information for local conditions of the trip<br>2.5 Obtain permits or permission for access where necessary<br>2.6 Ensure correct leader/client ratios are met<br>2.7 Prepare a checklist for personal <b>equipment</b> as trip leader<br>2.8 Determine food and drink requirements for group taking into account <b>contextual issues</b><br>2.9 Assess, minimise and eliminate risks, where possible whilst forming a risk management plan |
| <b>3 Brief clients</b>                                      | 3.1 Communicate logistical details to clients<br>3.2 Brief group of standard safety procedures<br>3.3 Demonstrate correct packing of a personal water craft with gear appropriate to proposed trip<br>3.4 Explain symptoms, treatment and prevention of hypothermia, hyperthermia and dehydration to group to assist in self-monitoring<br>3.5 Outline procedures to be followed should an accident occur<br>3.6 Establish verbal and non-verbal <b>communication</b> system for use during trip and ensure that all clients understand system(s)                                                                                                                                                             |
| <b>4 Maintain physical welfare of group</b>                 | 4.1 Apply knowledge of hypothermia, hyperthermia and dehydration to trip planning in terms of food, clothing, times and distances<br>4.2 Assess capabilities of group members prior to trip commencement<br>4.3 Ensure all clients are properly equipped for the trip and conditions<br>4.4 Monitor individual client's performance and needs<br>4.5 Evaluate riding pace and conditions<br>4.6 Monitor weather conditions<br>4.7 Evaluate implications of weather signs on trip plans<br>4.8 Implement appropriate modifications to trip in regard to all variable factors that are monitored<br>4.9 Control the group to maintain a safe enjoyable atmosphere<br>4.10 Apply risk management plan            |
| <b>5 Establish effective</b>                                | 5.1 Communicate clearly objectives and nature of the trip to the group                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>communication</b>                                                         | 5.2 Provide clear and concise direction and advice to group during the trip<br>5.3 Ensure that good <b>communication</b> exists between all group members by encouraging interaction<br>5.4 Encourage feedback and questioning from group members<br>5.5 Devolve decision making where appropriate<br>5.6 Recognise and resolve conflict situations<br>5.7 Provide positive encouragement and empathy                                                                                                                                                                                                                                                                                                                                                           |
| <b>6 Lead a group of personal water craft riders safely</b>                  | 6.1 Monitor appropriate spacing between personal water craft riders appropriate to conditions<br>6.2 Identify a variety of potential hazards<br>6.3 Decide how each <b>hazard</b> can be safely negotiated<br>6.4 Recognise situations where a <b>hazard</b> needs to be scouted<br>6.5 Identify the best lines through hazards taking into consideration the ability of the group and safety issues<br>6.6 Provide guidance of how to negotiate a <b>hazard</b> clearly and concisely to the group<br>6.7 Demonstrate clearly to the group how to negotiate the <b>hazard</b><br>6.8 Manage the movement of the group to maintain the safest situation when negotiating the <b>hazard</b><br>6.9 Respond accordingly to any emergency or non-routine situation |
| <b>7 Select and maintain a temporary site using minimal impact practices</b> | 7.1 Select a suitable site with reference to minimal impact on the environment<br>7.2 Arrange shelter appropriate for prevailing weather conditions<br>7.3 Establish site to ensure comfort and safety of the group<br>7.4 Use minimal impact practices relevant to the local environment during use of the site<br>7.5 Explain relevant minimum impact practices to group and monitor their compliance<br>7.6 Return site to an equal or greater standard on your departure                                                                                                                                                                                                                                                                                    |
| <b>8 Conduct activity in a professional manner</b>                           | 8.1 Avoid contentious issues in general conversation<br>8.2 Use positive words throughout activity to refer to clients and avoid using negative or disparaging words<br>8.3 Avoid negative statements about own organisation, commercial competitors, public bodies and other individuals                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>9 Complete post-trip responsibilities</b>                                 | 9.1 Notify relevant authority of trip completion<br>9.2 Retrieve, inspect, repair and store (or retire) <b>equipment</b> according to procedures<br>9.3 Evaluate, including client feedback, all aspects of trip organisation and conduct<br>9.4 Suggest modifications if needed                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT          | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| SROPWC005A | INSTRUCT THE BASIC SKILLS OF RIDING PERSONAL WATER CRAFT |
| PWC        | Personal Water Craft                                     |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to instruct learners to achieve competencies in order to participate independently, or with minimal supervision, in riding personal water craft in controlled conditions using basic skills.

| ELEMENT                                                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|---------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan an instructional session for teaching skills to ride personal water craft</b>     | 1.1 Identify client needs and assess current competencies of group/individuals in order to determine the aims and objectives of the instructional session<br>1.2 Select a suitable site for the instructional session, based on an assessment of client needs, <b>hazards</b> , abilities and session aims<br>1.3 Plan appropriate instructional activities which will facilitate and enhance the learning process<br>1.4 Determine a suitable <b>sequence</b> of instruction<br>1.5 Access resources to conduct instructional activities, games and drills<br>1.6 Provide relevant pre-activity information to clients<br>1.7 Prepare contingency plans for instructional session to cope with inclement weather and other factors which may affect the ability to conduct the session<br>1.8 Conduct a risk assessment of the instructional activities and location and implement a risk management plan in accordance with the organisation's guidelines and operating procedures |
| <b>2 Select appropriate resources required to teach skills to ride personal water craft</b> | 2.1 Select and access <b>equipment</b> and <b>other resources</b> suitable for the instructional objectives<br>2.2 Select, fit and adjust <b>equipment</b> (where appropriate) to suit the needs of individual clients<br>2.3 Check all <b>equipment</b> to ensure compliance with occupational health and safety legislation, manufacturer's recommendations and/or operating procedures, and to ensure that it is in good working order<br>2.4 Check contents of first aid and repair kits to ensure their suitability to the location and activity<br>2.5 Arrange, where required, protective and/or safety clothing for each client                                                                                                                                                                                                                                                                                                                                              |
| <b>3 Introduce an instructional session</b>                                                 | 3.1 Communicate the aims of the instructional session to the clients<br>3.2 Encourage clients to seek clarification, information and feedback<br>3.3 Brief the clients on the safety practices, procedures and behaviour appropriate to the instructional session<br>3.4 Define activity boundaries/training area and/or clearly outline to the clients<br>3.5 Check clothing and footwear of clients for suitability to the session<br>3.6 Provide information on <b>equipment</b> selection, fitting or use where relevant to the instructional session's aims                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>4 Conduct an instructional session</b>                                                   | 4.1 Conduct "warm up"/introductory activities (where required) to reduce the risk of injury when client's are participating in physical activities                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT              | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

| SROPWC006A | INSTRUCT THE ADVANCED SKILLS OF RIDING PERSONAL WATER CRAFT |
| PWC        | Personal Water Craft                                        |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to instruct learners to achieve competencies in order to participate independently, or with minimal supervision, in riding personal water craft in moderate to difficult conditions using advanced skills.

| ELEMENT                                                                                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan an instructional session for teaching advanced skills to ride personal water craft</b>     | 1.1 Identify client needs and assess current competencies of group/individuals in order to determine the aims and objectives of the instructional session<br>1.2 Select a suitable site for the instructional session, based on an assessment of client needs, <b>hazards</b> , abilities and session aims<br>1.3 Plan appropriate instructional activities which will facilitate and enhance the learning process<br>1.4 Determine a suitable <b>sequence</b> of instruction<br>1.5 Access resources to conduct instructional activities, games and drills<br>1.6 Provide relevant pre-activity information to clients<br>1.7 Prepare contingency plans for instructional session to cope with inclement weather and other factors which may affect the ability to conduct the session<br>1.8 Conduct a risk assessment of the instructional activities and location and implement a risk management plan in accordance with the organisation's guidelines and operating procedures |
| <b>2 Select appropriate resources required to teach advanced skills to ride personal water craft</b> | 2.1 Select and access <b>equipment</b> and <b>other resources</b> suitable for the instructional objectives<br>2.2 Select, fit and adjust <b>equipment</b> (where appropriate) to suit the needs of individual clients<br>2.3 Check all <b>equipment</b> to ensure compliance with occupational health and safety legislation, manufacturer's recommendations and/or operating procedures, and to ensure that it is in good working order<br>2.4 Check contents of first aid and repair kits to ensure their suitability to the location and activity<br>2.5 Arrange, where required, protective and/or safety clothing for each client                                                                                                                                                                                                                                                                                                                                              |
| <b>3 Introduce an instructional session</b>                                                          | 3.1 Communicate the aims of the instructional session to the clients<br>3.2 Encourage clients to seek clarification, information and feedback<br>3.3 Brief the clients on the safety practices, procedures and behaviour appropriate to the instructional session<br>3.4 Define activity boundaries/training area and/or clearly outline to the clients<br>3.5 Check clothing and footwear of clients for suitability to the session<br>3.6 Provide information on <b>equipment</b> selection, fitting or use where relevant to the instructional session's aims                                                                                                                                                                                                                                                                                                                                                                                                                     |

|                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|---------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>4 Conduct an instructional session</b>                                       | <p>4.1 Conduct "warm up"/introductory activities (where required) to reduce the risk of injury when client's are participating in physical activities</p> <p>4.2 Monitor individual client's performance in instructional activities</p> <p>4.3 Provide positive encouragement and/or feedback to each client at a suitable time to maintain a positive learning environment</p> <p>4.4 Ensure instructional activity allows for repetition of skills</p> <p>4.5 Evaluate instructional activities for effectiveness and implement modifications when required</p> <p>4.6 Assess risks associated with the conduct of instructional activities constantly and remove, minimise or avoid <b>hazards</b> in accordance with risk management plan and instructional objectives</p> <p>4.7 Monitor <b>equipment</b> usage, behaviour and location of clients in order to review safety</p> <p>4.8 Ensure personal competencies with respect to topics and skills within the instructional session are at a sufficient level to enable correct demonstration of skills, accurate provision of information and to engender the confidence of the client(s)</p> <p>4.9 Demonstrate how personal competencies enable emergency and non-routine situations to be dealt with in accordance with operating procedures</p> |
| <b>5 Apply appropriate teaching techniques for an instructional session</b>     | <p>5.1 Communicate instructions and information clearly and concisely</p> <p>5.2 Perform demonstrations for clients (where required) with a high level of technical correctness and accurate description</p> <p>5.3 Break-down complex skills and techniques into component parts and describe with key teaching points</p> <p>5.4 Identify faults in technique and provide a variety of solutions, where relevant, to correct faults</p> <p>5.5 Provide adequate time for practice, following fault correction and feedback</p> <p>5.6 Explain activities, drills or techniques which may improve skills</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>6 Teach required knowledge that applies to riding personal water craft</b>   | <p>6.1 Teach required knowledge, rules, ethics, codes of behaviour, points of interest or principles relevant to riding personal water craft and achievement of competency, in a manner which achieves interest and client understanding</p> <p>6.2 Instruct clients on factors to consider when planning for participation in personal water craft activities</p> <p>6.3 Identify minimal impact practices appropriate to riding personal water craft, and determine client level of understanding</p> <p>6.4 Outline specific aspects of <b>equipment</b> selection, use and care, to enable the client to achieve competency at the relevant level</p> <p>6.5 Explain communication systems and relevant signals used whilst participating in personal water craft activities, and determine client level of understanding in their use</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>7 Teach safety procedures appropriate to a personal water craft activity</b> | <p>7.1 Instruct clients in appropriate emergency response procedures and techniques applicable to riding personal water craft, and the level of competency required</p> <p>7.2 Explain the principles and practices of group management, in the context of emergency situations</p> <p>7.3 Teach clients industry standard safety practices relevant to riding personal water craft</p> <p>7.4 Clarify the use and selection of specific <b>repair and emergency response equipment</b> that should be carried, relevant to the level of competency</p> <p>7.5 Assess client's level of understanding via questioning techniques and/or formal assessment</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>8 Teach personal water craft riding skills</b>                             | 8.1 Explain and demonstrate key points of technique or skill<br>8.2 Outline the <b>sequence</b> or combination of skill to achieve effective or efficient results<br>8.3 Identify different applications of skill or technique, and where it is applicable/not applicable<br>8.4 Practice skills or techniques and observe clients in order to provide feedback<br>8.5 Assess clients to determine poor or incorrect technique<br>8.6 Provide opportunities for additional practice, where required                                                                                                                                                                                                                                                                                               |
| <b>9 Communicate further knowledge relevant to personal water craft usage</b> | 9.1 Inform clients of locations, suitable to their skill level, for riding personal water craft<br>9.2 Provide information relevant to the competencies being taught, on the range of <b>equipment</b> and clothing available or required, and factors affecting choice<br>9.3 Inform clients of opportunities to further develop their personal skills and knowledge                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>10 Conclude and evaluate the instructional session</b>                     | 10.1 Allow time for "cooling down" at the end of the session, check <b>equipment</b> for damage and return and store in an appropriate fashion<br>10.2 Determine the level of learning achieved directly through assessment or indirectly from Assessor<br>10.3 Apply feedback from Assessor or assessment to evaluate the effectiveness of the instructional activities, the suitability of the instructional method, the feedback provided to clients and the initial assessment of client's abilities<br>10.4 Evaluate the validity and reliability of assessment/evaluation tools used throughout the session to monitor learning<br>10.5 Determine modifications to activities and delivery method(s), based on evaluations<br>10.6 Evaluate the suitability of <b>other related factors</b> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT              | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| SRORAF001B | APPLY RAFTING SKILLS ON MOVING WATER |
| RAF        | Rafting                              |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to undertake rafting activities and manoeuvre a raft on moving water, up to and including Grade 2 rapids. This unit addresses personal rafting skills and does not address the competencies required to guide clients in rafts. This unit should be assessed using a raft crewed by a group of peers and not by inexperienced novices.

| ELEMENT                                            | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Select and use rafting equipment</b>          | 1.1 Select <b>equipment</b> after consideration of <b>contextual issues</b> and check to ensure that it is in good working order<br>1.2 Fit and adjust <b>personal equipment</b> , correctly and ensure suitability to the paddler and the craft<br>1.3 Assess craft for safety and suitability for the activity and is inflated correctly to the required pressure<br>1.4 Select <b>safety and rescue equipment</b> appropriate to the activity location<br>1.5 Waterproof, pack and fasten <b>equipment</b> that is not required on hand in a manner to ensure that it is not lost, damaged or a hindrance |
| <b>2 Plan for the activity</b>                     | 2>2.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>2.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>2.3 Identify an appropriate activity site/location after consideration of <b>statutory and organisational procedures</b> , where applicable, and <b>contextual issues</b> relating to the activity<br>2.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                               |
| <b>3 Launch, land and secure a raft</b>            | 3.1 Place raft in the water in a manner that minimises damage and environmental impact and is secured<br>3.2 Arrange seating positions that are appropriate to the size and abilities of the other paddlers<br>3.3 Select a safe landing site with ease of access to the river bank and secure the raft                                                                                                                                                                                                                                                                                                      |
| <b>4 Control the raft in moving water</b>          | 4.1 Demonstrate a range of <b>strokes</b> and paddling <b>manoeuvres</b> to break into and out of eddies and travel downstream and upstream<br>4.2 Demonstrate the ability to cross a current when facing upstream and downstream<br>4.3 Negotiate or avoid <b>hazards</b> using a combination of <b>strokes</b> and <b>manoeuvres</b><br>4.4 Maintain <b>communication</b> with other rafts, and with other paddlers within the raft                                                                                                                                                                        |
| <b>5 Plan and run a route through moving water</b> | 5.1 Scout sections of moving water to identify <b>hydrological features</b> , <b>hazards</b> and impediments<br>5.2 Assess <b>hazards</b> and <b>hydrological features</b> and evaluate options<br>5.3 Communicate the selected route to the crew and other craft<br>5.4 Determine safety stations and staff, where necessary, with other paddlers with throwbags and the necessary experience in their use<br>5.5 Demonstrate the navigation of the preferred route, using a range of <b>strokes</b>                                                                                                        |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| <b>6 Apply navigation skills</b>  | 2>6.1 Demonstrate navigation skills to determine location and follow planned route/course during the activity                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>7 Apply capsize procedures</b> | <p>7.1 Maintain the appropriate body position in the water to minimise injury or entrapment and apply defensive and aggressive swimming techniques if necessary</p> <p>7.2 Maintain a position upstream of the raft and recover paddles, where possible</p> <p>7.3 Perform self or assisted rescue in an efficient and timely manner and demonstrate effective use of a throw bag, as a rescuer and rescuee</p> <p>7.4 Perform a head count to ensure that all persons have been accounted for</p> <p>7.5 Demonstrate the technique to right a flipped raft</p> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT          | CATEGORIES                                                                                                                                                                                                                                                                                                |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| SRORAF002B | APPLY RAFTING SKILLS ON GRADE 3 RAPIDS |
| RAF        | Rafting                                |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to undertake rafting activities and manoeuvre a raft in Grade 3 rapids. This unit addresses personal rafting skills and does not address the competencies required to guide clients in rafts. This unit should be assessed using a raft crewed by group of peers and not by inexperienced novices.

| ELEMENT                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Select and use rafting equipment</b>     | 1.1 Select <b>equipment</b> after consideration of <b>contextual issues</b> and check to ensure that it is in good working order<br>1.2 Fit and adjust <b>personal equipment</b> and ensure suitability to the paddler and the craft<br>1.3 Assess craft for safety and suitability for the activity and inflate correctly to the required pressure<br>1.4 Select <b>safety and rescue equipment</b> appropriate to the activity location<br>1.5 Pack and waterproof <b>equipment</b> that is not required on hand and fasten in a manner to ensure that it is not lost, damaged or a hindrance |
| <b>2 Plan for the activity</b>                | 2>2.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>2.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>2.3 Identify an appropriate activity site/location after consideration of <b>statutory and organisational procedures</b> , where applicable, and <b>contextual issues</b> relating to the activity<br>2.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                  |
| <b>3 Launch, land and secure a raft</b>       | 3.1 Place raft in the water in a manner that minimises damage and environmental impact and is secured<br>3.2 Arrange seating positions that are appropriate to the size and abilities of the other paddlers<br>3.3 Select a safe landing site with ease of access to the river bank and secure the raft                                                                                                                                                                                                                                                                                         |
| <b>4 Control the raft in moving water</b>     | 4.1 Demonstrate a range of <b>strokes</b> and paddling <b>manoeuvres</b> to break into and out of eddies and travel downstream and upstream<br>4.2 Demonstrate the ability to cross a current when facing upstream and downstream<br>4.3 Negotiate or avoid <b>hazards</b> using a combination of <b>strokes</b> and <b>manoeuvres</b><br>4.4 Maintain <b>communication</b> with other rafts, and with other paddlers within the raft                                                                                                                                                           |
| <b>5 Plan and run a route through a rapid</b> | 5.1 Scout sections of moving water to identify <b>hydrological features</b> , <b>hazards</b> and impediments<br>5.2 Assess <b>hazards</b> and <b>hydrological features</b> and evaluate options<br>5.3 Communicate the selected route to the crew and other craft<br>5.4 Determine safety stations and man, where necessary, with other paddlers with throwbags and the necessary experience in their use<br>5.5 Demonstrate the navigation of the preferred route, using a range of <b>strokes</b>                                                                                             |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                   | and paddling <i>manoeuvres</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>6 Apply navigation skills</b>  | 2>6.1 Demonstrate navigation skills to determine location and follow planned route/course during the activity                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>7 Apply capsize procedures</b> | <p>7.1 Maintain the appropriate body position in the water to minimise injury or entrapment and apply defensive and aggressive swimming techniques if necessary</p> <p>7.2 Maintain a position upstream of the raft and recover paddles, where possible</p> <p>7.3 Perform self or assisted rescue in an efficient and timely manner and demonstrate effective use of a throw bag, as a rescuer and rescuee</p> <p>7.4 Perform a head count to ensure that all persons have been accounted for</p> <p>7.5 Demonstrate the technique to right a flipped raft</p> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT          | CATEGORIES                                                                                                                                                                                                                                                                                                |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| RAF        | Rafting                                |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to undertake rafting activities and manoeuvre a raft on Grade 4 rapids. This unit addresses personal rafting skills and does not address the competencies required to guide clients in rafts. This unit must be assessed using a raft crewed by a group of peers and not by inexperienced novices.

| ELEMENT                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Select and use rafting equipment</b>     | 1.1 Select <b>equipment</b> after consideration of <b>contextual issues</b> and check to ensure that it is in good working order<br>1.2 Fit and adjust <b>personal equipment</b> and ensure suitability to the paddler and the craft<br>1.3 Assess craft for safety and suitability for the activity and inflate correctly to the required pressure<br>1.4 Select <b>safety and rescue equipment</b> appropriate to the activity location<br>1.5 Pack and waterproof <b>equipment</b> that is not required on hand and fasten in a manner to ensure that it is not lost, damaged or a hindrance |
| <b>2 Plan for the activity</b>                | 2>2.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>2.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>2.3 Identify an appropriate activity site/location after consideration of <b>statutory and organisational procedures</b> , where applicable, and <b>contextual issues</b> relating to the activity<br>2.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                  |
| <b>3 Launch, land and secure a raft</b>       | 3.1 Place raft in the water in a manner that minimises damage and environmental impact and is secured<br>3.2 Arrange seating positions that are appropriate to the size and abilities of the other paddlers<br>3.3 Select a safe landing site with ease of access to the river bank and secure the raft                                                                                                                                                                                                                                                                                         |
| <b>4 Control the raft in moving water</b>     | 4.1 Demonstrate a range of <b>strokes</b> and paddling <b>manoeuvres</b> to break into and out of eddies and travel downstream and upstream<br>4.2 Demonstrate the ability to cross a current when facing upstream and downstream<br>4.3 Negotiate or avoid <b>hazards</b> using a combination of <b>strokes</b> and <b>manoeuvres</b><br>4.4 Maintain <b>communication</b> with other rafts, and with other paddlers within the raft                                                                                                                                                           |
| <b>5 Plan and run a route through a rapid</b> | 5.1 Scout sections of moving water to identify <b>hydrological features</b> , <b>hazards</b> and impediments<br>5.2 Assess <b>hazards</b> and <b>hydrological features</b> and evaluate options<br>5.3 Use appropriate <b>communication</b> to inform the crew and other craft of the selected route<br>5.4 Determine safety stations and man, where necessary, with other paddlers with throwbags and the necessary experience in their use                                                                                                                                                    |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|                                   | 5.5 Demonstrate the navigation of the preferred route                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>6 Apply navigation skills</b>  | 2>6.1 Demonstrate navigation skills to determine location and follow planned route/course during the activity                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>7 Apply capsize procedures</b> | <p>7.1 Maintain the appropriate body position in the water to minimise injury or entrapment and apply defensive and aggressive swimming techniques if necessary</p> <p>7.2 Maintain a position upstream of the raft and recover paddles, where possible</p> <p>7.3 Perform self or assisted rescue in an efficient and timely manner and demonstrate effective use of a throw bag, as a rescuer and rescuee</p> <p>7.4 Perform a head count to ensure that all persons have been accounted for</p> <p>7.5 Demonstrate the technique to right a flipped raft</p> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT          | CATEGORIES                                                                                                                                                                                                                                                                                                |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| RAF        | Rafting                     |

**Description:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to instruct people in raft handling and river procedures; demonstrate technical raft guiding skills; demonstrate river running skills with clients; practice risk management on guided rafting trips and provide customer service to rafting clients whilst under the supervision of an experienced trip leader.

| ELEMENT                                                         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Instruct clients in raft handling and river procedures</b> | 1.1 Brief clients in the use and wearing of <b>safety equipment</b> according to company operational plans<br>1.2 Ensure verbal instructions and visual demonstrations match <b>assessment</b> of clients' requirements<br>1.3 Give raft handling instructions to ensure majority of clients in raft contribute positively to the paddling and <b>control of the raft</b><br>1.4 Ensure instruction and briefing given give clients understanding of the river difficulty, type of rapids, length of trip, <b>river hazards</b> , weather conditions and <b>potential risks</b> involved<br>1.5 Communicate instruction which provides an overview of the company's self-rescue techniques, with the actions required of a rafting client in simple terms |
| <b>2 Demonstrate technical raft guiding skills</b>              | 2.1 Execute ferry glides and ensure ferry glides move the raft laterally to the nominated positions in the river<br>2.2 Demonstrate raft control which allows eddies to be entered, raft stopped in eddies, and eddies to be exited within rapids of Grade 3 or above<br>2.3 Manage portages and raft linings to avoid sections of rapid and maintain safety of raft and clients during the portage<br>2.4 Demonstrate river signals to accurately describe actions required and reflect standard river signalling practice<br>2.5 Adhere to convoying on rapids and flat water according to company operational plans and trip leader requirements for the raft trip                                                                                     |
| <b>3 Demonstrate river running skills with clients</b>          | 3.1 Seat clients to maximise raft stability, to utilise clients' physical abilities, and take into account clients' mental and emotional states<br>3.2 Select a line through rapids using river knowledge to maximise client safety and enjoyment<br>3.3 Ensure that river interpretation takes into account portaging decisions and/or shore based safety back-up for individual rapids and that they match river conditions, client requirements and company operational plans<br>3.4 Guide's commands and paddling ensure raft and clients are off-river within company schedule requirements                                                                                                                                                          |
| <b>4 Practice risk management on guided rafting trips</b>       | 4.1 Guide behaviour does not jeopardise the safety of clients or anyone else and matches company standards<br>4.2 Deal with inappropriate behaviour in others so that the behaviour is resolved without affecting the clients' enjoyment of the trip<br>4.3 Maintain safety of clients, raft and equipment at all times<br>4.4 Carry and/or store raft guide and company <b>safety equipment</b> on the the raft and use according to industry standards and company operational plans<br>4.5 Conduct raft repairs with temporary or permanent patching and the raft is re-inflated so that it would be capable of completing a rafting trip<br>4.6 Monitor river, weather and client conditions for potential hazards, and take                          |

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <b>5 Provide customer service to rafting clients</b> | <p>5.1 Identify clients' need for individual <b>assistance</b> and provide <b>assistance</b> to enhance the clients' experience of the rafting trip</p> <p>5.2 Answer clients' questions to the clients' satisfaction</p> <p>5.3 Warn clients about <b>minor hazards</b> that could affect their comfort and enjoyment of the rafting trip and advise of actions they can take to avoid these <b>minor hazards</b></p> <p>5.4 Enhance the clients' experience of the rafting trip by means of <b>guide commentary</b></p> <p>5.5 Manage the raft and instruct clients so that contact with other river users does not impact negatively on the client's enjoyment of the rafting trip</p> <p>5.6 Address problems that occur for clients within the full capabilities of the time and resources available to the guide and follow up on return to the rafting base</p> <p>5.7 Handle complaints on the spot and to the customers' satisfaction or customers are passed on to organisation staff responsible for handling complaints</p> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT            | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| SRORAF005A | COORDINATE, MANAGE AND GUIDE WHITE WATER RAFTING TRIPS |
| RAF        | Rafting                                                |

**Description:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to manage a rafting trip; demonstrate knowledge of legal requirements governing the rafting industry; demonstrate advanced river guide techniques on a Grade 3 white water rafting trip and demonstrate advanced rafting and rescue management skills on Grade 3 white water.

| ELEMENT                                                                                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Manage a rafting trip(one and multi day trips) in accordance with Operational Management plan</b> | 1.1 Co-ordinate <b>logistical details</b> during river trips to ensure guidelines in the Operational Management plan are met<br>1.2 Manage and communicate to other guides all the information they require to fulfil their responsibilities and make available any resources they need<br>1.3 Provide level of supervision to other guides on the river with respect to their experience and skill level, in accordance with the guidelines in the Operational Management plan<br>1.4 Demonstrate senior raft guides responsibilities when managing <b>general trip problems</b> to ensure overall success of the trip<br>1.5 Follow through and complete post-trip tasks and evaluation according to company procedure as outlined in Operational Management plan |
| <b>2 Demonstrate knowledge of legal requirements governing rafting industry</b>                        | 2.1 Demonstrate sound knowledge of the rules governing rafting in State where company operates<br>2.2 Identify Health and Safety legislation as it relates to the rafting industry and the possible consequences to rafting companies and their employees if these are not met<br>2.3 Describe organisations and office holders associated with the rafting industry including their purpose and responsibilities                                                                                                                                                                                                                                                                                                                                                   |
| <b>3 Demonstrate advanced river guide techniques of a Grade 3 white water rafting trip</b>             | 3.1 Demonstrate a variety of <b>manoeuvres</b> on Grade 3 rapids maintaining hazard free lines, boat control and displaying <b>good guiding technique</b><br>3.2 Cross and/or access <b>difficult areas</b> on the river maintaining hazard free lines, boat control and displaying <b>good guiding technique</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>4 Demonstrate advanced rafting and rescue management skills on Grade 3 white water</b>              | 4.1 Identify and implement risk management strategies that promote clients' safety<br>4.2 Identify <b>crisis management procedures</b> as outlined in the organisation's emergency plan<br>4.3 Demonstrate rescue <b>leadership skills</b> with calm assurance in a simulated emergency river rescue<br>4.4 Identify the roles and responsibilities of personnel in an emergency situation in line with the organisation's management plan                                                                                                                                                                                                                                                                                                                          |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                     | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| SRORAF006A | INSTRUCT RAFTING SKILLS |
| RAF        | Rafting                 |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Training Package

This unit covers the knowledge and skills to instruct learners to achieve competencies in order to participate independently, or with minimal supervision, in a rafting activity on graded water conditions

| ELEMENT                                                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan an instructional session for teaching rafting skills</b>     | 1.1 Identify client needs and assess current competencies of group/individuals in order to determine the aims and objectives of the instructional session<br>1.2 Select a suitable site for the instructional session, based on an assessment of client needs, <b>hazards</b> , abilities and session aims<br>1.3 Plan appropriate instructional activities which will facilitate and enhance the learning process<br>1.4 Determine a suitable <b>sequence</b> of instruction<br>1.5 Access resources to conduct instructional activities, games and drills<br>1.6 Provide relevant pre-activity information to clients<br>1.7 Prepare contingency plans for instructional session to cope with inclement weather and other factors which may affect the ability to conduct the session<br>1.8 Conduct a risk assessment of the instructional activities and location and implement a risk management plan in accordance with the organisation's guidelines and operating procedures |
| <b>2 Select appropriate resources required to teach rafting skills</b> | 2.1 Select and access <b>equipment</b> and <b>other resources</b> suitable for the instructional objectives<br>2.2 Select, fit and adjust <b>equipment</b> (where appropriate) to suit the needs of individual clients<br>2.3 Check all <b>equipment</b> to ensure compliance with occupational health and safety legislation, manufacturer's recommendations and/or operating procedures, and to ensure that it is in good working order<br>2.4 Check contents of first aid and repair kits to ensure their suitability to the location and activity<br>2.5 Arrange, where required, protective and/or safety clothing for each client                                                                                                                                                                                                                                                                                                                                              |
| <b>3 Introduce an instructional rafting session</b>                    | 3.1 Communicate the aims of the instructional session to the clients<br>3.2 Encourage clients to seek clarification, information and feedback<br>3.3 Brief the clients on the safety practices, procedures and behaviour appropriate to the instructional session<br>3.4 Define activity boundaries/training area and/or clearly outline to the clients<br>3.5 Check clothing and footwear of clients for suitability to the session<br>3.6 Provide information on <b>equipment</b> selection, fitting or use where relevant to the instructional session's aims                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>4 Conduct an instructional rafting session</b>                      | 4.1 Conduct "warm up"/introductory activities (where required) to reduce the risk of injury when client's are participating in physical activities<br>4.2 Monitor individual client's performance in instructional activities<br>4.3 Provide positive encouragement and/or feedback to each client at a suitable time to maintain a positive learning environment<br>4.4 Ensure instructional activity allows for repetition of skills<br>4.5 Evaluate instructional activities for effectiveness and implement modifications when required<br>4.6 Assess risks associated with the conduct of instructional activities constantly                                                                                                                                                                                                                                                                                                                                                   |

|                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                          | <p>and remove, minimise or avoid hazards in accordance with risk management plan and instructional objectives.</p> <p>4.7 Monitor <b>equipment</b> usage, behaviour and location of clients in order to review safety</p> <p>4.8 Ensure personal competencies with respect to topics and skills within the instructional session are at a sufficient level to enable correct demonstration of skills, accurate provision of information and to engender the confidence of the client(s)</p> <p>4.9 Demonstrate how personal competencies enable emergency and non - routine situations to be dealt with in accordance with operating procedures</p>                                                                                                      |
| <b>5 Apply appropriate teaching techniques for a rafting session</b>                     | <p>5.1 Communicate instructions and information clearly and concisely</p> <p>5.2 Perform demonstrations for clients (where required) with a high level of technical correctness and accurate description</p> <p>5.3 Break-down complex skills and techniques into component parts and describe with key teaching points</p> <p>5.4 Identify faults in technique and provide a variety of solutions, where relevant, to correct faults</p> <p>5.5 Provide adequate time for practice, following fault correction and feedback</p> <p>5.6 Explain activities, drills or techniques which may improve skills</p>                                                                                                                                            |
| <b>6 Teach required knowledge that applies to a rafting activity</b>                     | <p>6.1 Teach required knowledge, ethics, codes of behaviour, points of interest or principles relevant to rafting and achievement of competency, in a manner which achieves interest and client understanding</p> <p>6.2 Instruct clients on factors to consider when planning for participation in rafting</p> <p>6.3 Identify minimal impact practices appropriate to rafting, and determine client level of understanding</p> <p>6.4 Outline specific aspects of <b>equipment</b> selection, use and care, to enable the client to achieve competency at the relevant level</p> <p>6.5 Explain communication systems and relevant calls or signals used whilst participating in rafting, and determine client level of understanding in their use</p> |
| <b>7 Teach safety and rescue procedures appropriate to a whitewater rafting activity</b> | <p>7.1 Instruct clients in appropriate emergency response procedures and techniques applicable to rafting, and the level of competency required</p> <p>7.2 Explain the principles and practices of group management, in the context of emergency situations</p> <p>7.3 Teach clients industry standard safety practices relevant to rafting</p> <p>7.4 Demonstrate rescue techniques specific to rafting, and provide opportunities for practice</p> <p>7.5 Clarify the use and selection of specific emergency response <b>equipment</b> that should be carried, relevant to the level of competency</p> <p>7.6 Assess client's level of understanding via questioning techniques and/or formal assessment</p>                                          |
| <b>8 Teach rafting skills</b>                                                            | <p>8.1 Explain and demonstrate key points of technique or skill</p> <p>8.2 Outline the <b>sequence</b> or combination of skill to achieve effective or efficient results</p> <p>8.3 Identify different applications of skill or technique, and where it is applicable/not applicable</p> <p>8.4 Practice skills or techniques and observe clients in order to provide feedback</p> <p>8.5 Assess clients to determine poor or incorrect technique</p> <p>8.6 Provide opportunities for additional practice, where required</p>                                                                                                                                                                                                                           |
| <b>9 Communicate further</b>                                                             | <p>9.1 Inform clients of locations, suitable to their skill level, for participating in rafting</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <b>10 Conclude and evaluate the rafting instructional session</b> | 10.1 Allow time for "cooling down" at the end of the session, check <b>equipment</b> for damage and return and store in an appropriate fashion<br>10.2 Determine the level of learning achieved directly through assessment or indirectly from Assessor<br>10.3 Apply feedback from Assessor or assessment to evaluate the effectiveness of the instructional activities, the suitability of the instructional method, the feedback provided to clients and the initial assessment of client's abilities<br>10.4 Evaluate the validity and reliability of assessment/evaluation tools used throughout the session to monitor learning<br>10.5 Determine modifications to activities and delivery method(s), based on evaluations<br>10.6 Evaluate the suitability of <b>other related factors</b> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT              | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                  |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

**DESCRIPTION:** This unit involves providing assistance to personnel conducting diving operations to perform work in the fishing or aquaculture sectors of the seafood industry. It includes performing checks on equipment, identifying occupational hazards, performing lookout duties and providing other forms of assistance to diving operations including carrying out the roles and responsibilities of supervision when specified by industry guidelines.

**Note:** Codes of Practice covering diving operations for an industry sector and/or a geographic region may not require the support of a diving assistant. Reference should be made to local Codes of Practice/industry standards etc covering diving operations.

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT            | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

| SROSCB001A | SCUBA DIVE IN OPEN WATER TO A MAXIMUM DEPTH OF 18 METRES |
| SCB        | Scuba                                                    |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to use and maintain scuba dive equipment, plan and perform scuba dives without direct supervision in open water to a maximum depth of 18 metres, and perform scuba dive rescues.

| ELEMENT                                                      | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Use and maintain scuba dive equipment</b>               | 1.1 Select <b>scuba dive equipment</b> to match diver's build and experience<br>1.2 Use <b>scuba dive equipment</b> to <b>industry technical and safety criteria</b><br>1.3 Explain and demonstrate maintenance required to meet manufacturer's recommendations<br>1.4 Calculate non-decompression times to <b>industry technical and safety criteria</b><br>1.5 Demonstrate use of buoyancy control device (BCD) to establish positive, negative and neutral buoyancy                                                                                                                                                                                |
| <b>2 Perform scuba dives to a maximum depth of 18 metres</b> | 2.1 Describe correctly <b>physics and physiology</b> in relation to scuba diving and divers<br>2.2 <b>Consider all factors effecting site selection and</b> ensure selected scuba dive site meets safety criteria of industry<br>2.3 Perform <b>entries to and exits from the water</b> to meet <b>industry technical and safety criteria</b><br>2.4 Maintain <b>buddy system</b> at all times<br>2.5 Demonstrate <b>emergency out of air techniques</b><br>2.5 Give, recognise and respond to hand signals in accordance with <b>industry technical and safety criteria</b><br>2.6 Complete dives within <b>industry accepted dive safety limits</b> |
| <b>3 Perform scuba dive rescues</b>                          | 3.1 Explain and demonstrate <b>first aid</b> for potential scuba dive incidents to <b>industry technical and safety criteria</b><br>3.2 Identify diving related <b>hazards</b> in relation to their causes, symptoms, effects and prevention<br>3.3 Demonstrate emergency out-of-air techniques to meet <b>industry technical and safety criteria</b><br>3.4 Demonstrate <b>self and buddy rescue techniques</b> to meet <b>industry technical and safety criteria</b>                                                                                                                                                                                |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                         | CATEGORIES                                                                                                                                                                                                                                                   |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers limited knowledge and skills in specialist diving activities in order to participate in selected specialist diving areas/activities under supervision. Note that the competencies to independently participate in specialist diving activities are detailed in separate units of competency.

| ELEMENT                                                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Acquire specialty diving skills and knowledge to participate under supervision</b> | 1.1 Identify the diversity of specialty diving activities and describe features of each area<br>1.2 Outline diving specific skills and knowledge required to successfully participate in specialty diving activities under supervision and identify sources of training<br>1.3 Acquire the skills and knowledge from industry accredited agencies, required to conduct the specialty activity under supervision, in the diving environment<br>1.4 Identify and obtain <b>specialist equipment</b> required for the conduct of the specialty activity |
| <b>2 Plan specialty dives</b>                                                           | 2.1 Demonstrate how equipment selected meets industry criteria<br>2.2 Demonstrate a knowledge and understanding of potential <b>hazards</b> for specialty diving<br>2.3 Demonstrate how dive <b>site selection</b> for specific <b>specialty area</b> meets industry safety criteria<br>2.4 Demonstrate, where necessary, specialty skills in confined water prior to participation in open water activities                                                                                                                                         |
| <b>3 Perform open water specialty dives</b>                                             | 3.1 Perform entries to and exits from the water to maintain orientation and buddy contact and to industry safety criteria<br>3.2 Complete specialty in accordance with dive plans and activity objectives<br>3.3 Perform dive practice in <b>specialty area</b> to meet industry technical and safety criteria                                                                                                                                                                                                                                       |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT             | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to prepare for and perform a dive at night demonstrating night navigation and hazard avoidance.

| ELEMENT                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Plan a <i>night dive</i>    | 1.1 Select <i>lighting equipment</i> that meets <i>industry criteria</i><br>1.2 Identify potential <i>night diving hazards</i> to <i>industry criteria</i><br>1.3 Consider <i>site selection criteria</i> in terms of meeting the industry safety criteria for the night dive                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2 Perform a <i>night dive</i> | 2.1 Demonstrate <i>entries to and exits from the water</i> that maintain orientation and buddy contact<br>2.2 Complete ascents and descents with reference without losing orientation or buddy contact<br>2.3 Use hand signals and dive lights to achieve communication with buddy and team members<br>2.4 Maintain buddy contact throughout the night dive<br>2.5 Navigate the route by compass and/or natural phenomena<br>2.6 Ensure personal dive lights illuminate dive site<br>2.7 Demonstrate light failure drill to industry technical and safety criteria<br>2.8 Demonstrate night dive practice to industry technical and safety criteria<br>2.9 Identify nocturnal aquatic life to <i>industry criteria</i> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

| SROSCB004A | COMPLETE DEEP DIVES TO BETWEEN 18 AND 40 METRES |
|            |                                                 |
| SCB        | Scuba                                           |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to prepare for and perform a deep dive to between 18 and 40 metres, taking into account hazards and emergency procedures.

| ELEMENT                                   | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Prepare for deep dives</b>           | 1.1 Prepare deep diving plans that establish no - decompression limits<br>1.2 Ensure <b>deep dive plans</b> meet <b>industry technical and safety criteria</b><br>1.3 Identify and demonstrate symptoms and first aid treatment for <b>potential deep diving first aid problems</b> to <b>industry technical and safety criteria</b><br>1.4 Identify exposure protection and select equipment to <b>industry technical and safety criteria</b> |
| <b>2 Perform deep dives</b>               | 2.1 Demonstrate controlled descents and ascents using reference as a tactile and/or visual guide<br>2.2 Demonstrate an ascent rate that does not exceed 18 metres/minute<br>2.3 Perform a 3 minute safety stop at 5 metres on ascents<br>2.4 Demonstrate that logged deep dive practice adheres to dive plan<br>2.5 Perform deep dive practice to <b>industry technical and safety criteria</b>                                                |
| <b>3 Perform tasks whilst deep diving</b> | 3.1 Perform exercises at depth to demonstrate impairment effects of nitrogen narcosis<br>3.2 Demonstrate at depth to show pressure changes and colour absorption                                                                                                                                                                                                                                                                               |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                               | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to plan underwater searches, and recover an object that weighs between 6 and 45 kg using lifting equipment.

| ELEMENT                                                           | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Perform underwater searches</b>                              | 1.1 Plan <i>underwater searches</i> to meet <i>industry criteria</i><br>1.2 Perform <i>underwater searches</i> to <i>industry criteria</i><br>1.3 Considering <i>factors affecting selection of search techniques</i> , perform a selected search technique that meets industry <i>technical and safety criteria</i><br>1.4 Demonstrate underwater search practice that meets industry <i>technical and safety criteria</i><br>1.5 Demonstrate that search locates object                                                                                                                               |
| <b>2 Recover an object that weighs between 6 and 45 kilograms</b> | 2.1 Plan recovery exercise to <i>industry criteria</i><br>2.2 Identify and explain suitable recovery methods in terms of size, depth and weight of object to be recovered<br>2.3 Identify <i>risks and hazards</i> associated with underwater lifting techniques<br>2.4 Demonstrate displacement and lift calculations that meet <i>industry criteria</i><br>2.5 Match <i>knots</i> tied underwater to the purpose for which they were tied<br>2.6 Bring an object weighing between 6 and 45 kg to the surface using lifting equipment in accordance with industry <i>technical and safety criteria</i> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                                        | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| SROSCB006A | NAVIGATE PRESCRIBED ROUTES UNDERWATER |
| SCB        | Scuba                                 |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to make distance and time calculations and navigate underwater along prescribed routes.

| ELEMENT                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Measure prescribed routes</b>      | 1.1 Demonstrate measuring distance by kick cycles<br>1.2 Demonstrate measuring distance by time<br>1.3 Demonstrate measuring distance by arm spans<br>1.4 Demonstrate measuring distance with diver line reel or rope                                                                                                                                                                         |
| <b>2 Determine direction underwater</b> | 2.1 Demonstrate the determination of <b>direction</b> using a compass<br>2.2 Demonstrate the determination of <b>direction</b> using natural phenomena                                                                                                                                                                                                                                        |
| <b>3 Navigate underwater</b>            | 3.1 Navigate a straight line and its reciprocal by <b>standard measuring techniques</b> and <b>direction indicators</b><br>3.2 Navigate a prescribed route with changes of directions by <b>standard measuring techniques</b> and <b>direction indicators</b><br>3.3 Considering possible <b>hazards</b> , demonstrate dive technical and safety practices that meet <b>industry criteria</b> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                      | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge of diving physiology and the ability to apply skills to perform diving rescues. Additional competencies, such as the administration of supplemental oxygen, are detailed in other units of competency.

| ELEMENT                                             | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Demonstrate knowledge of diving physiology</b> | 1.1 Identify the <b>effects on divers</b> of partial and/or changing pressure<br>1.2 Outline the mechanisms for treating <b>dive related problems</b> to <b>industry criteria</b>                                                                                                                                                                                               |
| <b>2 Demonstrate diver rescue skills</b>            | 2.1 Demonstrate, where required, selected <b>underwater search technique</b> and practice that meets <b>oxygen use standards</b> and <b>industry technical and safety criteria</b><br>2.2 Administer first aid for <b>simulated dive incidents</b><br>2.3 Demonstrate <b>rescues</b> of self and buddy in a simulated situation                                                 |
| <b>3 Use supplemental oxygen</b>                    | 3.1 Ensure that prepared <b>oxygen equipment</b> meets <b>oxygen use standards and industry technical and safety criteria</b><br>3.2 Comply with the standards specified in the Dangerous Goods Regulations (Class 2 - Gases) whilst using oxygen<br>3.3 Demonstrate that the administration of supplemental oxygen complies with <b>industry technical and safety criteria</b> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                               | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to conduct visual inspections of scuba cylinders and fill scuba diving cylinders.

| ELEMENT                                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Inspect the exterior of a scuba cylinder</b>                       | 1.1 Ensure exterior inspection complies with <b>Australian Standards</b><br>1.2 Ensure <b>exterior inspection</b> meets industry criteria<br>1.3 Document cylinder owner and inspection station details according to industry criteria                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>2 Inspect the interior of a scuba cylinder</b>                       | 2.1 Ensure <b>interior inspection</b> equipment and procedures meet industry criteria<br>2.2 Establish parameters for failure according to <b>Australian Standards</b><br>2.3 Demonstrate correct cleaning and drying procedures<br>2.4 Demonstrate correct re-valving<br>2.5 Document customer and station details                                                                                                                                                                                                                                                                                                             |
| <b>3 Use a high pressure compressor to fill scuba cylinders</b>         | 3.1 Operate the compressor according to industry criteria<br>3.2 Identify the <b>operation and maintenance</b> procedures according to manufacturers specifications<br>3.3 Demonstrate procedures for identifying complying and non-complying cylinders prior to filling<br>3.4 Demonstrate compressor maintenance according to manufacturers specifications<br>3.5 Test air purity regularly, ensuring air purity meets or exceeds industry standards                                                                                                                                                                          |
| <b>4 Fill a high pressure cylinder designed for use in scuba diving</b> | 4.1 Identify storage and handling procedures for cylinders that align to industry criteria<br>4.2 Demonstrate inspection of the cylinder for compliance to industry criteria<br>4.3 Demonstrate inspection of the cylinder for compliance to industry criteria<br>4.4 Restrain the cylinder to prevent toppling or spinning<br>4.5 Operate the valves, to fill a scuba cylinder, in accordance with manufacturers specifications and <b>Australian Standards</b><br>4.6 Perform leak testing according to <b>Australian Standards</b><br>4.7 Complete documentation in compliance with <b>Australian Standards</b> requirements |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                  | CATEGORIES                                                                                                                                                                                                                                                                                                                                             |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to prepare to fill cylinders used in scuba diving with EANx, and fill high pressure cylinders designed for use in scuba diving with EANx to a maximum of 40% oxygen.

| ELEMENT                                                                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Prepare to fill cylinders used in scuba with EANx</b>               | 1.1 Demonstrate inspection of the cylinder for compliance to industry EANx guidelines<br>1.2 Conduct filling operation and maintain filling equipment to meet manufacturers specifications and approved Code of Practice for EANx operations<br>1.3 Ensure air purity meets or exceeds industry standards                                                                                                                                                                        |
| <b>2 Fill high pressure cylinder designed for use in scuba with EANx</b> | 2.1 Identify <b>key elements</b> of filling cylinders with EANx<br>2.2 Identify fill pressure and set control devices accordingly<br>2.3 Restrain the cylinder being filled to prevent topping or spinning<br>2.4 Operate valves to fill a scuba cylinder in accordance with manufacturers specifications and <b>Australian Standards</b><br>2.5 Perform leak testing according to <b>Australian Standards</b><br>2.6 <b>Document EANx</b> in compliance with industry standards |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT             | CATEGORIES                                                                                                                                                                                                                             |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| SROSCB010A | GUIDE A SCUBA DIVE |
|            |                    |
| SCB        | Scuba              |

**DESCRIPTION: This unit has been developed for the Outdoor Recreation Industry Training Package.**

**This unit covers the knowledge and skills required to guide clients in a scuba diving activity.**

| ELEMENT                                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan a scuba diving activity for clients</b>              | 1.1 Establish the skill level, experience and medical fitness of each member of the group<br>1.2 Establish attainable group objectives<br>1.3 Select suitable site for scuba diving to suit abilities and objectives of the group<br>1.4 Obtain and interpret weather information for local conditions of the activity<br>1.5 Obtain permits or permission for access where necessary<br>1.6 Ensure correct guide/client ratios are met, according to operational procedures<br>1.7 Prepare a checklist of client's personal equipment requirements for use prior to the day<br>1.8 Assess, minimise and eliminate <b>hazards</b> , where possible whilst forming a risk management plan<br>1.9 Identify the most appropriate type of supervision, i.e., in-water or land-based, in accordance with relevant diving Occupational Health and Safety (OH&S) legislation, the requirements stipulated by recognised international diving agencies, and the particular dive site and prevailing environmental conditions<br>1.10 Establish the need for a dive lookout and/or above-water dive supervisor in accordance with relevant diving Occupational Health and Safety (OH&S) legislation and/or the requirements stipulated by recognised international diving agencies |
| <b>2 Ensure appropriate equipment is selected for the dive</b> | 2.1 Supervise selection of <b>equipment</b> , ensuring it is safe and suitable in light of the <b>contextual issues</b><br>2.2 Ensure <b>equipment</b> is fitted and adjusted correctly<br>2.3 Check <b>safety and rescue equipment</b> to ensure suitability to the group and the dive                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>3 Brief clients</b>                                         | 3.1 Communicate the aim of the guided activity to the clients<br>3.2 Communicate <b>logistical details</b> to clients<br>3.3 Brief divers on safe diving practices relevant to the dive site, dive conditions and planned dive activity<br>3.4 Provide clear and concise direction and advice to divers including non-English speaking divers before and during the dive<br>3.5 Establish verbal and non-verbal <b>communication system</b> for use during scuba dive and ensure that all clients understand system(s)<br>3.6 Encourage feedback and questioning from group members                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>4 Maintain physical welfare of group</b>                    | 4.1 Assess capabilities of group members on the day<br>4.2 Monitor individual client's performance and needs<br>4.3 Monitor environmental conditions<br>4.4 Monitor weather conditions immediately prior to the dive and adjust the plan, if necessary<br>4.5 Evaluate implications of weather signs on scuba diving plans<br>4.6 Implement appropriate modifications to activity in regard to all variable factors that are monitored                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|-------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                       | 4.7 Apply risk management plan                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>5 Lead a scuba diving activity safely</b>          | 5.1 Apply <b><i>in-water supervision</i></b> techniques to maintain safety and to achieve the planned objectives of the dive<br>5.2 Identify interesting underwater features and aquatic life for the enjoyment of the group<br>5.3 Provide positive encouragement and empathy<br>5.4 Manage the actions of the group to maintain the safest situation<br>5.5 Recognise and resolve conflict situations<br>5.6 Identify a variety of potential <b><i>hazards</i></b> and respond accordingly to any emergency or non-routine situation                                             |
| <b>6 Conduct activity in a professional manner</b>    | 6.1 Avoid contentious issues in general conversation<br>6.2 Use positive words throughout the activity to refer to clients and avoid using negative or disparaging words<br>6.3 Avoid negative statements about own organisation, commercial competitors, public bodies and other individuals<br>6.4 Debrief the dive with the clients to discuss habitat, environment, diver actions, positive feedback, and suggestions for performance improvement                                                                                                                              |
| <b>7 Complete pre- and post-dive responsibilities</b> | 7.1 Ensure all divers are accounted for immediately after the dive<br>7.2 Ensure equipment is correctly accounted for, inspected, washed, and stored (or retired) in accordance with accepted industry practice and/or enterprise requirements<br>7.3 Seek client feedback regarding all aspects of the dive activity for evaluation and improvement purposes<br>7.4 Ensure dive safety logs are completed before and after the dive in accordance with relevant diving Occupational Health and Safety (OH&S) legislation and/or the requirements of international diving agencies |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT             | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| SROSCB011A | COMPLETE HYDROSTATIC TESTS OF SCUBA CYLINDERS |
| SCB        | Scuba                                         |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to complete hydrostatic tests of cylinders used in conjunction with scuba diving.

| ELEMENT                                                                                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| <b>1 Use and maintain hydrostatic testing station, plant and equipment</b>                           | 1.1 Identify <b>elements</b> of hydrostatic testing station, plant, and equipment<br>1.2 Ensure selected test station equipment complies with Dangerous Goods Regulations<br>1.3 Prepare a Station Procedures Manual that complies with <b>Australian Standards</b> requirements<br>1.4 Maintain and calibrate equipment ensuring compliance with Dangerous Goods Regulations                                                                                                                       |
| <b>2 Conduct hydrostatic cylinder test to industry criteria</b>                                      | 2.1 Conduct interior and exterior inspection in compliance with <b>Australian Standards</b><br>2.2 Complete testing procedures in accordance with <b>Australian Standards</b><br>2.3 Ensure the cylinder is drained, dried, re-valved, and stamped in accordance with <b>Australian Standards</b><br>2.4 Complete test report and attach a customer copy to cylinder as proof of results of total test<br>2.5 Complete testing documentation according to industry criteria, and attach to cylinder |
| <b>3 Meet assessment criteria during audit of station and signatories to regulatory requirements</b> | 3.1 Conduct a practical assessment of signatory ensuring compliance with <b>Australian Standards</b><br>3.2 Conduct a theoretical assessment of test station operators ensuring compliance with <b>Australian Standards</b><br>3.3 Complete a station audit by way of a check sheet that complies with <b>Australian Standards</b> criteria                                                                                                                                                         |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT             | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| SROSCB012A | PERFORM ADVANCED EQUIPMENT MAINTENANCE |
|            |                                        |
| SCB        | Scuba                                  |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to perform an advanced level of operation and maintenance of scuba equipment. It does not cover advanced equipment repair.

| ELEMENT                                                | PERFORMANCE CRITERIA                                                                                                                                                                        |
|--------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Demonstrate knowledge of scuba equipment</b>      | 1.1 Identify items of <i>scuba equipment</i> (including <i>instrumentation, diving accessories</i> , and <i>specialty diving equipment</i> ) and explain purpose and operation of each item |
| <b>2 Operate and maintain items of scuba equipment</b> | 2.1 Demonstrate operation, maintenance and <i>minor repair</i> procedures to items of <i>scuba equipment</i>                                                                                |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                   | CATEGORIES                                                                                                                                                                                                                                                                                                                                   |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to instruct learners to achieve competencies in order to participate independently, or with minimal supervision, in an open water scuba diving activity. This unit does not include the instruction of specialised scuba diving skills.

| ELEMENT                                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan an instructional session for teaching scuba diving skills</b>     | 1.1 Identify client needs and assess current competencies of group/individuals in order to determine the aims and objectives of the instructional session<br>1.2 Select a suitable site for the instructional session, based on an assessment of client needs, <b>hazards</b> , abilities and session aims<br>1.3 Ensure personal competencies with respect to topics and skills within the instructional session are at a sufficient level to enable correct demonstration of skills, accurate provision of information and to engender the confidence of the client(s)<br>1.4 Plan appropriate instructional activities which will facilitate and enhance the learning process<br>1.5 Determine a suitable <b>sequence</b> of instruction<br>1.6 Determine resources required to conduct instructional activities, games and drills<br>1.7 Provide relevant pre-activity information to clients<br>1.8 Prepare contingency plans for instructional session to cope with inclement weather and other factors which may affect the ability to conduct the session<br>1.9 Conduct a risk assessment of the instructional activities and location and implement a risk management plan in accordance with the organisation's guidelines and operating procedures |
| <b>2 Select appropriate resources required to teach scuba diving skills</b> | 2.1 Select and access <b>equipment</b> and <b>other resources</b> suitable for the instructional objectives<br>2.2 Select, fit and adjust <b>equipment</b> (where appropriate) to suit the needs of individual clients<br>2.3 Check all <b>equipment</b> to ensure compliance with occupational health and safety legislation, manufacturer's recommendations and/or operating procedures, and to ensure that it is in good working order<br>2.4 Check contents of first aid and repair kits to ensure their suitability to the location and activity                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>3 Introduce an instructional scuba diving session</b>                    | 3.1 Communicate the aim of the instructional session to the clients<br>3.2 Encourage clients to seek clarification, information and feedback<br>3.3 Brief the clients on the safety practices, procedures and behaviour appropriate to the instructional session<br>3.4 Clarify the use and selection of specific emergency response <b>equipment</b> that should be carried, relevant to the level of competency<br>3.5 Explain communication systems and relevant calls or signals used whilst participating in scuba diving and determine client level of understanding in their use<br>3.6 Define activity boundaries/training area and/or clearly outline to the clients                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|---------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>4 Conduct an instructional scuba diving session</b>                    | 4.1 Monitor individual client's performance in instructional activities<br>4.2 Provide positive encouragement and/or feedback to each client at a suitable time to maintain a positive learning environment<br>4.3 Ensure instructional activity allows for repetition of skills<br>4.4 Evaluate instructional activities for effectiveness and implement modifications when required<br>4.5 Assess risks associated with the conduct of instructional activities constantly and remove, minimise or avoid hazards in accordance with risk management plan and instructional objectives.<br>4.6 Monitor <b>equipment</b> usage, behaviour and location of clients in order to ensure safety |
| <b>5 Apply appropriate teaching techniques for a scuba diving session</b> | 5.1 Communicate instructions and information clearly and concisely<br>5.2 Perform demonstrations for clients (where required) with a high level of technical correctness and accurate description<br>5.3 Break-down complex skills and techniques into component parts and describe with key teaching points<br>5.4 Identify faults in technique and provide a variety of solutions, where relevant, to correct faults<br>5.5 Provide adequate time for practice, following fault correction and feedback<br>5.6 Explain activities, drills or techniques which may improve skills                                                                                                          |
| <b>6 Teach required knowledge that applies to a scuba diving activity</b> | 6.1 Teach required knowledge, ethics, codes of behaviour, points of interest or physical and physiological principles relevant to scuba diving and achievement of competency, in a manner which promotes interest and client understanding<br>6.2 Assess client's level of understanding via questioning techniques and/or formal assessment                                                                                                                                                                                                                                                                                                                                                |
| <b>7 Teach scuba diving skills</b>                                        | 7.1 Explain and demonstrate key points of technique or skill<br>7.2 Outline the <b>sequence</b> or combination of skill to achieve effective or efficient results<br>7.3 Identify different applications of skill or technique, and where it is applicable/not applicable<br>7.4 Provide opportunities for clients to practice skills or techniques<br>7.5 Assess clients to determine poor or incorrect technique and provide feedback<br>7.6 Provide opportunities for additional practice, where required                                                                                                                                                                                |
| <b>8 Communicate further scuba diving knowledge</b>                       | 8.1 Inform clients of locations, suitable to their skill level, for participating in scuba diving<br>8.2 Provide information relevant to the competencies being taught, on the range of <b>equipment</b> and clothing available or required, and factors affecting choice<br>8.3 Inform clients of opportunities to further develop their personal skills and knowledge                                                                                                                                                                                                                                                                                                                     |
| <b>9 Conclude and evaluate the scuba diving instructional session</b>     | 9.1 Ensure <b>equipment</b> is correctly washed, stored and accounted for in accordance with accepted industry practice<br>9.2 Determine the level of learning achieved directly through assessment or indirectly from Assessor<br>9.3 Apply feedback from Assessor or assessment to evaluate the effectiveness of the instructional activities, the suitability of the instructional method, the feedback provided to clients and the initial assessment of client's abilities<br>9.4 Determine modifications to activities and delivery method(s), based on evaluations<br>9.5 Evaluate the suitability of <b>other related factors</b>                                                   |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT              | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|            |                              |
| SCB        | Scuba                        |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to plan and make no stop dives and extended no stop dives using air and enriched air (up to 60 per cent oxygen) to a maximum depth of 40m, in conditions comparable to, or better than those in which training/experience has occurred.

| ELEMENT                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| <b>1 Prepare for technical dives</b> | 1.1 Prepare <b>technical diving plans</b> that establish no stop limits<br>1.2 Account for <b>environmental variables</b> when developing dive plans<br>1.3 Ensure <b>technical diving plans</b> meet <b>industry standards</b><br>1.4 Develop an appropriate <b>gas plan</b><br>1.5 Identify, and develop strategies to avoid, <b>hazards</b><br>1.6 Develop accident management strategies to address potential <b>emergencies</b> , demonstrating consideration of local procedures<br>1.7 Assemble and inspect the basic technical diving rig |
| <b>2 Perform technical dives</b>     | 2.1 Demonstrate correct technical diving <b>techniques and procedures</b><br>2.2 Demonstrate correct hand signals<br>2.3 Demonstrate efficient and effective responses to <b>emergencies</b>                                                                                                                                                                                                                                                                                                                                                      |
| <b>3 Complete technical dive</b>     | 3.1 Review performance during dive<br>3.2 Disassemble and stow <b>equipment</b> correctly<br>3.3 Complete dive log                                                                                                                                                                                                                                                                                                                                                                                                                                |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to instruct learners to achieve competencies in order to participate independently, or with minimal supervision, in a specialised scuba diving activity.

| ELEMENT                                                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan an instructional session for teaching specialised scuba diving skills</b>     | 1.1 Identify client needs and assess current competencies of group/individuals in order to determine the aims and objectives of the instructional session<br>1.2 Select a suitable site for the instructional session, based on an assessment of client needs, <b>hazards</b> , abilities and session aims<br>1.3 Ensure personal competencies with respect to topics and skills within the instructional session are at a sufficient level to enable correct demonstration of skills, accurate provision of information and to engender the confidence of the client(s)<br>1.4 Plan appropriate instructional activities which will facilitate and enhance the learning process<br>1.5 Determine a suitable <b>sequence</b> of instruction<br>1.6 Determine resources required to conduct instructional activities, games and drills<br>1.7 Provide relevant pre-activity information to clients<br>1.8 Prepare contingency plans for instructional session to cope with inclement weather and other factors which may affect the ability to conduct the session<br>1.9 Conduct a risk assessment of the instructional activities and location and implement a risk management plan in accordance with the organisation's guidelines and operating procedures |
| <b>2 Select appropriate resources required to teach specialised scuba diving skills</b> | 2.1 Select and access <b>equipment</b> and <b>other resources</b> suitable for the instructional objectives<br>2.2 Select, fit and adjust <b>equipment</b> (where appropriate) to suit the needs of individual clients<br>2.3 Check all <b>equipment</b> to ensure compliance with occupational health and safety legislation, manufacturer's recommendations and/or operating procedures, and to ensure that it is in good working order<br>2.4 Check contents of first aid and repair kits to ensure their suitability to the location and activity                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|---------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>3 Introduce an instructional specialised scuba diving session</b>                  | 3.1 Communicate the aim of the instructional session to the clients<br>3.2 Encourage clients to seek clarification, information and feedback<br>3.3 Brief the clients on the safety practices, procedures and behaviour appropriate to the instructional session<br>3.4 Clarify the use and selection of specific emergency response <b>equipment</b> that should be carried, relevant to the level of competency<br>3.5 Explain communication systems and relevant calls or signals used whilst participating in specialised scuba diving, and determine client level of understanding in their use<br>3.6 Define activity boundaries/training area and/or clearly outline to the clients  |
| <b>4 Conduct an instructional specialised scuba diving session</b>                    | 4.1 Monitor individual client's performance in instructional activities<br>4.2 Provide positive encouragement and/or feedback to each client at a suitable time to maintain a positive learning environment<br>4.3 Ensure instructional activity allows for repetition of skills<br>4.4 Evaluate instructional activities for effectiveness and implement modifications when required<br>4.5 Assess risks associated with the conduct of instructional activities constantly and remove, minimise or avoid hazards in accordance with risk management plan and instructional objectives.<br>4.6 Monitor <b>equipment</b> usage, behaviour and location of clients in order to ensure safety |
| <b>5 Apply appropriate teaching techniques for a specialised scuba diving session</b> | 5.1 Communicate instructions and information clearly and concisely<br>5.2 Perform demonstrations for clients (where required) with a high level of technical correctness and accurate description<br>5.3 Break-down complex skills and techniques into component parts and describe with key teaching points<br>5.4 Identify faults in technique and provide a variety of solutions, where relevant, to correct faults<br>5.5 Provide adequate time for practice, following fault correction and feedback<br>5.6 Explain activities, drills or techniques which may improve skills                                                                                                          |
| <b>6 Teach required knowledge that applies to a specialised scuba diving activity</b> | 6.1 Teach required knowledge, ethics, codes of behaviour, points of interest or physical and physiological principles relevant to specialised scuba diving and achievement of competency, in a manner which promotes interest and client understanding<br>6.2 Assess client's level of understanding via questioning techniques and/or formal assessment                                                                                                                                                                                                                                                                                                                                    |
| <b>7 Teach specialised scuba diving skills</b>                                        | 7.1 Explain and demonstrate key points of technique or skill<br>7.2 Outline the <b>sequence</b> or combination of skill to achieve effective or efficient results<br>7.3 Identify different applications of skill or technique, and where it is applicable/not applicable<br>7.4 Provide opportunities for clients to practice skills or techniques<br>7.5 Assess clients to determine poor or incorrect technique and provide feedback<br>7.6 Provide opportunities for additional practice, where required                                                                                                                                                                                |
| <b>8</b>                                                                              | 8.1 Inform clients of locations, suitable to their skill level, for                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Communicate further specialised scuba diving knowledge</b>                     | <p>participating in specialised scuba diving</p> <p>8.2 Provide information relevant to the competencies being taught, on the range of <b>equipment</b> and clothing available or required, and factors affecting choice</p> <p>8.3 Inform clients of opportunities to further develop their personal skills and knowledge</p>                                                                                                                                                                                                                                                                                                                                   |
| <b>9 Conclude and evaluate the specialised scuba diving instructional session</b> | <p>9.1 Ensure <b>equipment</b> is correctly washed, stored and accounted for in accordance with accepted industry practice</p> <p>9.2 Determine the level of learning achieved directly through assessment or indirectly from Assessor</p> <p>9.3 Apply feedback from Assessor or assessment to evaluate the effectiveness of the instructional activities, the suitability of the instructional method, the feedback provided to clients and the initial assessment of client's abilities</p> <p>9.4 Determine modifications to activities and delivery method(s), based on evaluations</p> <p>9.5 Evaluate the suitability of <b>other related factors</b></p> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT       | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| SROSCB016A | APPLY TECHNICAL DEEP DIVING SKILLS |
| SCB        | Scuba                              |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to plan and make extended no stop dives, decompression stop dives and accelerated decompression dives using air, enriched air and oxygen to a maximum depth of 50m, in conditions comparable to, or better than those in which training/experience has occurred.

| ELEMENT                                   | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Prepare for technical deep dives</b> | 1.1 Prepare <i>technical deep diving plans</i> that establish no stop limits<br>1.2 Account for <i>environmental variables</i> when developing dive plans<br>1.3 Ensure <i>technical deep diving plans</i> meet <i>industry standards</i><br>1.4 Develop an appropriate <i>gas plan</i><br>1.5 Identify, and develop strategies to avoid, <i>hazards</i><br>1.6 Develop accident management strategies to address potential <i>emergencies</i> , demonstrating consideration of local procedures<br>1.7 Assemble and inspect the basic technical diving rig |
| <b>2 Perform technical deep dives</b>     | 2.1 Demonstrate correct technical deep diving <i>techniques and procedures</i><br>2.2 Demonstrate correct hand signals<br>2.3 Demonstrate efficient and effective responses to <i>emergencies</i>                                                                                                                                                                                                                                                                                                                                                           |
| <b>3 Complete technical deep dives</b>    | 3.1 Review performance during dive<br>3.2 Disassemble and stow <i>equipment</i> correctly<br>3.3 Complete dive log                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to plan a dive with a video recorder and complete a dive taking a video recording underwater.

| ELEMENT                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                                    | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to plan a dive to take photographs, and complete a dive taking still photographs underwater.

| ELEMENT                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan photography dive</b>       | 1.1 Select <i>underwater photography equipment</i> to industry technical criteria<br>1.2 Identify potential <i>underwater photography hazards</i> to <i>industry criteria</i><br>1.3 Select underwater photography dive site taking into account subject, access, environmental conditions and hazards<br>1.4 Identify and apply <i>principles of photograph composition</i> to <i>industry criteria</i><br>1.5 Demonstrate <i>pre-dive equipment care</i> to <i>industry criteria</i><br>1.6 Demonstrate <i>post-dive equipment care</i> to <i>industry criteria</i> |
| <b>2 Take photographs underwater</b> | 2.1 Demonstrate <i>behaviour</i> that limits impact on the environment<br>2.2 Demonstrate <i>behaviour</i> that limits the <i>negative impact of environmental conditions</i> on the photographs<br>2.3 Take photographs using strobe lighting minimise backscatter<br>2.4 Completed photographs are exposed and focused to the photographer's and assessor's satisfaction                                                                                                                                                                                            |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                                    | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to prepare for and complete a dive wearing a dry suit.

| ELEMENT                             | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                               | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| SCB        | Scuba                         |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to read a dive computer, plan a computer dive and use a computer when diving.

| ELEMENT                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Read a dive computer</b>                 | 1.1 Identify <b>key features of dive computers</b><br>1.2 Log computer data after dive                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>2 Plan computer dives</b>                  | 2.1 Identify <b>hazards of computer-aided diving</b> and outline and demonstrate remedial action to meet <b>industry technical and safety criteria</b><br>2.2 Outline and apply manufacturer's recommendations for maintenance<br>2.3 Demonstrate that computer aided dive plan meets <b>industry technical and safety criteria</b><br>2.4 Plan a computer assisted multi-level dive to industry technical and safety criteria<br>2.5 Plan a series of computer assisted multi-level dives |
| <b>3 Complete dives using a dive computer</b> | 3.1 Demonstrate that computer aided dive adheres to dive plan<br>3.2 Demonstrate that computer dive practice meets <b>industry technical and safety criteria</b><br>3.3 Perform a computer assisted multi-level dive using no-decompression diving and ascending at industry recommended rates<br>3.4 Perform a series of computer assisted multi-level dives using no-decompression diving and ascending at industry recommended rates                                                    |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                               | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to plan and perform wreck dives.

| ELEMENT                           | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Prepare for a wreck dive</b> | 1.1 Prepare a profile of the wreck which explores historical and ecological significance<br>1.2 Determine air supply and penetration limits for the wreck dive to <b>industry technical and safety criteria</b><br>1.3 Identify and implement legislation and guidelines relating to wreck diving<br>1.4 Prepare a dive plan which establishes descent and/or ascent reference<br>1.5 Select exposure protection and equipment to meet <b>industry technical and safety criteria</b><br>1.6 Identify <b>wreck diving hazards</b> to <b>industry technical and safety criteria</b> |
| <b>2 Perform wreck dives</b>      | 2.1 Locate ascent reference without surfacing<br>2.2 Complete wreck dives within pre-set air supply and penetration limits<br>2.3 Demonstrate that <b>wreck dive practice</b> meets <b>industry technical and safety criteria</b>                                                                                                                                                                                                                                                                                                                                                 |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                               | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge of boats and skills to enable dives off boats.

| ELEMENT                                      | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Demonstrate knowledge of dive boats</b> | 1.1 Use <i>boat terminology</i> to identify areas of a dive boat<br>1.2 Locate <i>emergency equipment</i> carried on board a boat and demonstrate its use to Maritime Act requirements                                                                                                                                                                                                                                |
| <b>2 Complete a dive off a boat</b>          | 2.1 Use a dive flag to <i>industry technical and safety criteria</i><br>2.2 Match water entry to boat type, diver ability and sea condition<br>2.3 Demonstrate that <i>dive practice</i> meets <i>industry technical and safety criteria</i><br>2.4 Match exit techniques to boat type, sea condition and diver ability<br>2.5 Outline <i>entry and exit hazards</i> to <i>industry technical and safety criteria</i> |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT               | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to plan and perform drift dives and to navigate and communicate whilst drift diving.

| ELEMENT                                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan drift dives</b>                | 1.1 Identify <b>currents</b> and their characteristics in the plan<br>1.2 Make and relate <b>ascent decisions</b> to drift dive party<br>1.3 Negotiate <b>drift dive plan</b> with buddy and other team members<br>1.4 Select <b>drift dive equipment</b> that meets <b>industry technical and safety criteria</b><br>1.5 Demonstrate that dive team recovery and/or exit planning meets <b>industry technical and safety criteria</b>                                  |
| <b>2 Perform drift dives</b>             | 2.1 Demonstrate positive, neutral and negative buoyancy during drift dive practice<br>2.2 Demonstrate that descents are simultaneous with the dive team<br>2.3 Perform <b>drift diving ascents</b> to meet the negotiated dive plan<br>2.4 Complete drift dives with and without a surface reference float and/or boat<br>2.5 Perform drift dive practice to <b>industry technical and safety criteria</b> with respect to access, hazards and environmental conditions |
| <b>3 Communicate whilst drift diving</b> | 3.1 Use surface signalling equipment to achieve and maintain communication<br>3.2 Maintain relative position with dive team while drift diving<br>3.3 Give, receive and respond to hand signals as agreed in the dive plan                                                                                                                                                                                                                                              |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                               | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to prepare for and complete dives at an altitude greater than 300 metres.

| ELEMENT                                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Prepare for altitude dives</b>                        | 1.1 Identify <b><i>factors affected by altitude</i></b> and compare the differences between diving at altitude and at other sites<br>1.2 Calculate no-decompression limits for single and repetitive altitude dives to <b><i>industry technical and safety criteria</i></b><br>1.3 Demonstrate <b><i>first aid</i></b> for potential altitude related diving incidents<br>1.4 Outline exposure protection and select equipment to <b><i>industry technical and safety criteria</i></b> |
| <b>2 Perform dives at altitude greater than 300 metres</b> | 2.1 Adjust depth gauge readings for altitude-induced errors<br>2.2 Demonstrate altitude dive practice that meets <b><i>industry technical and safety criteria</i></b>                                                                                                                                                                                                                                                                                                                  |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                               | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to plan an EANx dive, prepare to dive using EANx, dive using EANx, and disassemble and maintain equipment used for EANx dives.

| ELEMENT                                                         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan an EANx dive</b>                                      | 1.1 Identify the <b>requirements</b> of EANx use and associated <b>hazards</b><br>1.2 Prepare the dive plan to meet industry technical and safety criteria                                                                                                                                                                                                                                        |
| <b>2 Prepare to dive using EANx</b>                             | 2.1 Select <b>blend and equipment</b> that meets industry technical and safety criteria<br>2.2 Conduct dive preparation ensuring that dive equipment is <b>maintained</b> to industry technical and safety criteria<br>2.3 Select site within limitations of client and meets industry technical and safety criteria                                                                              |
| <b>3 Dive using EANx</b>                                        | 3.1 Adhere to dive plan<br>3.2 Monitor depth and time to meet EANx criteria and industry technical and safety criteria<br>3.3 Take remedial action to avoid hazards<br>3.4 Conduct EANx dive practice within recreational diving maximum limits and to meet industry technical and safety criteria                                                                                                |
| <b>4 Disassemble and maintain equipment used for EANx dives</b> | 4.1 Maintain positive pressure in the cylinder to avoid entry of atmospheric air<br>4.2 Disassemble regulators and gauges to meet industry technical and safety criteria<br>4.3 Use cylinders in accordance with industry technical and safety criteria<br>4.4 Ensure servicing and maintenance include parts compatible with elevated oxygen mix and meet industry technical and safety criteria |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT            | CATEGORIES                                                                                                                                                                                                                                                      |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Critical aspects of evidence to be considered</b> | <ul style="list-style-type: none"> <li>Assessment must confirm sufficient knowledge of hazards and the factors affecting diving with EANx</li> <li>Assessment of performance should be over a minimum of three (3) different EANx dives, covering the prescribed number of categories from the Range Statements that are applicable in the learners environment</li> <li>In particular, assessment must confirm the ability to               <ul style="list-style-type: none"> <li>apply knowledge to plan safe EANx dives</li> <li>successfully complete EANx dives to meet industry technical and safety criteria</li> </ul> </li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                      |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers knowledge and skills involved in developing an awareness of, and sensitivity to, a variety of aquatic environments and habitats.

| ELEMENT                                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                  |
|--------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Prepare for a dive in a sensitive environment</b> | 1.1 Check equipment prior to dive (including dive lights)<br>1.2 Select appropriate amount of weight to attain neutral buoyancy<br>1.3 <b>Research</b> specific diving considerations to plan a dive for minimal environmental impact |
| <b>2 Demonstrate minimal impact techniques</b>         | 2.1 Demonstrate <b>techniques</b> to minimise impact on a sensitive environment                                                                                                                                                       |
| <b>3 Identify aquatic elements</b>                     | 3.1 Identify and describe the ecology of a major aquatic <b>habitat</b><br>3.2 Identify and describe the <b>characteristics</b> of the major groups of <b>aquatic life</b> in a local aquatic habitat                                 |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT        | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills to prepare to dive using hookah, dive using hookah, complete post dive procedures, and act as dive tender during hookah operation. Dives are to be conducted in a recreational context and are not to exceed 18 metres in depth. This unit is not intended to be used as training for commercial seafood harvesting.

| ELEMENT                                                                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan for a hookah dive</b>                                                            | 1.1 Ensure sufficient food and water is available to maintain physiological well being pre- and post-dive<br>1.2 Select personal clothing for pre- and post-dive and identify properties that make it appropriate<br>1.3 Identify an appropriate activity site/location after consideration of <b>statutory and organisational procedures</b> (where applicable) and <b>contextual issues</b> relating to the activity<br>1.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                                                |
| <b>2 Demonstrate knowledge and understanding of hookah diving equipment and procedures</b> | 2.1 Identify and explain the <b>benefits</b> of hookah diving over SCUBA diving<br>2.2 List the items of <b>personal equipment</b> required for hookah diving and identify the design/construction features that make it appropriate<br>2.3 Identify and describe the purpose of the <b>components</b> of a hookah diving system<br>2.4 Explain <b>maintenance procedures</b> for hookah diving equipment<br>2.5 Identify and explain the <b>risks</b> associated with hookah diving<br>2.6 Explain the <b>communication</b> procedure used while hookah diving                                                   |
| <b>3 Conduct a hookah dive</b>                                                             | 3.1 Demonstrate the procedures for preparing the surface supplied air unit for use<br>3.2 Assemble, prepare and don all personal equipment for a hookah dive<br>3.3 Perform a pre-dive safety check and deep water entry<br>3.4 Perform a <b>five-point descent</b><br>3.5 Swim a distance of at least 25 metres underwater on surface supplied air in a controlled manner, while properly equalising to accommodate depth changes, and ensuring no entanglement or kinking of the air hose<br>3.6 Demonstrate hookah diving <b>techniques and emergency procedures</b><br>3.7 Perform a <b>five-point ascent</b> |
| <b>4 Complete a hookah dive</b>                                                            | 4.1 Perform a deep water exit<br>4.2 Demonstrate the correct technique for rolling and storing the diver air hose                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT      | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Benefits</b>      | <p>[all categories]</p> <ul style="list-style-type: none"> <li>• a bulky air cylinder does not encumber the diver</li> <li>• the diver is not restricted, in the amount of possible dive time, by carrying a limited amount of air</li> <li>• the diver does not have to change compressed air cylinders - therefore the diver does not require spare compressed air cylinders or a high-pressure compressor</li> <li>• in the case of underwater entrapment, the diver has a potentially unlimited amount of air to sustain them until help arrives</li> <li>• this type of diving lends itself to carrying a bailout system, as there is no bulky compressed air cylinder on the divers back</li> <li>• this type of diving lends itself well to drift diving, where the diver covers a large area with the support vessel following</li> </ul> |
| <b>Communication</b> | <p>[all categories]</p> <ul style="list-style-type: none"> <li>• from assistant <ul style="list-style-type: none"> <li>○ one firm tug: I need to communicate</li> <li>○ two firm tugs: I have an equipment problem and you need to end the dive and surface</li> <li>○ three firm tugs: Emergency - ascend immediately on your bail out system</li> </ul> </li> <li>• from diver <ul style="list-style-type: none"> <li>○ one firm tug: I need to communicate</li> <li>○ two firm tugs: I have an emergency - I need you to pull me up</li> <li>○ three firm tugs: I have an emergency - I need assistance on the bottom</li> </ul> </li> </ul>                                                                                                                                                                                                   |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to snowboard on beginner terrain at a snowsport area and adhere to safe snowboarding practices. Beginner terrain is equivalent to a green run at a snow sport area.

| ELEMENT                                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan for the activity</b>                                          | 1.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>1.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>1.3 Identify an appropriate activity site/location after consideration of statutory and organisational procedures, where applicable, and contextual issues relating to the activity<br>1.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                        |
| <b>2 Select appropriate equipment to participate in activity</b>        | 2.1 Select appropriate <b>equipment and accessories</b> after consideration of issues that include season, weather and length of activity<br>2.2 Check to ensure that equipment is in good working condition<br>2.3 Fit and adjust equipment correctly and ensure suitability to activity and compliance with manufacturers' specification for use                                                                                                                                                                                                                                   |
| <b>3 Snowboard on a minimum of one beginner run at a snowsport area</b> | 3.1 Demonstrate warm up and stretching exercises<br>3.2 Demonstrate straight running with an upright centred stance while looking at terrain ahead<br>3.3 Demonstrate side-slipping with flexion-extension and pressure control in the lateral and longitudinal plane on both toe and heel side<br>3.4 Maintain a sliding traverse with centred pressure over the board<br>3.5 Link a basic turn through the fall-line, showing a blend of the fundamental <b>movements</b><br>3.6 Control speed by turning the board across the fall line using a blend of the <b>movements</b>     |
| <b>4 Adhere to safe snowboarding practices</b>                          | 4.1 Identify the importance of <b>comfort and safety</b> when selecting a snowboard, boots, binding and wrist guards for a beginner snowboarder<br>4.2 Identify the basic functions of snowboard, bindings including the retention device, boots and wrist guards, one of which must be a safety function<br>4.3 Use snowboarding skills to avoid <b>hazards</b> in a variety of snow, terrain, and weather <b>conditions</b><br>4.4 Comply with all snow sport area regulations<br>4.5 Explain the Alpine Responsibility Code and compliance of snowboarding practice with the code |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                  | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to snowboard on a minimum of one blue run at a snowsport area and adhere to safe snowboard practices. Intermediate terrain is equivalent to blue runs at a snowsport area.

| ELEMENT                                                             | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|---------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan for the activity</b>                                      | 1.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>1.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>1.3 Identify an appropriate activity site/location after consideration of statutory and organisational procedures, where applicable, and contextual issues relating to the activity<br>1.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                                                     |
| <b>2 Select appropriate equipment to participate in activity</b>    | 2.1 Select appropriate equipment after consideration of issues that include season, weather and length of activity<br>2.2 Check to ensure that equipment is in good working condition<br>2.3 Fit and adjust equipment correctly and ensure suitability to activity and compliance with manufacturers' specification for use                                                                                                                                                                                                                                                                                       |
| <b>3 Snowboard on a minimum of one blue run at a snowsport area</b> | 3.1 Demonstrate warm up and stretching exercises<br>3.2 Demonstrate snowboarding with an upright centred stance<br>3.3 Execute snowboard techniques in basic skidded turns and strong edged turns, using a blend of the <b>movements</b><br>3.4 Demonstrate strong edged <b>turns</b> through the fall line<br>3.5 Control speed with the shape of the turn, using a blend of the <b>movements</b> and the turn-shape adapted for conditions and terrain<br>3.6 Describe snowboard, boot and binding options, in relation to their <b>performance characteristics</b>                                             |
| <b>4 Adhere to safe snowboarding practices</b>                      | 4.1 Identify the importance of <b>comfort and safety</b> when selecting a snowboard, boots, bindings and wrist guards, for an intermediate snowboarder<br>4.2 Identify the functions of snowboards, bindings including the retention device, boots and wrist guards, one of which must be a safety function<br>4.3 Use snowboarding skills to avoid <b>hazards</b> in a variety of <b>snow conditions, terrain conditions</b> and <b>weather conditions</b><br>4.4 Comply with all snowsport area regulations<br>4.5 Explain the Alpine Responsibility Code and compliance of snowboarding practice with the code |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                    | CATEGORIES                                                                                                                                                                                                                                                                                                                |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| SROSKB003A | SNOWBOARD ON ADVANCED TERRAIN AT A SNOWSPORT AREA |
|            |                                                   |
| SKB        | Snowboarding                                      |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to snowboard on advanced terrain at a snowsport area and adhere to safe snowboard practice. Advanced terrain is equivalent to black runs at a snowsport area.

| ELEMENT                                                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan for the activity</b>                                   | 1.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>1.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>1.3 Identify an appropriate activity site/location after consideration of statutory and organisational procedures, where applicable, and contextual issues relating to the activity<br>1.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                                                                                                                                                                                                                                                 |
| <b>2 Select appropriate equipment to participate in activity</b> | 2.1 Select appropriate equipment after consideration of issues that include season, weather and length of activity<br>2.2 Check to ensure that equipment is in good working condition<br>2.3 Fit and adjust equipment correctly and ensure suitability to activity and compliance with manufacturers' specification for use                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>3 Snowboard on advanced terrain at a snowsport area</b>       | 3.1 Demonstrate warm up and stretching exercises<br>3.2 Execute snowboarding <b>movements</b> whilst maintaining a relaxed, upright stance<br>3.3 Blend together snowboarding <b>movements</b> to demonstrate efficient riding<br>3.4 Demonstrate <b>linked turns</b> through the fall line and controlled speed through <b>turnshape</b><br>3.5 Achieve different <b>turn types</b> by appropriately blending snowboarding <b>movements</b><br>3.6 Utilise <b>design of equipment</b> to enhance snowboard performance<br>3.7 Execute airs to show extension on take-off, stability in air and flexion on landing, with balance throughout<br>3.8 Demonstrate fakie <b>turns</b> on all groomed terrain through the fall line<br>3.9 Execute flat land spins in both directions maintaining a centred stance |
| <b>4 Adhere to snowboarding practices</b>                        | 4.1 Demonstrate <b>maintenance</b> of snowboard equipment<br>4.2 Demonstrate snowboarding skills to avoid <b>hazards</b> in a variety of <b>snow conditions, terrain conditions</b> and <b>weather conditions</b><br>4.3 Control snowboarding and speed in areas of slope usage. Observe all snowsport area signs and regulations<br>4.4 Explain the Alpine Responsibility Code and compliance of snowboarding practice with the code                                                                                                                                                                                                                                                                                                                                                                         |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT            | CATEGORIES                                                                                                                                                                                                                                                                                                                                       |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Critical aspects of evidence to be considered</b> | <ul style="list-style-type: none"> <li>• Assessment must confirm sufficient basic knowledge of snowboarding on advanced terrain at a snowsport area (i.e., black runs)</li> <li>• Assessment of performance should be over a minimum of three (3) different occasions covering the prescribed number of categories from the Range Statements</li> <li>• Assessment must confirm the ability to demonstrate efficient and controlled moves on advanced terrain and adhere to safe skiing practices</li> <li>• In particular, assessment must confirm the ability to             <ul style="list-style-type: none"> <li>○ link moves in an efficient and controlled manner</li> <li>○ control differing turns</li> <li>○ jump, glide and land in a balanced manner</li> <li>○ demonstrate maintenance of equipment</li> </ul> </li> </ul> |
| <b>Interdependent assessment of units</b>            | <ul style="list-style-type: none"> <li>• This unit must be assessed after attainment of competency in the following unit(s)             <ul style="list-style-type: none"> <li>○ SROSKB002A Snowboard on intermediate terrain</li> <li>○ SROODR003A Plan outdoor recreation activities (advanced)</li> </ul> </li> <li>• This unit must be assessed in conjunction with the following unit(s)             <ul style="list-style-type: none"> <li>○ SROOPS004B Interpret weather conditions in the outdoors</li> </ul> </li> <li>• For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)             <ul style="list-style-type: none"> <li>○ Nil</li> </ul> </li> </ul>                                                                                                         |
| <b>Required knowledge and skills</b>                 | <ul style="list-style-type: none"> <li>• Required knowledge             <ul style="list-style-type: none"> <li>○ Weather conditions</li> <li>○ Terrain conditions</li> <li>○ Snow conditions</li> <li>○ Equipment selection</li> <li>○ Equipment</li> <li>○ Types of runs at snowsport areas</li> <li>○ Alpine Responsibility Code</li> </ul> </li> <li>• Required skills             <ul style="list-style-type: none"> <li>○ Balance on a snowboard</li> <li>○ Linking of turns</li> <li>○ Use of tows, lifts and chairs</li> <li>○ Jumping skills</li> <li>○ Weather interpretation</li> </ul> </li> </ul>                                                                                                                                                                                                                           |
| <b>Resource implications</b>                         | <ul style="list-style-type: none"> <li>• Physical resources - assessment of this unit of competency requires access to             <ul style="list-style-type: none"> <li>○ snowsport area with suitable terrain (black runs)</li> <li>○ suitable clothing</li> <li>○ snowboard</li> <li>○ boots</li> <li>○ bindings</li> <li>○ lift pass</li> <li>○ food and water</li> </ul> </li> <li>• Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team)</li> </ul>                                                                                                                                                                                                                      |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| SKB        | Snowboarding                               |

**Description:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to: snowboard alpine-style on advanced terrain at a snowsport area; alpine snowboard through a gated course; adhere to safe snowboarding practices. Advanced terrain is equivalent to black runs at a snow sport area.

| ELEMENT                                                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan for the activity</b>                                          | 1.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>1.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>1.3 Identify an appropriate activity site/location after consideration of statutory and organisational procedures, where applicable, and contextual issues relating to the activity<br>1.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                                                      |
| <b>2 Select appropriate equipment to participate in activity</b>        | 2.1 Select appropriate equipment after consideration of issues that include season, weather and length of activity<br>2.2 Check to ensure that equipment is in good working condition<br>2.3 Fit and adjust equipment correctly and ensure suitability to activity and compliance with manufacturers' specification for use                                                                                                                                                                                                                                                                                        |
| <b>3 Snowboard alpine-style on advanced terrain at a snowsport area</b> | 3.1 Demonstrate warm up and stretching exercises<br>3.2 Apply <b>principles of form</b> to refine the <b>movements</b> of snowboarding for a high level of performance on groomed terrain<br>3.3 Apply <b>principles of form</b> to adapt the movements of snowboarding to suit all <b>terrain and snow conditions</b><br>3.4 Carve <b>turns</b> of differing <b>types, shapes and sizes</b> through the fall line<br>3.5 Control speed with the shape of the <b>turn and turn-shape</b> adapted for <b>snow and terrain conditions</b><br>3.6 Utilise <b>design of equipment</b> to enhance snowboard performance |
| <b>4 Alpine snowboard through a gated course</b>                        | 4.1 Demonstrate sideslipping through the course during inspection and describe a most efficient line.<br>4.2 Apply <b>principles of form</b> to refine the <b>movements</b> of snowboarding to result in an <b>efficient line through a gated course</b>                                                                                                                                                                                                                                                                                                                                                           |
| <b>5 Adhere to safe snowboarding practices</b>                          | 5.1 <b>Maintain snowboard equipment</b> to match performance requirements<br>5.2 Use snowboarding skills to avoid <b>hazards</b> in a variety of <b>snow conditions, terrain conditions</b> and <b>weather conditions</b><br>5.3 Control snowboarding and speed in areas of slope usage.<br>5.4 Observe all snowsport area signs and regulations<br>5.5 Explain the Alpine Responsibility Code and compliance of snowboarding practice with the code                                                                                                                                                               |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT                              | CATEGORIES                                                                                                                                                                                                                                                                                                                                                                                               |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

| SKB        | Snowboarding                            |

**Description:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to snowboard freestyle on advanced terrain at a snowsport area; snowboard freestyle on manmade features at a snowsport area; adhere to safe snowboarding practices.

| ELEMENT                                                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan for the activity</b>                                       | 1.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>1.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>1.3 Identify an appropriate activity site/location after consideration of statutory and organisational procedures, where applicable, and contextual issues relating to the activity<br>1.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                                                                                                                                       |
| <b>2 Select appropriate equipment to participate in activity</b>     | 2.1 Select appropriate equipment after consideration of issues that include season, weather and length of activity<br>2.2 Check to ensure that equipment is in good working condition<br>2.3 Fit and adjust equipment correctly and ensure suitability to activity and compliance with manufacturers' specification for use                                                                                                                                                                                                                                                                                                                                                                         |
| <b>3 Snowboard freestyle on advanced terrain at a snowsport area</b> | 3.1 Demonstrate warm up and stretching exercises<br>3.2 Apply the <b>principles of form</b> to adapt the <b>movements</b> of snowboarding to suit the <b>terrain</b> and <b>snow conditions</b><br>3.3 Link together <b>turns</b> of varying <b>radius</b> through the fall line in all <b>situations</b><br>3.4 Control speed with the <b>shape of the turn</b> and/or by using side slipping<br>3.5 Utilise <b>design of equipment</b> and equipment setup to enhance snowboarding <b>performance</b><br>3.6 Execute <b>airs</b> showing extensions on take-off, flexion on landing, with stability throughout<br>3.7 Demonstrate fakie <b>turns</b> on all groomed terrain through the fall line |
| <b>4 Snowboard freestyle on manmade features at a snowsport area</b> | 4.1 Execute <b>airs</b> utilising a table top, including a <b>grab</b> , showing extension on take-off, flexion on landing and stability throughout<br>4.2 Demonstrate half pipe riding utilising <b>board performance</b> and the <b>shape of the pipe</b><br>4.3 Demonstrate air turns either above or below the lip of the half pipe throughout a run<br>4.4 Execute snowboarding techniques through a boarder cross course, demonstrating adaptation and utilisation of <b>terrain features</b>                                                                                                                                                                                                 |
| <b>5 Adhere to safe snowboarding practices</b>                       | 5.1 <b>Maintain</b> snowboard equipment to match performance requirements<br>5.2 Apply snow boarding skills to avoid <b>hazards</b> in a variety of <b>snow conditions</b> , <b>terrain conditions</b> and <b>weather conditions</b><br>5.3 Control snowboarding and speed in areas of slope usage<br>5.4 Observe all snowsport area signs and regulations<br>5.5 Explain the Alpine Responsibility Code and compliance of snowboarding practice with the code                                                                                                                                                                                                                                      |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT            | CATEGORIES                                                                                                                                                                                                                                                                                                   |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

**DESCRIPTION:** This unit has been developed for the Outdoor Recreation Industry Training Package.

This unit covers the knowledge and skills required to, snowboard off -piste at a snowsport area in a range of snow conditions and adhere to safe snowboarding practices off-piste.

| ELEMENT                                                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1 Plan for the activity</b>                                                 | 1.1 Ensure sufficient food and water is available to maintain physiological well-being during activity<br>1.2 Select personal clothing for activity and identify the design/construction features that make it appropriate<br>1.3 Identify an appropriate activity site/location after consideration of statutory and organisational procedures, where applicable, and contextual issues relating to the activity<br>1.4 Access and interpret meteorological data and determine activity plans following consideration of weather information                                                               |
| <b>2 Select appropriate equipment to participate in activity</b>               | 2.1 Select appropriate equipment after consideration of issues that include season, weather and length of activity<br>2.2 Check to ensure that equipment is in good working condition<br>2.3 Fit and adjust equipment correctly and ensure suitability to activity and compliance with manufacturers' specification for use                                                                                                                                                                                                                                                                                 |
| <b>3 Snowboard off-piste at a snowsport area in a range of snow conditions</b> | 3.1 Execute snowboard techniques maintaining an upright centred stance<br>3.2 Select and execute <b>snowboard</b> techniques demonstrating efficient blending of the <b>movements</b><br>3.3 Adapt <b>turn types</b> and <b>shapes</b> for the terrain and snow conditions and link together through the fall line<br>3.4 Control speed with the <b>shape of the turn</b> and/or by using side slipping<br>3.5 Utilise <b>design of equipment</b> to enhance snowboarding performance<br>3.6 Execute airs in off-piste terrain showing extension on take-off, flexion on landing, with stability throughout |
| <b>4 Adhere to safe snowboarding practices off-piste</b>                       | 4.1 <b>Maintain</b> snowboard equipment to match performance requirements<br>4.2 Apply snowboarding skills to avoid <b>hazards</b> in a variety of <b>snow conditions, terrain conditions</b> and <b>weather conditions</b><br>4.3 Control snowboarding and speed in areas of slope usage. Observe all snowsport area signs and regulations<br>4.4 Explain the Alpine Responsibility Code and compliance of snowboarding practice with the code                                                                                                                                                             |

## Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency:

| RANGE STATEMENT            | CATEGORIES                                                                                                                                                                                                                                                                                                                                                  |

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statements.

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
