NWPTRT016 Operate and control dissolved air flotation processes

Release: 1

NWPTRT016 Operate and control dissolved air flotation processes

Modification History

Release 1. This is the first release of this unit of competency in the NWP National Water Training Package.

Application

This unit involves the skills and knowledge required to operate and control dissolved air flotation (DAF) processes.

It includes measuring and reporting on system performance and processing quality control of DAF processes. It also includes identifying faults, determining and applying process adjustments and producing reports.

This unit applies to those working as operational staff with a specific responsibility for DAF processes. Those undertaking this unit would work under appropriate supervision, while performing routine tasks, within a familiar context.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

Treatment

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Prepare for work

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1.1 Determine work requirements from job specifications

		and plans
	1.2	Select and check equipment to meet safety requirements of task and worksite
	1.3	Select, fit and use safety equipment including personal protective equipment (PPE)
2	Operate and control dissolved air flotation processes	
	2.1	Conduct routine inspections according to workplace procedures
	2.2	Identify and report process faults to relevant people
	2.3	Collect process samples and conduct standard tests according to workplace procedures
	2.4	Interpret data and make process adjustments to maintain operational parameters
3	Complete documentation	
	3.1	Collect, interpret and record process data according to workplace procedures and process requirements
	3.2	Identify data outside of normal operational parameters and report to relevant personnel for further action

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to NWPTRT033 Operate and control DAF processes.
