TAADEL402A Facilitate group-based learning

Unit Descriptor

Facilitate group-based learning

This unit specifies the competency required to facilitate learning by individuals within a group.

The competency of delivering training and facilitating learning to a group involves preparing, guiding supporting and managing learners using a range of delivery methods, knowledge, skills and behaviours that enhance learning.

- It also includes the skills needed to support and manage interactions with and between individuals in a group. The competency of individual facilitation is addressed by a separate unit of competency - TAADEL403A Facilitate individual learning.

- The vocational outcomes and performance requirements of this unit are set in the context that the learning outcomes to be achieved are defined and documented through a learning program (TAADES402A Design and develop learning programs) and the organisational arrangements to support delivery have been previously determined (TAADEL401A Plan and organise group-based delivery). The focus of the group facilitator is on guiding and supporting learners' progress towards the learning outcomes / competency to be achieved.

- The skill of group facilitation, which is not linked to specified learning outcomes, is also addressed in this Training Package through TAATAS504A Facilitate group processes. The competency defined in that unit focuses on facilitating a group to determine its own outcomes.

- Co-learning and assessment with TAADEL401A Plan and organise group-based delivery is strongly recommended where both these competencies are required. Both units are written from the perspective of a face-to-face delivery mode within an off-the-job learning context such as a training room, classroom, meeting room, community setting or any location a group can access which is safe, relevant and conducive to learning.

- Throughout this unit the 'learner' refers to the individual participating in the group learning process, not the candidate undertaking this unit.

- The competency specified in this unit is typically required by trainers / facilitators, teachers and training consultants.
